DRAFT BATTLE GOES TO HOUSE

MOSCOW GIVES OUT A LIST OF HITLER LOSSES

Calls German Claims 'Fairy Tales.'

MOSCOW, Aug. 8 [Friday]. — The German army that overran most of Europe before tackling huge Russian forces now has lost more than 1,500,000 men to Russia's 600,000, and the Red army still is savagely holding its own on all battle fronts, it was announced here today.

German official claims that the Russians had lost 895,000 prisoners and more than 4 million in killed and captured were termed "Arabian fairy tales" designed to bolster failing morale within the Reich.

A communique said it was significant that the German people thus far had not been told how many Nazi troops were slain on the plains of Russia.

Sets These Losses.

It set forth this table of losses in material destroyed or captured by both sides:

	German.	Russian.
Tanks	6,000	5,000
Artillery	8,000	7,000
Planes	6,000	4,000

"As one can see from the above mentioned facts," the communique said, "the true picture of the balance sheet of six weeks of Hitlerian Germany's war against the U. S. S. R. is as different as day and night from the false 'special communiques.'" It said that the "immense losses explain why the Germans still are throwing into combat soldiers more than 45 years old and youths of 17."

In Berlin on Wednesday the Germans announced that soviet losses totaled 13,145 tanks, 10,388 guns, and 9,082 planes. The soviets said these figures were "fantastic."

The communique pictured the German people as plunged into "despondency and confusion" from reports penetrating Germany about tremendous losses at the front, from the food situation and from dislocation of German industry.

Says There's No Stalin Line.

"Concealing from the German population the real losses suffered by the German army in the war against the U. S. R. R., Hitlerite propaganda is treating the population to ridiculous nonsense," it said.

The announcement said that the German command attempted to account for heavy losses and failure to advance quickly by creating a "legend of the existence of a powerful fortified Stalin line" wherever Germans met stiff resistence.

"However, no special 'Stalin line' ever existed or exists," the communique continued. "It was invented by the Germans to justify their tremendous losses."

JULY SHIP LOSS OF GREAT BRITAIN LOWEST IN YEAR

LONDON, Aug. 7 (AP).—First Lord of the Admiralty A. V. Alexander disclosed tonight that convoys, planes, and patrols in the north Atlantic had cut July British shipping losses to the lowest in more than a year.

Although Alexander did not give specific figures, he declared that "the month of July is the best we have had since I have been at the admiralty." He took office with the Churchill government on May 12, 1940.

Previously the lowest month under Alexander was January, 1941, when 306,002 tons of British, allied, and neutral shipping were sunk. June, 1941, was the next lowest with 329,296.

KIEV ENCIRCLED, NAZIS SAY; REDS TELL OF BATTLES

Encirclement of Kiev, capital of Russia's Ukraine, was claimed in a German radio broadcast last night as the high command reported the battle of Smolensk, on the road to Moscow, "victoriously completed."

Superheavy Russian tanks were used to crush smaller German machines in counterattacks near Smolensk, Moscow said, in announcing that battles raged well out in front of Leningrad, Moscow, and Kiev, but with the Red armies holding their own.

Reporter Tells Experience on Finnish Front

BY LOUIS P. LOCHNER.

WITH THE FINNISH ARMY ON THE RUSSIAN FRONT, Aug. 7 (AP). —During five days spent with the Finnish army I have had occasion to work my way to the foremost lines of the front—to within 50 yards of the Russians. I discovered that unless you can duck quickly, jump alertly, and crawl easily, you are not likely to qualify as a Finnish soldier.

After giving us an insight into the military situation, a colonel ordered a lieutenant to take us forward to the outermost sentinels. These lads know the forest as nobody else does. We had hardly left the colonel's camouflaged dugout when artillery fire began on both sides.

Numerous shot-off trees indicated shells often hit about where we were. So our young lieutenant guide motioned to us to jump, always throwing ourselves on our stomachs when we reached a new position.

Then There Are the Mines!

"Be careful of mines," was his admonition. "Stick close to the path I make. I know where the mines are."

Soon we came to a 150 foot wide river, with the Russian town of Toulos about two miles away. The Russians still were holding a section of this town.

As we lay behind the last trees, the Finnish artillery resumed fire. One shell hit a house directly.

"Now is our chance to cross the river quickly," our escort said. "The Russians will be so mad that they'll fire at our artillery position."

Cross River Into Forest.

We ran to an improvised log bridge and crossed to the forest on the opposite shore without incident. Then we walked on, crouching most of the time, to a tiny tent containing merely field telephone equipment and maps. A first lieutenant on duty was reporting to artillery staff headquarters on where the Finnish shells had struck at Toulos.

A few moments later heavy artillery fire was resumed on both sides. The noise was terrific. But we were more interested in the sharp reports of rifles we heard ahead of us.

"Be especially careful," our lieutenant cautioned. "Don't talk. Crouch or crawl, and always take cover behind a tree."

Come Upon a "Mushroom Bed."

After about 200 yards or so we could detect ahead of us what seemed to be huge mushrooms. Occasionally one would come to life and there would be a rifle report.

The mushrooms, it developed, were the steel helmets of Finnish outposts lying in "fox holes" with rifles ready for action should they see some Russians move along the soviet lines scarcely 50 yards away.

For about 15 minutes we lay in our positions with the Finnish outposts.

Reds Stay 'Home' During Day.

"This isn't so bad," our guide whispered. "During the day the Russians stay over in their own section and we need merely to fire a warning shot from time to time to prevent them from sallying. But at night they come over here regularly and then we must all be on our guard. You notice that during the day now they hardly bother to answer our rifle firing. But last night we picked off three who were trying to sneak over here for a surprise attack."

When we returned to the river the Finnish artillery was giving the Russians so much to do that they did not have time to bother with us and singly at intervals of about 20 feet we crossed the stream safely.

Soon we were eating hardtack, potato soup, and canned fish in the thick of a forest as guests of the colonel.

SCOTLAND CLOSES HOTEL BARS TO CURB SUNDAY DRINKING

[Chicago Tribune Press Service.]

LONDON, Aug. 7.—Sunday drinking in Scotland was drastically curtailed today in an order by Thomas Johnston, secretary of state for Scotland, issued under the emergency defense regulations.

Thomas Johnston.

The order, which covers the most populous counties of Scotland and may be extended to other areas, provides for the closing of hotel bars on Sunday, beginning Aug. 17, and prohibits serving of alcoholic drinks except with meals in hotel restaurants.

It was explained that there has been "considerable abuse of a long-standing privilege" whereby travelers can obtain drinks at hotel bars. Pubs now are closed on Sundays. Police reports showed many persons had made a habit of traveling to hotels for their drinks, a practice, which the home department said, had "imposed an additional burden on transport services, owing to the large scale use of buses by Sunday drinkers."

Evanston Rally Protests War 'Road to Ruin'

A demand that President Roosevelt keep his peace pledges and take the country off the road to war met a lusty vocal indorsement last night at an anti-war rally in Evanston High school auditorium.

Those who voiced the demand and urged that the American people do likewise were Richard J. Lyons, Illinois Republican leader, and former Gov. Philip La Follette of Wisconsin. The meeting was sponsored by the America First committee. Mrs. Janet Ayer Fairbank, vice chairman of the committee, presided.

Lyons warned that the present European conflict was caused by the placing of unlimited power in the hands of one man. He was cheered when he urged that his listeners speak out now against the possibility of the United States going down the same road to ruin.

Fears One Man Rule.

"Unless this trend is stopped," Lyons said, "and congress takes over its entire duties, that same power the dictators of Europe now have may be placed in the hands of one man in this nation.

"If that happens, good-by to the kind of America that you and I have always known. That must not happen here. It cannot happen if the people in this audience and elsewhere contribute what little they can."

Lyons said war mongers who would suppress all opposition to their own conceptions of America's foreign policy are not patriotic.

"They would impair the rights of fellow citizens to express their views," he continued. "The day congress passes a resolution declaring war no patriotic American questions the wisdom of the course. But up to that moment, the individual is free to debate, join societies and committees.

President Must Choose.

"It is no mark of patriotism to be pro-British just as it is no mark of disloyalty not to be pro-British because, after all, we are not part of the British empire—we are the United States of America."

La Follette asserted that President Roosevelt has reached a point where he must choose between his peace promises to the American people and his innuendo pledges to the British.

"The Roosevelt and Churchill régimes have at least one bond in common," La Follette said. "Both have violated a basic principle of free government. Instead of pursuing the

SENATE PASSES BILL TO MAKE TERM 2½ YEARS

Adds $10 Month to Pay of Soldiers.

BY CHESLY MANLY.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—By a vote of 45 to 30, the senate tonight passed the administration resolution authorizing President Roosevelt to extend for 18 months the active service of draftees, National Guardsmen, reserve officers, retired personnel, and regular army enlisted men.

Senator Hiram Johnson.

The senate thus transferred a furious controversy over the war policies of the Roosevelt administration to the house of representatives, where the fate of the proposal to extend the service of draftees is conceded by administration leaders to be doubtful.

The senate also voted to pay all enlisted men $10 extra a month for time served over 12 months in the case of draftees and National Guardsmen and over 3 years in the case of regular enlisted army men.

The administration's margin of victory in the senate was smaller than it has been on any test of strength involving foreign policy since the outbreak of the European war in 1939. Administration leaders had expressed confidence that the final vote would be at least two to one, but it was only three to two.

New Dealers Vote "No."

Heretofore consistent supporters of the administration's preparedness program and foreign policy, Senators Millard E. Tydings [D., Md.], Prentiss M. Brown [D., Mich.], and Frederick Van Nuys [D., Ind.], all voted against the resolution extending the service of army personnel.

Others voting against the resolution included the chairman of the military affairs committee, Senator Robert R. Reynolds, [D., N. C.]; the chairman of the naval affairs committee, Senator David I. Walsh [D., Mass.], and the next two ranking Democratic members of the naval affairs committee—Senator Tydings and Senator Ellison D. Smith of South Carolina.

The resolution, as recommended by the war department and reported by the military affairs committee, authorized the President to extend the service of all army personnel indefinitely.

Curb Is Voted, 44 to 28.

The senate, however, by a vote of 44 to 28, adopted an amendment earlier today which limits the proposed extension of army service to 18 months—or a total of 2½ years for draftees, National Guardsmen, reservists, retired personnel, and regular army enlisted men who volunteered for one year, and 4½ years for regular army enlisted men who volunteered for three years.

The compromise amendment offered by the military affairs committee was intended to make the legislation more palatable for both the senate and the house.

The resolution declares that the

The Wrath to Come

(An Editorial)

The Republican party is the minority party, but it represents the majority sentiment in the most important division of opinion in a generation of Americans. The party representatives in the house of representatives, recognizing this and the obligations it carries with it, have signed a resolution giving the people of the country "a definite expression of our views on national defense and foreign policy."

The declaration was needed to reassure the majority of the people that they have not been wholly deserted and betrayed by their representative system.

The position of most of the Republican party leaders, both in and out of congress, has been known, but it had become imperative that something like united party action should be taken to make it plain that the party stood by its own platform and would demand that the majority party, the one which won the election, should abide by its campaign pledges as given by the party platform and by the party candidates.

One pronouncement of weight came from 15 of the party leaders. The resolution of the house Republicans follows that, reinforces it, and puts the party behind it. Thus the party becomes by a full expression of its beliefs and decisions the party of opposition to entering the war abroad.

Under Mr. Roosevelt, the Democratic party has ceased to be representative of the country which returned it to office. Every testing of public opinion shows that the people are 4 to 1 against entering foreign war. People whose votes sent Mr. Roosevelt back into the White House and gave the Democrats the control of congress are against the program to which Mr. Roosevelt and under him his party are openly committed. The program is a breach of faith with the people whose votes were obtained under false promises which they apparently fully trusted.

The Republicans in congress, in their resolution, repeat not only the Republican pledge but the Democratic. The Republican platform said: "The Republican party is firmly opposed to involving this nation in foreign war." The Democratic platform said: "We will not participate in foreign wars, and we will not send our army, naval, or air forces to fight in foreign lands outside of the Americas, except in case of attack."

The phrase "except in case of attack" cannot be used as an escape clause from the otherwise unconditional promise. The country has not been attacked. The people are not to be cheated by the assumption that if we do not at once carry the war into some foreign land we shall be invaded, nor are they to be deceived by the pretense that since these pledges were given them by their two major parties conditions have so changed that Mr. Roosevelt could not now honestly or wisely, prudently or patriotically, pledge himself as he did when he was a candidate. This is a pretense and a falsity.

All changes which have taken place on the war map since the November election have added to the difficulties of the axis powers, to the resources and strength of the British, and have improved the defensive position of the United States. Japan, altho more aggressive, is in greater difficulties and is aggressive for that reason. Italy has become almost negligible and Germany, which had gone from one easy victory to another, is engaged to the full testing of its powers in a great war.

These conditions are all favorable to the keeping of pledges, particularly of those pledges unequivocally given by Mr. Roosevelt himself. And yet we have the Democratic party putting forward as its principal spokesman in the senate such a man as Claude Pepper of Florida, who demands that the American people commit themselves to a military and financial catastrophe which this little trifler with national destiny describes as incalculable. He talks of the squandering of hundreds of billions of dollars and of the sacrifice of millions of lives, for years and years, as if it were tolerable to the thought or endurable to the flesh. He, speaking for his party and his party chief, confronts the nation with this fate as if it were unescapable and were already upon us.

There is a design that it should be unescapable, and the Democratic party in congress, dumb or indifferent, paralyzed or hypnotized, is surrendering the majority of its votes to authorize war abroad, supporting a policy denounced by the people, denounced by these very Democrats themselves, and by every truly prophetic voice.

Do Mr. Pepper and those for whom he speaks think there will be anything left of the Democratic party if what he predicts for the United States should become a reality—because of what he and they have done? Even if the country as we have known it and its government as we have desired it to be should survive in the long endurance that would be required after such an experience, the men and the party who had brought it about would be buried under a hatred which would last as long as they and their acts were remembered.

Fear of punishment is not a high motive, but possibly these subservient men will listen to none other. The Republicans may be able to do no more than present a front against the misrepresentatives of a people threatened by their own government, but the Republicans can do no less.

The madness of the war party increases day by day. It has lost reason. It is demanding human sacrifices and wants to splatter its altars, but there is wrath coming and the persons who betray the country, sacrifice its youth, and leave it in the world's wreckage will feel the edge of that just anger.

Lend China 10 Million Yds. of Cloth to Uniform Army

Washington, D. C., Aug. 7 [Special].—The lease-lend administration has ordered 10 million yards of cotton cloth for uniforms for the Chinese army. Treasury Secretary Henry Morgenthau announced today.

BRITISH SENDING DUKE TO GARNER MORE 'LEND' AID

Hope Kent Can Save Waning Prestige.

BY WALTER TROHAN.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—The British are planning a new war offensive in the national capital late this month when the duke of Kent, youngest brother of King George VI., is scheduled to arrive for a short visit.

Duke of Kent.

The visit is being time to coincide with consideration of the second lend-lease appropriation bill. The British are nearing the bottom of the barrel of 7,000 million dollars voted by congress last March and are now talking about a second appropriation of 10,000 million dollars.

In the social whirl of the duke's visit, it is expected that many votes will be won to the second grant of lease-lend funds and to the British war cause.

Hope to Offset Bunglers.

The impending visit of the duke of Kent is considered by Britishers in Washington—these are more than 3,000 strong since President Roosevelt has made the underwriting of Britain's war the keystone of American foreign policy—as the most studied effort to strengthen British-American ties since the visit of King George and Queen Elizabeth in 1939.

Kent is expected to offset the bad impression created recently by propagandists sent out from London to draw this country into war, such as Col. J. C. Wedgwood, British Laborite member of parliament, who aroused antagonism by declaring in public speeches that the European war is "your war" and that Americans already are in the conflict "up to your necks."

Wave of Anti-British Feeling.

Wedgwood's war propaganda speeches and the expression of similar sentiments by Britishers assigned to the national capital to spend American tax dollars brought a strong anti-British reaction here within the last few weeks.

British airs of superiority and condescension irritated American officials and army and navy officers. It also irritated young men who have been escorting British young women attached to the various missions here, who have constituted an important propaganda avenue in their hours off duty.

The British propaganda campaign was falling down on another front—the social front. Young Britishers with titles and a drawing room manner have become so common they no longer are a conquest for capital social climbers.

Shot in Arm Needed.

It was recognized that some dramatic move to revive interest in the British cause was necessary, particularly when grapevines hummed with information that a second request for lend-lease funds might not be received with enthusiasm on Capitol hill.

Mr. Roosevelt, who has evidenced a great friendship for royalty, particularly British royalty, will put the duke up for a Hyde Park week-end on Aug. 23. The duke will return to the White House with the President, to be a guest at the executive mansion.

18 to 60 Year 'Fire Watch' Draft Ordered in London

[Chicago Tribune Press Service.]

LONDON, Aug. 7.—Because of the shortage of volunteers, Minister of Home Security Herbert Morrison today exercised compulsory powers when he ordered all male British residents of London between 18 and 60 years of age to register for fire watching. Apart from "city" and Westminster areas, fire watching so far has been voluntary.

Reds Seize Nazi Woman Spy in Red Cross Uniform

MOSCOW, Aug. 7.—Izvestia, official Russian newspaper, printed a dispatch today asserting that a Nazi woman spy, dressed as a Red Cross nurse, has been captured. She admitted she was one of eight who landed by parachutes behind soviet lines. Others are now being hunted.

NOOSE DRAWN AROUND KIEV, NAZIS ASSERT

Report Smolensk Fight Completed.

BERLIN, Aug. 7 (AP).—The German radio tonight broadcast a report from the Russian front that German troops had encircled Kiev, the industrial capital of the rich soviet Ukraine.

The dispatch, from a propaganda company of journalist reporters which travels in the front lines, said infantry units now had reached the most advanced lines of armored troops, which were said to have approached within 12 miles of Kiev some time ago.

It did not say specifically how tight the reported circle was drawn. The high command contended yesterday that the Germans had driven a wedge to the gates of Kiev.

Recount Smolensk Battle.

Germany's high command recounted at length the past phases of the battle of Smolensk and again listed Russian manpower losses in six figures but kept its silence on what the reported victory cost the Germans.

"Our losses were moderate, those of the opponent extraordinary high," was all the communique said.

German sources have placed the number of Russians killed and captured on the entire front at more than 4,000,000.

The communique began by repeating Russian losses as published yesterday: 310,000 prisoners taken, 3,205 tanks, 3,120 artillery pieces, 1,098 airplanes, "and an unsurveyable amount of other war material" captured or destroyed.

Say Smolensk Captured.

Declaring again that the battle now has been "victoriously completed," the communique also repeated that Smolensk itself was taken July 16, saying it was done by "a motorized infantry division in hand to hand fighting" and that the city "was held against continuous furious enemy attacks."

Claim Steamers Sunk.

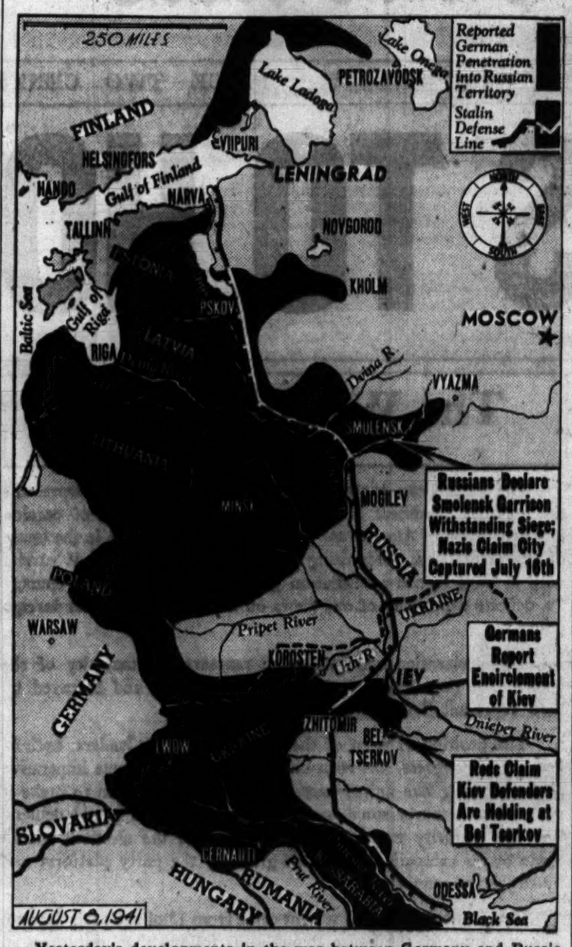
German warplanes were reported to have destroyed 16 river steamers yesterday southeast of Smolensk. The Russians were said to be resorting to boats because rail lines have been subjected to constant air bombardment.

According to German sources Nazi troops are mopping up scattered Russian units in the southern section while the air force is carrying the offensive to the environs of Leningrad in the northern area. The Russian air force is described as powerless to assist soviet ground forces.

Still farther south the Germans were reported widening a breach in the Russian line along the old Rumanian-soviet boundary.

In the far north, the air force was said to have made a surprise attack on a big Russian troop concentration point behind the soviet lines.

The War in Russia



Yesterday's developments in the war between Germany and Russia, as gleaned from communiques issued by both sides.

ARMIES HOLDING IN ALL SECTORS, MOSCOW CLAIMS

Reports Fierce Battles for Key Cities.

MOSCOW, Aug. 8 [Friday]—(AP).—The Russian high command today said the Red armies were holding their own on all sections of the front and still were fighting grimly well out in front of Leningrad, Moscow, and Kiev.

[A German radio report said Kiev had been encircled.]

The early morning communique reported continued fierce fighting at Kakisalmi, Kholm, Smolensk, and Bel Tserkov—all regions which had been mentioned in previous communiques as centers of fighting. Kakisalmi is 75 miles north of Leningrad and Bel Tserkov is 45 miles south of Kiev on the Ukraine front. Kholm is midway between Smolensk and Leningrad.

Heavy Tanks Crush Nazis.

Last reports said Red troops still held at least part of strategic Smolensk despite attempts of air-borne light tanks and German parachute troops to take it. Russian troops were pictured as having counterattacked the Germans on the Smolensk front before Moscow with superheavy tanks which crushed smaller German machines.

The Red army garrison at Smolensk, which the Russians declare has been withstanding siege for three weeks in the greatest battle to date in the Russo-German war, was reported to have been still holding the fort as recently as Aug. 2. This was in direct contradiction to the German high command's declaration that the city fell July 16.

A letter from a Russian soldier to his father in Moscow, written five days ago, said that the Germans had dropped a large number of parachutists and landed by air some light tanks in Smolensk, but never gained a foothold in the city.

Tanks Deal Heavy Blows.

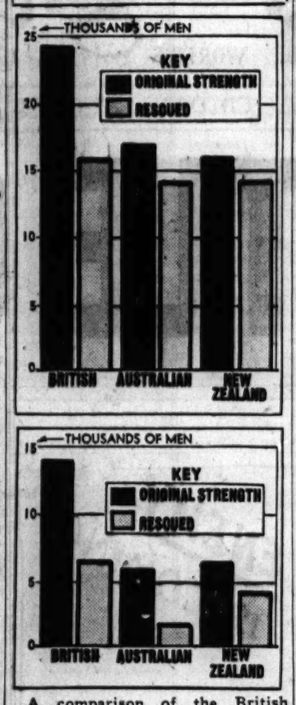
The letter was brought out by hand, indicating that the Russians held at least one road open to the besieged fortress.

The communique, telling how the Russian superheavy tanks dealt smashing blows, declared that the German 112th and 59th tank regiments of the 20th tank division had suffered serious losses under armored Red army assaults.

The army newspaper, Red Star, reported in addition that the soviet land battleships had attacked the rear of the German 8th tank division and destroyed a three mile long column of 240 munitions trucks.

The Russian communique said 39 German planes were shot down yesterday and that 19 soviet planes were lost.

British Losses



A comparison of the British forces sent to Greece (top) and Crete (bottom) with the number of men rescued from each campaign, divided among British, Australians, and New Zealanders.

LONDON, Aug. 7 (AP).—War Secretary Capt. David Margesson told the house of commons today, in a written reply to a question, that British imperial forces left behind 25,862 prisoners and dead in the evacuations of Greece and Crete.

This included Australian and New Zealand forces, as well as those from the United Kingdom.

He said the latest information showed that of the total British strength in Greece at the beginning of the German attack, 57,757 officers and men, 44,865 were removed. When the Germans attacked Crete the British strength was 27,550 and of these 14,580 were taken safely away.

Full details are not available, but present information was said to show that the following was the outcome of the Greek campaign:

Force.	Original Strength.	Rescued.	Casualties.
British	24,100	16,442	7,658
Australian	17,125	14,157	2,968
New Zealand	16,632	14,366	2,266
Totals	57,757	44,865	12,892

The figures for the unsuccessful defense of Crete:

Force.	Original Strength.	Rescued.	Casualties.
British	14,000	7,130	6,870
Australian	6,450	2,890	3,560
New Zealand	7,100	4,560	2,540
Totals	27,550	14,580	12,970

The Crete totals at the start of the fighting included men removed from Greece but not reevacuated to Egypt before the Crete operations. It is not possible to say how many of the missing are prisoners of war.

NAZIS SEE TOTAL DESTRUCTION OF REDS NECESSARY

Assert It's Suicide for Moscow to Go On.

[Chicago Tribune Press Service.]

BERLIN, Aug. 7.—"Nothing but the complete annihilation of the soviet forces will end the Russo-German war." This is the conclusion reached in military circles here after almost seven weeks of conflict on the eastern front.

"In any other country the responsible commanders would plead for an armistice if faced with a situation when further resistance would only mean the useless sacrifice of one's own troops," the Germans argued. "In view of the utter disregard the soviet command displays for human life, it will continue the fight even if it means suicide."

It is believed that with the "battle of annihilation" at Kiev, capital of the Ukraine, in full swing and with the encirclement battle of Smolensk concluded, as reported in the official communique, a long step has been made toward the complete collapse of the soviet army.

[The Russians say they still are in Smolensk, where they report their armies are still fighting the Germans.]

Adopt Same Tactics.

The German tactics at Smolensk were similar to those employed on other fronts. After the armored divisions and speed troops closed the trap, the German foot divisions followed in fast marches, covering both flanks of the wedge driven into the defense forces. The infantry divisions then proceeded to mop up the pockets.

The Russian tactics, however, differed widely from those employed by the French, it was said. Operating on the principle that every attack must be followed immediately by a counterattack, the trapped soviet troops at Smolensk were said to have made many attemps to break the iron ring forged around them while other soviet forces from the east tried to relieve the encircled troops by attacking the German flanks.

Many attempts by the Russians to drive a counter wedge between the advancing German tanks and the slower foot divisions, also were reported. Tanks and motorized units often succeeded in temporarily separating the German infantry from the motorized vanguards, but these attacks were "ground to pieces."

Soviets Fight Far to West.

The present "front line" shows the Germans far to the east in the central Moscow sector and in the south, but between these two sectors the line is lagging far behind.

Soviet troops still are fighting in the center of the Pripet marshes, some 200 miles to the west. It is understood that this sector is held by the 4th and 5th soviet armies. The marshes thus form a deep salient far into the German lines.

FREED ON PROMISE TO JOIN NAVY.

Judge Charles S. Dougherty yesterday dismissed a disorderly conduct charge against Jack Blake, 18 years old, 910 Lawrence avenue, after Blake promised to join the navy.

NEW FRIENDSHIP WITH AMERICA IS SEEN BY MOSCOW

Signified by Welles' Notes: Lozovsky.

MOSCOW, Aug. 7 (AP).—The recent exchange of letters between Acting Secretary of State Sumner Welles and Russian Ambassador Constantin Oumansky "undoubtedly signifies a rapprochement" between the United States and the soviet union, S. A. Lozovsky, vice commissar for foreign affairs, said today.

Asked at a press conference whether the exchange meant a specific accord, Lozovsky said "No pact of friendship or mutual assistance has been signed."

Pravda Hints Attack on U. S.

The letters which Lozovsky mentioned concerned the United States' decision to render all practicable economic aid to Russia.

Pravda, communist party organ, also hailed what it called accumulating evidence of collaboration between the soviet union and the United States in "the struggle against humanity's common foe—bloodthirsty Hitler."

Hopkins' Visit Cited.

An editorial devoted to Russian-American relations charged that Germany, pursuing an aim of world conquest, was trying to wrest Atlantic bases from the Vichy [France] government in preparation for an attack on America.

As testimony of coöperation between Moscow and Washington, D. C., Pravda enumerated the vist to the soviet capital of Harry Hopkins, President Roosevelt's personal envoy; renewal of the trade agreement between the U. S. S. R. and the United States, and the exchange of notes between Welles and Oumansky.

HULL SAYS VICHY'S CONDUCT WILL RULE RELATIONS WITH U. S.

Washington, D. C., Aug. 7 (AP).—Secretary of State Cordell Hull today indicated that American relations with the Vichy government depend more on French action in defending French territory than on assurances just received from Vichy. He has received a French note substantially along the lines reported in press dispatches from Vichy, the secretary told his press conference.

Asked whether these new assurances were satisfactory, Hull said he still wished to know more about what is going on in Vichy.

The French note was reported to have expressed Vichy's intentions of defending the empire in its own way. Hull's remarks led some observers to infer that the note in itself failed to satisfy the American government entirely on the question of defense of French Africa and other territory, or resistance to axis demands for military bases and other concessions.

WAR OR PEACE UP TO PEOPLE, SAYS ANTON J. JOHNSON

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—The greatest present danger to the United States is not from an outside invader but from the minority war group within—the 10 or 20 per cent of Americans who are clamoring for and pushing the nation toward war—Representative Anton J. Johnson [R., Ill.] declared tonight in a radio speech.

"War or peace is actually a matter of selection," he declared. "We can have either and it is up to us to make our choice. We are told we must fight the dictators to maintain the four freedoms. I say the four freedoms will survive whatever their transitory state may be at the moment. Those nations who want them will have them sooner or later."

Johnson urged citizens thruout the country to write to the President and their representatives in congress making known their views against involvement in a shooting war in Europe. Thus, he said, Americans can take part in the crusade to save their country from chaos and financial ruin.

BERLIN BOMBED FOR 80TH TIME; ADMIT LIFE LOSS

BERLIN, Aug. 8 [Friday] (AP).—British bombers attacking Berlin during the night for the 80th time caused a slight loss of life among the civilian population, and minor property damage, it was officially stated today.

Nazis Bomb Scottish Town.

LONDON, Aug. 8 [Friday]—(AP).—German raiders bombed a northeast Scottish town early today, causing a number of casualties. Bombers also were reported over East Anglia and the coast regions of eastern England.

Yesterday the RAF bombed a German airdrome near St. Omer, France, German shipping, and other targets near Gravelines in two daylight offensive sweeps which cost Britain 10 fighter planes and the Nazis four. No bombers were lost.

[German accounts said the RAF lost 24 planes in the channel area yesterday up to 10 p. m.]

Yesterday's assaults followed Wednesday night's storm defying raid on the northwest German industrial centers of Mannheim, Frankfurt, and Karlsruhe.

[British radio reports heard in New York said Britain had destroyed 1,057 axis planes and lost 661 on all fronts in the last three months.]

TWO SEIZED LOOTING GAS STATION.

Richard Miller, 15 years old, and Lewis Gardner, 16, both of Cincinnati, O., were arrested early yesterday while looting a gasoline station at 1500 Devon avenue. They told police they had driven here in a stolen car.

SOLDIERS THRIVE ON SHIRT POCKET MEALS IN A TEST

Fort Snelling, Minn., Aug. 7 (AP).—Six Fort Snelling soldiers went back to regular garrison rations today, none the worse for three days on a new field ration, as army officials and Dr. Ancel Keys of the University of Minnesota planned more extensive tests of the condensed meals.

Termed a success by Dr. Keys who developed the shirt-pocket meal, the 2⅞ ounce, 3,200 calorie daily ration will be altered, however, to give variation.

The six men who lived since Monday noon on the concentrated ration were happy to be off the test, but were not displeased with the meals. Capt. R. H. MacDonnell of the army subsistence laboratory in Chicago, who with his superior, Lieut. Col. Rohland A. Isker, chief of the laboratory, said: "We had plenty to eat, and suffered no ill effects."

SLASHES SELF FATALLY.

Althe his mother tried to stop him, Thomas Jordan, 28 years old, killed himself yesterday by slashing his throat in his home at 3520 Wallace street.

SCORES ANSWER GAMBLING WRIT IN JOYCE COURT

Belleville, Ill., Aug. 7 [Special].—Today was the last day for Cook county defendants in Circuit Judge Maurice V. Joyce's state-wide injunction against gambling, who were served with the writ by special officers, to file answers to the charges.

Scores of answers were being filed, all of them attacking legality of the writ and the jurisdiction of the court.

Judge Joyce is expected to rule on remaining pleadings in September, after which a final order will be entered.

LOOP CENTER IS OPENED FOR SERVICE MEN

Soldiers from Fort Sheridan and sailors from the Great Lakes Naval Training station, together with army, navy, and municipal officials, participated yesterday afternoon in the formal opening of the Chicago's Service Men's center at 176 West Washington street. The ceremony was broadcast over a coast to coast network from 2 to 2:15 p. m. by W-G-N and the Mutual Broadcasting system.

Mayor Kelly, Rear Admiral John Downes of the 9th naval district, Commander T. DeWitt Carr, executive officer at Great Lakes, and Col. N. B. Wood, morale officer of the 6th corps army area, were among officials taking part in the ceremony. Light touches during the formalities were provided by Jerry Colonna, radio and screen comedian, and Dinah Shore, singer, both of whom are now appearing at the Chicago theater.

The Service Men's center, which occupies 12 floors in the former Elks' building, is designed to provide inexpensive recreational facilities for men in the armed forces who are visiting Chicago. The center now has lounge and reading rooms and a ballroom for dancing. It is planned to add billiard rooms, dormitories, and other facilities later.

CHARGE BRITISH TAX ON U. S. AID HAMPERS CHINA

Protest Transit Rates on Goods in Burma.

[Copyright: 1941: By the New York News.]

Washington, D. C., Aug. 7.—Great Britain, principal beneficiary to date under America's 8,500 million dollar lease-lend appropriation, is indirectly hampering China's lone fight in the Far East by exacting transit duties and "excessive" freight rates on the relatively small amounts of supplies the United States is able to deliver to embattled Chungking thru British Burma, it was learned today.

The harmful effect of the duties and high transportation rates is twofold: Movement of the supplies from Rangoon, Burmese port of entry, to the Chinese border is delayed by a scrupulously minute customs examination of every item. Payment of the charges in Burmese rupees imposes an additional drain on China's small foreign exchange holdings, which would be almost non-existent now were it not for financial assistance from the United States.

Formal Protest Reported.

The disclosure was accompanied by a reliable report that the United States government, which has had recent occasion to complain of British hampering of American defense work on newly granted United States air and naval bases, has made informal representations to London against the practices.

Thus far, it was said, London has taken the position that the problem is one for the Chinese to settle with Burma directly. Obviously vexed and wholly unsatisfied United States officials, however, point to the great powers exercised by the British governor general of Burma, and indicate that if informal representations to London continue unavailing, other and stronger pressure will be applied by this government.

The Burmese transit tax is 1 per cent of the value of the goods. In addition, the British-owned Burma railway, over which the goods are carried from Rangoon to Lashio, the terminus, for transfer to trucks, charges rates 100 per cent higher than those of American railroads. In addition, there is a loading and unloading charge, amounting to almost 50 per cent of the rail rate.

Penalized for Using River.

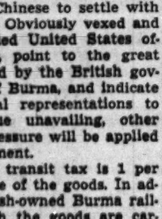
To obtain these "ordinary" rates, the Chinese are required to use the Burma railway exclusively. If, in an effort to save time in certain circumstances, use is made of boats on the Irrawaddy river, the railway company imposes rates 25 per cent higher than the "ordinary" on future rail shipments.

To insure collection of the 1 per cent transit duty, every case of American goods destined for China's fighters is opened at Rangoon, with a resulting delay of as much as two weeks in the long and hazardous journey from the United States to China.

"It is bad enough," one United States official commented, "that China is being made to pay Britain a tax and a profit on every ounce of aid the United States gives to China. But that is nothing compared with the unnecessary loss of time in getting aid to the people who are fighting our battle—and, most of all, Britain's battle—in Asia."

RED CANDIDATE IS CONVICTED ON PERJURY CHARGE

San Francisco, Cal., Aug. 7 (AP).—Sam Darcy, communist candidate for governor of California in 1934 and more recently secretary of the Pennsylvania communist party, was convicted last night of perjury.



Sam Darcy.

He was accused of falsifying his 1934 registration as a voter, listing his birthplace as New York City, whereas, the government contended, he actually was born in Russia. The government contended his real name was Samuel Dardeck.

Superior Judge George Schonfeld ordered him held without bond, pending sentencing Saturday. A term of from 1 to 14 years is possible.

8 Germans Seized by Cuba as Spies; 24 Others Sought

HAVANA, Cuba, Aug. 7.—Eight Germans were arrested today and 24 others are being sought as members of a counterespionage bureau, it was announced today. It was said that police have uncovered a German bund organization which engaged in "anti-democratic" activities. Police intimated a similar drive will be undertaken against Japanese subjects in Cuba who "are engaging in suspicious activities."

THAILAND SPURNS ALL INVITATIONS OF 'PROTECTION'

Declares It Can Take Care of Self.

BULLETIN.

TOKIO, Aug. 8 (Friday) (AP).—Koh Ishii, cabinet information bureau spokesman, today said that the Japanese government officially recognized "the military, political, and economic" encirclement of Japan by the United States, Britain, China, and the Dutch East Indies. The government controled Times-Advertiser had said Britain is trying to camouflage its own designs on Thailand by raising the bogey of Japanese threats.

BANGKOK, Thailand, Aug. 7 (AP).—"Thailand [Siam] is extremely grateful to those offering her protection, but begs to decline same with thanks," the official Thai radio commentator declared tonight in apparent reference to Japanese allegations of British-American machinations aimed at Thailand.

The commentator, without naming names, said that as for reports of possible occupation of strategic bases in Thailand "on the part of those offering protection," Thailand possesses adequate officers and men to look out for her own bases, but would appreciate the assistance of friendly powers in the form of war materials which she needs.

[This cryptic comment apparently was both a bid for United States and British material aid and a slap at Japan, which has been reported seeking bases in Thailand.]

Says U. S. "Understands."

Only today a high Thai official said the United States understood Thailand's position in view of Japan's southward expansion and that an excellent understanding had been effected in a meeting between United States Secretary of State Cordell Hull and Mom Rajawongse Seni Pramoj, Thai minister to Washington.

Hull's statement Wednesday that a Japanese move into Thailand would be a matter of concern for the United States was not surprising, the high official said.

Political circles here held that concern in the United States and Britain for Thailand's independence should deter Japan from provoking a crisis.

The Thai radio commentator said the possibility was reported Japan might attack within three days.

U. S. Aid to Guide British.

LONDON, Aug 7 (AP).—The extent of British military aid to Thailand in case that country is attacked by Japanese forces massed in neighboring Indo-China will be governed by the willingness of the United States to cooperate with action stronger than economic blockades, it was stated authoritatively today.

Many Australians here believe that unless a stronger anti-Japanese policy is adopted in London, Australia will begin to look to Pearl Harbor [the American Pacific base at Honolulu, Hawaii] instead of to Singapore for aid.

33D ON ITS OWN FOR FIRST TIME; LAWTON PLEASED

BY CAPT. M. M. CORPENING.
[Chicago Tribune Press Service.]

Tullahoma, Tenn., Aug. 7.—The Illinois 33d division today held its first maneuver as an independently functioning unit. Maj. Gen. Samuel T. Lawton, commander, expressed satisfaction with the conduct of his officers and men in executing the field problem.

The division's transportation difficulties were eased by the arrival of 286 new 2½ ton trucks, of which the division will get 208. The additional vehicles brought the division's total truck complement to 70 per cent of the prescribed allowance.

The main body of the division will leave Camp Forrest Saturday for the 525 mile trek to Arkansas to participate in extensive war games beginning next Monday. Engineer and medical detachments left today to reinforce bridges, establish first aid stations, and inspect the line of march.

20 Miles in One Day

Valley Falls, Kas., Aug. 7 [Special].—The only horse and mule drawn ambulance unit in the American army was moving across Kansas today to join maneuvers at Fort Riley. They will arrive there Monday, completing a 120 mile trip from Fort Leavenworth. The unit, Company A, 40th ambulance battalion, made 14 miles the first day and 20 the second.

INQUIRY ORDERED INTO SHORTAGE OF FUND AT FORT DIX

Fort Dix, N. J., Aug. 7 [Special].—Shortages of $4,834 post exchange funds here are being investigated, it was disclosed today, with the announcement that two boards of officers have been appointed by Col. Cassius M. Dowell, post commander, to study the shortages.

Eight of the 22 branch exchanges will be investigated, with the largest discrepancy of $871 occurring in accounts of the 104th engineers branch. Officers will seek to fix responsibility and make recommendations for corrective action. The length of time during which the shortages occurred was not disclosed.

Formerly operated by the separate organizations stationed here, the exchanges have been entirely under post control for six months. Altho army officers hold administrative positions in the setup, the branches are staffed by civilian clerks, with a steward in charge of each. All except one of the eight branches to be investigated are in the 44th division.

BALTIC GERMANS FIND THEY ARE IN REICH TO STAY

[Copyright: 1941: By the New York Times.]

BERLIN, Aug. 7.—Hopes which the repatriated Baltic Germans may have entertained of being able to return from the eastern provinces of Germany where they have been settled, to their former homes now that the Baltic countries have been conquered by Germany have been dispelled.

Many of these Baltic Germans, resettled in their under populated German east frontier section, expressed their desire to return to the Baltic countries.

Speaking at a party gathering at Kuvno, the German district leader said such a resettlement would not occur and that these Germans had been given an opportunity by Fuehrer Hitler to prove themselves in the building up of an area designed to become Germany's future granary.

TEACHER FOUND GUILTY AT TRIAL ON RED CHARGES

New York, Aug. 7 [Special].—A trial committee of the board of higher education today found Arthur R. Braunlich Jr., $2,400 a year English tutor at the tax supported College of the City of New York, guilty of all charges preferred against him by the special legislation committee investigating subversive activities in city schools.

Braunlich's immediate dismissal was recommended in a unanimous report of the committee before which Braunlich was tried on July 7. The board of higher education will act at a special meeting on Aug. 25.

Braunlich, it was charged, belonged to the executive committee of the communist unit on the campus and helped edit its paper. Last year he ran for state assembly on the American Labor and Republican tickets.

HINT NAZI THREAT OF BREAK IF IRAN OUSTS 'TOURISTS'

BY E. B. NODERER.
[Chicago Tribune Press Service.]

ANKARA, Turkey, Aug. 7.—The German government today retaliated against British efforts to expel Nazi "technicians and tourists" from Iran [Persia], according to reports reaching dimplomatic quarters here. The German minister to Teheran, it is said, informed the Iran government that the expulsion of any considerable number of the 5,000 Germans allegedly in the country would result in Germany breaking off diplomatic relations.

Two theories are held here concerning the situation. One is that the Germans actually are trying to foment trouble similar to that which caused fighting in Iraq [Mesopotamia] so the British would have to divert equipment and men to Iran. The other is that the story was circulated by the British who wish to make it appear necessary for them to occupy Iran, a strategic move in case it appeared Russia might collapse. The British here deny any intention to invade Iran.

[Another dispatch quoted German sources in Ankara as saying a joint Russian-British military action in Iran is imminent, perhaps within a matter of hours.]

Russia Recognizes Exiled Government of Belgium

[Chicago Tribune Press Service.]

LONDON, Aug. 7.—The "Free Belgian" government in London today was added to the list of exiled governments formally recognized by Russia since the soviet alliance with Britain. Soviet Ambassador Ivan Maisky and Belgian Foreign Minister Paul-Henri Spaak met at the foreign office with British Foreign Secretary Anthony Eden and arranged for an exchange of representations between their governments.

BRUNO MUSSOLINI FUNERAL TODAY; AIR CRASH VICTIM

ROME, Aug. 7 (AP).—Funeral services for Bruno Mussolini, 23, second son of Premier Benito Mussolini, who was killed today in the crash of a new four motored bomber he was testing in his third war, will be held tomorrow morning at the Fascist headquarters in Pisa, where the body was taken tonight. The body then will be taken to Forli and buried Saturday in the cemetery San Casiano at Pendino Predappio, near Il Duce's birthplace.

Bruno Mussolini.

With Capt. Bruno Mussolini at the controls as squadron commander, the new plane, which possibly was to be used by the squadron against Russia, crashed near the airport of San Jiusto at Pisa while attempting to land. The cause was undetermined. Two others of the crew were killed and five were injured.

Bruno had flown under fire in the wars in Ethiopia, in Spain, and in the present conflict. He was married in 1938 to Gina Ruberti, and they had one daughter, Marina, now 17 months old.

U. S. Military Observer Dies in Crash in Britain

Washington, D. C., Aug. 7 (AP).—The death in England of a United States army air force flyer, First Lieutenant Laird W. Hendricks, 25, of Jacksonville, Fla., was disclosed today by the war department. Hendricks, a military observer, died July 28 in the crash of an American plane not engaged in combat. Hendricks was a 1939 graduate of the military academy.

UNITY FOR PEACE

In a speech to the nations of the western hemisphere on Oct. 12, 1940, President Roosevelt said:

"The clear facts have been stated over and over again. This country wants no war with any nation. This hemisphere wants no war with any nation. The American republics are determined to work in unity for peace just as we work in unity to defend ourselves from attack.

"We arm to defend ourselves. The strongest reason for this is that it is the strongest guarantee for peace."

U. S. TRIO CLIMBS 13,940 FT. ALASKAN PEAK IN 2 WEEKS

FAIRBANKS, Alaska, Aug. 7 (AP).—The National Geographic society's flag flew today from the summit of 13,940-foot Mount Hayes, the last peak in central Alaska to be conquered by modern day explorers.

Bradford Washburn, executive head of the New England museum of natural history, accompanied by his wife and Henry S. Hall of Cambridge, Mass., reached the top of one of the most majestic peaks in the Alaska range Aug. 1 after a hazardous two-week climb during which an airplane dropped supplies to them.

The party, which started the ascent July 15, returned to Fairbanks yesterday to report its achievement. Washburn said they battled snowstorms all the way up and at the summit the temperature was 12 above zero.

STALIN 'MISSING'; MAY BE MEETING F. D. R., CHURCHILL

Hint Hopkins Arranged Parley in Moscow.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—Rumors that President Roosevelt and a group of aides and Prime Minister Churchill with an equally impressive retinue were at or nearing a rendezvous at sea to discuss the war continued to blossom in the capital today.

It was reported that Josef [Little Joe] Stalin was no longer trembling in the Kremlin but was mysteriously absent. On the basis of these reports it was inferred here that Joe had joined the sea conferees or at least has sent a representative to the conference if one is taking place.

Capital sources who professed to know, altho there was a lack of evidence, said the rendezvous was arranged by Harry L. Hopkins, White House intimate and administrator of the lease-lend program, during his recent visit to Moscow.

Desire for Chat Admitted.

From White House sources it was acknowledged that the President has often expressed a desire to have a chat with Churchill, but this information was given with the caution that it by no means constituted an admission of such a conference.

Hopkins, like Churchill, is reported missing in London. Also missing are the ranking officers of the army, navy, and air corps, and conflicting reports were given during the day as to there whereabouts.

The war department press relations bureau said Gen. George C. Marshall, army chief of staff, and Lieut. Gen H. H. Arnold, commander of the air forces, were on inspection trips. It was said they would be back next week.

Fishing, Offices Report.

At the offices of the generals it was said they were on a fishing trip, having taken the President's absence from the capital as an opportunity to take a few days rest. Efforts to determine where the two generals are met with evasive answers.

Search for the whereabouts of Arnold and Marshall resulted in the discovery that another high official, Assistant Secretary Robert P. Patterson, is absent from the capital. After some evasion war department aides said he is in Montreal, but did not explain the purpose of his visit.

At the navy department efforts to determine the whereabouts of Admiral Harold R. Stark, chief of naval operations, met with no success. It was said that Stark is on leave, and would not be back until next week.

Knox Also Is Away.

Secretary of the Navy Frank Knox, who also is missing, was reported to be at York Harbor, Me. Knox left the capital Saturday for his former home at Manchester, N. H., but could not be reached there last night. This morning the navy department said he had paused at York Harbor and would reach Manchester today.

The President continued today to ignore the storm of speculation his sea vacation has occasioned. The daily radio dispatch from the Presidential yacht Potomac said:

"All members of the party showing effects of sunning. Fishing luck good. No estimation announced. President being kept in close touch with international situation by navy radio. All on board well, and weather excellent."

JOINT CONFEREES REACH ACCORD ON SEIZURE BILL

Washington, D. C., Aug. 7 (AP).—Agreement by a joint senate-house committee cleared the way today for final congressional action on legislation which would authorize the President to requisition articles deemed needed in the defense program.

The bill had been passed by both houses in slightly different form and the compromise agreement must be approved by both before it can become law.

The bill would authorize the President to take property and pay a "fair and just compensation" when there was an immediate need which would not admit of resort to another source of supply and after other means of obtaining the property upon "fair and reasonable terms" were exhausted.

The measure also would authorize requisitioning of any military or naval equipment, supplies, or munitions or machinery, tools or materials needed for manufacturing defense articles.

War on Beetles

[Acme Photo.]

Japanese beetle on the shoulder of Stewardess Jean Stephl at the New York airport.

New York, Aug. 7 (AP).—The latest word in the fight against the Japanese beetle is that the pesky insects have taken to aerial hitchhiking in their quest for happier hunting grounds.

R. W. Sherman, department of agriculture inspector, says the beetles virtually are thumbing rides on the airliners and have forced the posting of inspection squads at large eastern airports to keep them out of the still uninfected cornfields of the south and middle west.

Inspectors at the New York air field have removed more than 200 of the insects from airliners or from the clothing of passengers. Washington, Baltimore, Pittsburgh, and other cities have had their share of frustrated stowaways.

ICKES SENDS GAS TO REDS DESPITE SHORTAGE IN U.S.

Also Supplies Ships for Hauling It.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—Defense Petroleum Coördinator Harold L. Ickes today announced that four American tankers are to be turned over to Russia to haul aviation gasoline and will be en route to Vladivostok by the end of the month.

At the same time he predicted a shortage of aviation gasoline in the United States unless production of high octane fuel is stepped up immediately. Shortage of aviation gasoline may seriously hamper military and commercial flying in the United States.

First Shipment on Way.

An initial shipment of aviation gasoline to Russia left Los Angeles a week ago on a Russian vessel, two weeks after the Reds had asked for the fuel. The second shipment will go in American tankers.

The problem of increasing the capacity for producing aviation gasoline is to be studied Monday at a meeting with chairman of regional oil industry committees, Ickes said.

Ickes expressed disappointment over the ineffectiveness of his gasoline curfew on the east coast and warned that a compulsory plan to conserve fuel in that area is not far off.

Increase Instead of Decrease.

He said that gasoline consumption on the Atlantic seaboard had increased materially in the last two weeks, despite the widespread effort to influence motorists voluntarily to curtail consumption.

Ickes said he had in mind two or three plans for mandatory rationing. He said he did not know what legal power he might have in this connection but added quickly: "We have effective power, whether legal or not, thru coöperation of the industry."

A rationing plan for New York state which would limit pleasure car owners to 15 gallons of gasoline a week was announced yesterday.

Belleville Woman Dies, Spotted Fever Victim

Belleville, Ill., Aug. 7 (AP).—Mrs. Adele Klein, 65, died in a hospital here today of Rocky mountain spotted fever, a disease transmitted by the wood tick. Mrs. Klein was bitten on the scalp by the tick two weeks ago. She developed a fever and was taken to the hospital two days later.

BILL TO PROLONG DRAFTEES' TERM SENT TO HOUSE

Add 1½ Years to Service of All Army Classes.

[Continued from first page.]

"national interest is imperiled," as provided by the conscription act of 1940, and which thereby authorizes the President to extend the service of draftees beyond the 12 months for which they were inducted whenever congress makes such a declaration.

Denies Nation Imperiled.

Among the several opponents of the extension of service who entered the debate was Senator Hiram Johnson [R., Cal.], who denied that the United States is imperiled.

"Does any one dare assert that there is a greater danger now affecting the United States than was affecting it prior to the passage of the conscription law?" he asked.

"We all know the change that has come about. The great Josef Stalin, who always keeps his word, has come into the picture.

"Those who believe in Josef Stalin, those who believe he always has kept his faith, may, if they choose, believe that peril—greater than existed at the time of the passage of the act—now afflicts us.

"Josef Stalin! Just imagine it. The greatest massacre that has occurred on this earth occurred thru him. The greatest blood letting that ever was committed upon this earth occurred thru him. He has ever been the one man preaching world revolution, preaching it within our gates, preaching it to our very people. He is the man who now has brought what some say is greater peril. Perhaps others would say greater safety."

Vents Contempt for New Deal.

Johnson said he always had advocated and entertained the hope of a finish fight between Stalin and Hitler, and that he cared not which were successful. He expressed his contempt for the administration's program of giving Stalin all possible aid.

"Good God!" He said. "Did we ever sink so low before to select one of two cutthroats and provide him with the measures by which ultimately he might cut our throat? Ultimately we cannot tell where he might stand. He has stood with everybody he thought would be profitable to him. He has been Hitler's ally whenever he thought he could make any sort of profit out of it. Yet now he is received here, thru his representatives, with pomp and ceremony."

Many to Be Released.

The resolution as passed in the senate affects draftees heretofore and hereafter inducted. It authorizes the secretary of war to release from active duty those who ask to be released and whose retention, in the judgment of the secretary, would cause undue hardship.

Legislation already sent to the White House provides for the release of draftees now in service who became 28 years of age before the date of their induction. The war department has indicated an intention to release National Guardsmen now in service who are more than 28 years of age.

Altho the legislation passed by the senate affects about 1 million citizen soldiers, Gen. George C. Marshall, chief of staff of the army, testified that a great many of the 600,000 conscripts now in service will be released after one year of training. The present strength of the army is approximately 1,500,000 men. Present plans call for its increase, by the induction of more conscripts, to 1,725,000.

Vote $10 Month Bonus.

Before passing, 39 to 34, the amendment by Senator James M. Mead [D., N. Y.] adding $10 a month to the pay of men held over under the resolution, the senate had rejected without a record vote, an amendment by Senator Sheridan Downey [D., Cal.] to give every man in the armed forces of the United States a bonus of $30 for each month of service beyond one year.

The administration leadership was able to turn back Downey's amendment only by refusing his request for a record vote. Senators asked their colleagues how they could justify voting 7,000 million dollars to aid Great Britain and then "quibble about giving a man $2 a day for the right to die," as Senator Josh Lee [D., Okla.] put it.

Adoption of the modest Mead amendment was said by many to be prophetic of pay increases and bonus raids that will wreck the country if it adopts a permanent mass army policy, and especially if it enters the European war.

AEF Plan Is Held Up.

The war department also recommended the removal of existing statutory limitations which forbid the President to send draftees and National Guardsmen outside the western hemisphere, except to the territories and possessions of the United States. President Roosevelt was forced to abandon this "expeditionary force" proposal, at least temporarily, when congressional leaders told him it would result in defeat of the army service extension legislation.

Noninterventionists insisted thruout the seven days of senate debate that the administration is making preparation to send expeditionary forces to Europe, Africa or Asia—or to all three continents.

ROLL CALL IN SENATE ON BILL TO LENGTHEN SERVICE OF DRAFTEES

Washington, D. C., Aug. 7 (AP).—Here is the vote by which the senate tonight approved legislation extending for 18 months the service periods of draftees, National Guardsmen, reservists, and regular enlisted men:

PROGRESSIVE—1, La Follette.

TRUMAN ASSAILS ARMY FOR USING 'INDIAN WAR PLAN'

Washington, D. C., Aug. 7 (AP).—Senator Harry S. Truman [D., Mo.], chairman of the senate defense investigating committee, charged today that the army's mobilization plan had been overcostly and had turned out to be "an Indian war plan and not a modern war plan." Lack of plans, Truman said, had cost the government 100 million dollars.

Senator Truman.

Brig. Gen. George G. Tyler, retired, who formerly was in charge of camp plans, was on the stand when the senator made the assertion.

"I can't agree with that," Tyler said. "I think we had very good plans."

Tyler told the committee that plans were based on the use of existing army and National Guard camp facilities, on the theory that mobilization would be in wartime and troops would depart immediately for the theater of operations, leaving space for replacements in rotation.

Two New Paralysis Cases in Camp Forrest District

Tullahoma, Tenn., Aug. 7 [Special].—Two new cases of infantile paralysis were reported in the Camp Forrest area of Tennessee today by Dr. A. E. Hardison, state epidemiologist. Twelve of the listed cases are in Coffee county, 36 in Franklin, and some 20 others in four other nearby counties. No fatality has been reported in more than a week.

WARNS U. S. WAR ADVOCATES FACE VOTERS' WRATH

Mrs. Fairbank Says G.O.P. Poll Mirrors Public.

The anti-war resolution of more than 100 Republican congressmen was declared yesterday to be "one of the most heartening things that has happened in Washington for a long time" by Mrs. Janet Ayer Fairbank, former Democratic national committeewoman from Illinois.

Janet A. Fairbank.

This action, taken at a Washington conference Wednesday, pledged the house members to unite in a drive to force the country's leaders to keep their promises against war. The Republicans restated their belief in the Monroe Doctrine, urged a defense strong enough to keep the western hemisphere free of invasion, and reaffirmed their campaign stand against war.

Build Militant Opposition.

In Washington the move was seen as the first step in building militant opposition to President Roosevelt's war policies. In commenting on the resolution, Mrs. Fairbank, who was formerly a member of the executive committee of the Democratic National committee and is now vice chairman of the America First committee, warned that the 80 per cent of the people who are against war would remember any default on peace pledges at the next election.

"The great majority of the Democrats in the present congress have failed in their most fundamental duty, which is to consider the welfare of the United States," she said.

Majority Oppose War.

"The people of the country, Republicans and Democrats alike, are 80 per cent against our entry into the European war. Unless the representatives of the Democratic party in congress follow the independent lead of the patriotic 100 Republicans they will find that in the next election they will receive only 20 per cent of the vote of their constituents, while men of greater courage win the 80 per cent. I congratulate the Republican party on the caliber of its leadership."

ENJOINS MATE'S SECRETARY FROM VISITING SICKBED

Mrs. Mildred Chase of Aurora yesterday obtained from Circuit Judge William J. Fulton of Sycamore an injunction to prevent Mrs. Elvina Zappetella from visiting her husband, Floyd T. Chase, in St. Joseph's hospital in Aurora, where he is seriously ill. Chase, who is 52 years old, is president of the Twerdahl-Chase Bottling company, operating in Chicago and Aurora. Mrs. Zeppetella, his secretary, is 32 and a divorcée. Mrs. Chase is 35.

In her petition for injunction, drawn by Attorney Carl O. Rue, Mrs. Chase asserted she had been barred from the sickroom by the secretary. She also alleged that Chase is enamored of Mrs. Zeppetella.

"This is absurd," declared Mrs. Zeppetella. "My only relationship to Mr. Chase is that of an employé. I have never done anything to keep Mrs. Chase—whom I never met socially—from visiting her husband. I cannot account for the charges."

HELD TO JURY IN LIQUOR CASE.

Charles Him Toy, a Chinese, was held to the federal grand jury in bonds of $500 yesterday by Edwin K. Walker, United States commissioner. He was arrested Wednesday by agents of the alcohol tax unit when they raided an illicit sake brewery at 227 Alexander street.

Army Gets Pigeon Destroyer

[Associated Press Wirephoto.]

Lieut. Thomas MacClure holds 20 ounce falcon, first to join American armed forces. The bird, when trained, is expected to destroy enemy pigeons and to attack parachutes.

'EXECUTIVE TYPE' AIR TRANSPORT TESTED BY ARMY

Washington, D. C., Aug. 7 [Special]. Two 17,500 pound transport planes made by the Lockheed Aircraft corporation, Burbank, Cal., are being tested by the army air corps, it was stated today.

The big planes, designated as C-56 and C-57, have a wing spread of 65 feet 6 inches, and are 49 feet 10 inches long. Each carries a crew of two pilots. The C-56, powered with two 1,100 horse power nine cylinder Wright engines, has interior fittings of the "executive type," including tables and other facilities for administrative officers. The C-57, powered with two Pratt & Whitney 1,200 horse power 14 cylinder engines, is fitted with 14 chairs for transporting troops.

Lieut. Pieroth to Retire; Veteran of Police Force

Lieut. Joseph Pieroth, who joined the police force in 1906, will retire next Monday, when he will reach the age of 63. Sixteen times in the 35 years of service Pieroth received citations for excellent work. Perhaps his greatest exploit was his capture in 1936 of John Dillhofer, escaped inmate of an Indiana prison, and three confederates. Dillhofer was executed for the murder of a policeman. Pieroth, for the last ten years assigned to the Maxwell street district, lives at 7735 Loomis boulevard.

Goes Into Training

Fort Monmouth, N. J., Aug. 7 [Special].—"Thunderbolt," the army's first fighting falcon, went into training here today. Signal corps officers hope to teach him to rip into shreds the silken umbrellas of parachute troops as well as to attack the enemy's homing pigeons. The falcon is under the care of Lieut. Thomas MacClure, who keeps the bird constantly with him.

The falcon will be trained first to prey on pigeons. He will be trained with a "lure," being made to fly to a bit of food which each day will be placed farther and higher away. At the end of three weeks the falcon will be released to hunt its first pigeon.

MacClure is secretive about his plans for training falcons to attack parachutes, but explained that a small knife would be fitted to the falcon's claw and that the birds would be trained to beat at the parachutes.

Pilot Unconscious, Plane Lands Safely at Airport

Bonham, Tex., Aug. 7 (AP).—An army plane landed at Bonham airport yesterday, taxied to a hangar, and came to a halt. When no one emerged airport attendants looked into the cockpit. They found Second Lieutenant Norris W. Gibson unconscious. He died later in a hospital of cerebral hemorrhage. It is believed he was stricken in flight and landed his ship by instinct.

EVANSTON RALLY CHEERS PROTEST AGAINST WAR

Lyons Warns of Dangers in One Man Rule.

[Continued from first page.]

policy of being frank with their own people and deceiving the enemy, they have reversed the process.

"The Roosevelt administration has traveled the road to war under a smoke screen of pledges of peace. Day by day, month by month, the American people have been dragged nearer and nearer to outright war on the soothing assurance that the 'Yanks are not coming.'"

"At this critical crossroad the President is cruising in 'northern waters of the Atlantic,'" La Follette continued. "He has apparently taken two of the four freedoms with him. All the American people can learn is what is fed them from the British censor in London. The British can be told. Stalin, Hitler, and Mussolini can find it out. Only the American people must be kept in ignorance. Again, another illustration of the synthetic secrecy manufactured in the White House."

ARMY REQUESTS BIDS ON 4 MILLION SETS OF NONCOMS' CHEVRONS

Manufacturers' bids on 4,000,000 pairs of noncommissioned officers' chevrons—enough to equip 500,000 men—were asked recently by the Philadelphia quartermaster depot of the United States army, officials of the Illinois Manufacturers' association revealed yesterday. Bids on the order will be opened Aug. 19 at Philadelphia.

The army request for bids declared that chevrons are needed in the following classifications: master sergeant, 82,000 pairs; first sergeant, 91,000 pairs; technical sergeant, 162,000 pairs; staff sergeant, 286,000 pairs; sergeant, 518,000 pairs; corporal, 454,000 pairs, and private, first class, 2,407,000 pairs.

Capt. Stewart Donhauser, assistant 6th corps area quartermaster in Chicago, said that each enlisted man in the army rating chevrons is given eight pairs for his various summer uniforms.

2 Flyers Killed in Crash; Other Plane Lands Safely

St. Charles, Mo., Aug. 7 (AP).—A flying instructor and a student pilot were killed today when their plane crashed after a collision 400 feet in the air with another plane which was landed safely. The dead are Harold V. Knapp, 22, the instructor, and Anthony Detomatis, 25, Collinsville, Ill. Ellis W. Smith, 22, Pattonville, one wing was damaged.

CAPITAL TELLS CONVENTIONS TO MEET ELSEWHERE

Washington, D. C., Aug. 7 (AP).—It probably wouldn't happen in any city but Washington—an official request went out today that conventions take their business elsewhere.

The Office of Price Administration and Civilian Supply made the request in disputing a contention of the Washington Hotel association that there were ample accommodations here.

Administrator Leon Henderson said that at certain periods there were practically no rooms to be had.

Maritime Union Strikers Keep Up Rowboat Picketing

(Picture on back page.)

Superior, Wis., Aug. 7 [Special].—Striking National Maritime union members today continued their rowboat picket line around the steamer Jupiter, lying in the Duluth harbor, as negotiators renewed efforts to sign a union contract with its operators, the Jupiter company of Cleveland. The picket line around the steamer Nine, tied up since yesterday afternoon, was removed today when union representatives and the vessel operators Sidney Smith of Buffalo, reached an agreement.

KALAMAZOO OFFICIAL ENDS LIFE.

Kalamazoo, Mich., Aug. 7 [Special].—Harley Andrus, 62, for 30 years city food and dairy inspector, committed suicide today by shooting himself with a rifle. He had been in ill health. He is survived by his widow, Gwendolyn.

PASSES BARRED, FAIR SLATED TO SUPPORT ITSELF

Deficits in Recent Years Over Quarter Million.

BY HAL FOUST.
[Chicago Tribune Press Service.]

Springfield, Ill., Aug. 7 [Special].—The Illinois state fair will open here on Saturday morning, continuing thru Aug. 17, in the first serious effort to eliminate annual deficits that cost the taxpayers $272,091 in 1940 and $281,339 in 1939, typical years.

The eight day exhibition and carnival, one of the three largest state fairs in America, is not being cheapened. The deficit is to be ended by eliminating passes. In other years politicians in favor with the administration distributed several hundred thousand gate tickets as a petty patronage that grew to scandalous proportions. There are no passes this year.

Only Minority Pay Way.

The eight day attendance last year was exaggerated by the press agents at 850,000. Each year the political publicity men announced a higher figure as a new record. The paid admissions in 1940 were 8,940; in 1939, 19,443, and in 1938, 21,214.

Only those with too much self-respect to ask a politician for a favor paid the 25 cent gate fee.

Fees Add to Revenue.

This year every one will be admitted to the grounds free on the first two days, Saturday and Sunday, and thereafter every one will pay a quarter at the gate. For the first time there will be an actual tally at the entrances.

It's a big and popular event without any exaggerations. With the political ticket racket elliminated, the revenue from the gate and from exhibitors' and concessions' fees is expected to approximate the biennium appropriation, fixed by the legislature this year at $825,360.

SUPER-AGENCY OF ANTI-NAZI GROUPS URGED

Leaders of organizations favoring all-out aid to nations fighting Hitlerism were asked yesterday to link their groups together in a new agency to unify their efforts. The call for the formation of the new superorganization was issued by a score of Chicagoans, including Prof. A. R. Hatton and Dr. Kenneth Colegrove of Northwestern university, Carl H. Milam of the American Library association, and Dr. Benjamin M. F. Miller of the University of Chicago.

Leaders were requested to attend a meeting in the City club in the La Salle hotel next Tuesday evening to discuss formation of the new organization. Plans for an "all Chicago anti-Hitler rally" also will be considered at the meeting.

Scooter Cop

[Associated Press Wirephoto.]

Philadelphia scooter bike policeman on duty.

Philadelphia, Pa., Aug. 7 [Special].—Philadelphia police have hit upon a unique method of protecting pedestrians from holdups and strongarm attacks in the subway concourse. Policemen are now equipped with motor scooters on which they race to the scene of such attacks and pursue villains. They first used bicycles, but found their noiseless approach more damaging to honest pedestrians than fleeing thugs. The roaring little motors give ample warning to clear the way.

ACCEPTS ARNOLD REQUEST TO QUIT BOARD OF HEALTH

Mayor Kelly announced yesterday he has accepted the resignation of Dr. Lloyd Arnold from the board of health. Dr. Arnold is a professor of bacteriology and public health at the University of Illinois college of medicine. He was appointed to the board in 1938. He told Mayor Kelly the board work interfered with his university work.

During his period on the board Dr. Arnold was the only member who did not vote to recommend the use of paper milk containers in Chicago when the board took such action in 1939. At that time the Dean Milk company was suing the city for the right to use paper containers here.

Dr. Arnold testified that they would "never meet public health standards." Previously in a research project for a paper milk container manufacturer he had stated they were satisfactory. The United States Circuit Court of Appeals ruled last Monday that the city has no right to prohibit the use of such containers since a state law and state health regulations permit their use.

Navy to Pay City $120,000 for Use of Pier in Year

The navy has leased both upper levels and the eastern half of the lower levels of Navy pier from the city, Commissioner of Public Works Oscar E. Hewitt reported yesterday. He said the navy will pay $120,000 rental the first year and $60,000 the second. Most of the first year's payment will be needed to make alterations required by the navy.

CALDWELL'S OLD BOSSES WARNED IN UNION CLEANUP

Oak Park Local's Rump 'Election' Bared.

A warning that the Retail Clerks' International Protective association and officials of the Chicago and Illinois federations of labor will not tolerate any tampering with the democratic rights of local union members was given yesterday by Attorney Daniel D. Carmell, charged with the reorganization of the locals that were formerly under the iron rule of Max Caldwell.

Carmell issued the warning after he learned that a rump meeting on July 30 of members of local 1397 in Oak Park had "elected" its old officers for the rest of 1941. This local has about 450 members.

New Meeting Ordered.

"I am informed that not more than a third of the members were present," said Carmell, "and that these were summoned as a picked group by the old officers. I have ordered that the international officers notify all the local 1397 members to be at a meeting on Aug. 25, when arrangements for a properly conducted election may be made."

Assistant State's Attorney William B. Crawford, who has been instructed by State's Attorney Courtney to gather information on which the ousted Caldwell may be indicted, questioned two of the Oak Park union officials yesterday.

Admit Calling Session.

They are Elmer Mirabella, business manager, and V. Borsolino, organizer. Crawford told them he had heard they were recently in touch with Caldwell. Both denied this. Crawford said they admitted they called the July 30 meeting. They said they sent word to all members.

Caldwell, as czar of the biggest local of the clerks, No. 1248, has never made an accounting of the estimated $910,000 collected during his four year rule from the union membership. The state's attorney's office is conducting a search for the local's books.

2 Young Women Injured in West Side Plane Crash

Two young women who were flying to Springfield suffered cuts and bruises yesterday when their plane crashed as they took off from the Skyhaven airport on Wolf road, north of Grand avenue. They are Mrs. Virginia Cook, 23 years old, 4005 Du Bois avenue, Congress Park, who was at the controls, and Miss Irene Laszewski, 27, of 2921 South 48th court, Cicero. Both were taken to Elmhurst hospital.

3 New Infantile Paralysis Cases Reported in Chicago

Three cases of infantile paralysis have been reported to the Chicago health department since Monday. This brings the Cook county total for the year to 33 and the state total to 72, according to a report from Dr. Roland R. Cross, state health director.

Seeking Divorce

[Acme Photo.]

Mrs. Alfred G. Vanderbilt.

New York, Aug. 7 (AP).—Counsel for Alfred Gwynne Vanderbilt said today that the 28 year old millionaire turfman had been served with papers in a divorce suit brought by his wife, the former Manuela Hudson of San Francisco.

Sol A. Rosenblatt, the attorney, said the papers had been served "recently," and added:

"The case will be defended."

Vanderbilt, attending the race meet at Saratoga, declined to comment. Nor was any comment forthcoming from Mrs. Vanderbilt's lawyers. The couple separated last December, when Mrs. Vanderbilt and their daughter, Wendie, 2, took up residence at the family's Long Island home on Sands Point.

GOOD NEIGHBOR POLICY FLOPS—A FINE HOWDY DO!

(Picture on back page.)

Pittsburgh, Pa., Aug. 7 [Special].—Albert Curry Jr. and his wife retired tonight, a little disillusioned with human nature and their experiment in good neighborliness. They had invited 2,500 people in the 1st district of the 14th ward to partake of their hospitality.

Not more than 300 showed up and it was long after dark when those came. A few cars parked nearby, people strolled across the lawn, yawned and talked mostly about the weather. Things did perk up when three girls formed a "yoo hoo" committee to attract a gate.

Discussion of war and politics was banned by Curry, who is a bank clerk, so conversation languished after a while. Children outnumbered the elders and worked happily on the ice cream and soft drinks. Perhaps the soft drinks were too much of a novelty to bring in a crowd. When the last guest and newspaper photographer left, the Currys still weren't certain whether anybody had gotton to know anybody else.

WILLIAM GREEN HAILS AFL ROLE IN REARMAMENT

The part the American Federation of Labor is playing in the nation's rearmament program was related last night by William Green, president of the federation, in an address here, broadcast over a national network. He said that federation workers have accomplished "miracles of production" and can be relied upon to complete the job in record time.

"I have proclaimed the policy of the federation to refrain from strikes which would impede defense production," Green said, "and to work longer hours when necessary.

"Without the voluntary and enthusiastic coöperation of American workers, not a factory could turn a wheel, not a single ship could be launched, not a solitary bomber could take off, not one fort could be built."

STATE DENOUNCES BIBBY AS A GOON; CASE TO JURY TODAY

The case against William Bibby, business agent of the Garage Helpers, Chauffeurs, and Taxicab Drivers' union, who is accused of beating Fulrin Thomas, garage attendant, will be given to the jury in the court of Judge Justin F. McCarthy this morning. Final arguments for both sides during which Myron Lewis, assistant prosecutor, termed Bibby a goon, were concluded late yesterday.

During the hearing, Robert Romano, Bibby's counsel, was the object of a critical blast from Judge McCarthy. During a halt in proceedings, caused by the noise and chugging of trains outside the Criminal court building, Judge McCarthy noticed Romano apparently talking to one of the women jurors. The judge warned: "If any further conduct of this sort occurs again the court will take drastic action." Romano denied talking with the woman.

In his session on the stand, Bibby denied beating Thomas last May 14 in the Sheridan-Morse garage at 1240 Morse avenue.

RURAL CHORUS AGAIN TO THRILL FESTIVAL CROWD

Famous Group of 400 Is Always a Hit.

Festival Tickets!

Tickets for the 12th Chicagoland Music Festival, to be held Saturday night, Aug. 16, in Soldiers' field, are on sale at 50 cents and $1 at THE TRIBUNE'S public service offices in Tribune Tower and at 1 South Dearborn street. All seats are reserved. Mail order checks should be sent to Festival Ticket Manager, Tribune Tower, and be made payable to Chicago Tribune Charities, Inc.

BY CHARLES LEAVELLE.

Vigorous voices, vibrant with the feeling that is born of living close to the earth. Hearty, joyous voices; the voices of men and women who know the open country and are free from the irritations of city dwelling.

These voices—hundreds of them—have in six years created a coast to coast reputation for the Illinois Rural Chorus, which was organized in 1935 under the sponsorship of the University of Illinois extension service in rural sociology.

Far-Flung Appearances.

Since it came into being the organization has appeared twice at the New York World's Fair, four times at the Chicagoland Music Festival, and was the only out of state group to star at the Southern California Music Fiesta in the Los Angeles coliseum last June 14. And these are only a few of its far-flung appearances.

On Saturday night, Aug. 16, more than 400 of the chorus will make their fifth triumphal appearance at the 12th Chicagoland festival in Soldiers' field.

This year the chorus' numbers will be "Moonbeams" from the Victor Herbert operetta, "The Red Mill," and "By the Bend of the River," by Clara Edwards. Their conductor will be F. H. Heeren, who holds a master's degree from the university's school of music and is a member of the staff in rural sociology extension.

Sing at State Fair.

Two days before the festival these singers will assemble in Springfield, where on Friday night, Aug. 15, they will sing at the Illinois state fair. On Festival day they will come to Chicago in several motorcades.

And the melody they pour out will be only a small part of a great night of music under the stars.

There will be pageantry on an unprecedented scale. One thousand boys and girls will dramatize the famous "Injun Summer" cartoon of THE TRIBUNE'S own John T. McCutcheon. The dramatization will be climaxed by a thundering welcome to Mr. McCutcheon by the audience of 85,000.

The famous musical and dramatic star of the evening will be Giovanni Martinelli, the celebrated tenor of the Metropolitan Opera company.

With the festival just a little more than a week off, ticket sales have been setting new records.

[Results of last night's Chicagoland Music Festival tryouts for south side singers are given on page 15.]

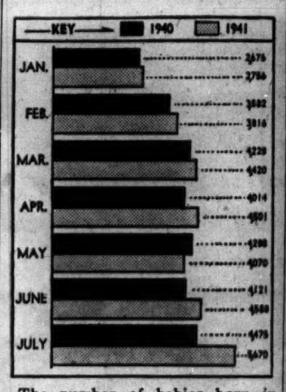
DR. McNALLY WILL RETURN TO POST AS TOXICOLOGIST

Dr. Wm. D. McNally.

Dr. William D. McNally, who established the first toxicological laboratory in the nation for the Cook county coroner's office in 1913, and who for the next 17 years was chief chemist and toxicologist, was appointed yesterday by Coroner A. L. Brodie to return as coroner's toxicologist next Monday. He is to succeed Dr. Clarence W. Muehlberger, who recently resigned to become Michigan state toxicologist, on a probationary appointment for six months.

Dr. McNally from 1910 to 1913 was chief chemist in the health department. He was a member of the Rush Medical college faculty for 28 years, and was recently appointed to succeed Dr. Muehlberger as professor of toxicology in the University of Illinois medical school. He is the author of two standard books in his specialty.

More Babies



The number of babies born in Chicago in each of the first seven months of this year compared with last year.

Board of health officials reported yesterday that during the first seven months of this year 29,821 babies were born in Chicago or 2,437 more than the same period last year. At the present rate 51,120 babies will be born here this year. Other high years were 1931, with 52,993, and 1938, with 51,660. The records show the infant mortality rate for the first seven months of this year is 29.3 per 1,000 live births, slightly higher than last year's rate of 28.8. The rate for maternal deaths is 2.45 compared to 2.40 last year.

CITY WATER MAIN BURSTS, FLOODS WEST SIDE AREA

(Pictures on back page.)

An area of three blocks in the vicinity of Hamlin and Chicago avenues was flooded last night when a city water main broke. For more than an hour water rushed thru the streets and into basements, driving dwellers outside.

Many householders, in bare feet and with trousers rolled to their knees, were kept busy bailing water from their homes. After city water pipe extension employés had turned off the water in the neighborhood, a miniature lake formed in the streets and children waded, splashed about, and sailed boats.

B. W. Cullen, head of the water pipe extension division, said an inquiry will be made today to determine the amount of damage, believed to be several thousand dollars.

MUSIC TEACHERS OF 24 STATES TO ATTEND FESTIVAL

More than 60 piano and violin teachers from 24 states, who are in convention in Chicago, will attend the Chicagoland Music Festival on Saturday night, Aug. 16, in Soldiers' field, and the Festival luncheon on Friday, Aug. 15, at the Hotel Stevens. This was announced yesterday by W. A. Erley, general manager of the Sherwood Music school, with which the teachers are affiliated.

The convention opened Aug. 4 for two weeks of theory seminars, lecture recitals, lessons with artist teachers, and discussions of the profession's problems. The convention will be addressed next Tuesday morning by Philip Maxwell, director of the festival.

STORIES YET TO BE TOLD.

Two great news stories of recent years remain to be written because the principal actors have thus far kept the facts bottled up. Some day, sooner or later, the truth will be revealed. No matter how long the delay, the revelations, when they come, will be big news.

One of the stories concerns the nomination of Wendell Willkie. How was it brought about? It is not a sufficient answer to say that the people were fed up with professional politicians and wanted a man who had no past in politics. Neither is it a sufficient answer to say that Mr. Willkie had managed somehow to capture the hearts of middle class Americans. There was more to it than that; much more. In retrospect it becomes increasingly clear that Mr. Willkie was put over. The appearance of spontaneity was artificial.

From the facts available today it seems highly probable that the nomination was not unrelated to the appointment of Colonels Stimson and Knox to the cabinet. The aim was to put the United States into the war. Both candidates were for American participation tho neither was frank about it. The manipulators no doubt preferred Mr. Roosevelt and to further his third term ambition persuaded him to seek to split the Republican party by appointing the two Republicans to his cabinet. They, in turn, may have been parties to the conspiracy, or dupes; so far as the outcome is concerned, it makes little difference which.

To avoid any possibility of the election of a man opposed to American participation in the war, Mr. Willkie was selected for the Republican nomination. The build-up was artful. Plenty of money was spent. A friendly gallery was obtained. Mr. Willkie played his part satisfactorily. Not until the campaign was well started did he begin to reveal his softness on the war issue, and not until months after the campaign was concluded and the votes had been counted did he confess that such opposition to war as he did express was for campaign purposes.

The first of the stories which remain to be written, then, will be the inside account of the Willkie nomination. The other and more sensational story will reveal the course of Mr. Roosevelt's diplomacy in the weeks and months preceding the outbreak of the war in September, 1939.

In time the secrets locked in the archives of the various foreign offices will come to light. So far, the only relevant documents are those which the Germans say they found when they captured Warsaw. The authenticity of these papers has been denied but the denials have not been convincing. The documents, for what they may be worth, indicate that Mr. Roosevelt, thru Mr. Bullitt and others, was making the most strenuous efforts in the months before the war to persuade Poland, Britain, and France to fight. He was offering the fullest support for a war against Germany.

It is not to be doubted that the European powers were sounding out our government on war policy at the time. They must have done so in common sense and prudence. The answers which Mr. Roosevelt gave are not known beyond possibility of doubt but subsequent events surely throw much light on the question. The record shows that he demanded the repeal of the neutrality act, the enactment of the lend-lease bill, the institution of conscription, and all the other war measures which a previous commitment would have required of him.

There is ample reason to believe he advised the French government to leave the Italian front unprotected to resist the German advance in the north. His message to the premier of France at the moment of French collapse, urging the French to fight on and promising help to them if they would do so, sounds like the renewal of a pledge made previously.

Mr. Roosevelt's acts bear the appearance of having been forced. It is a good guess, at least, that he made commitments before September, 1939, which persuaded Britain, France, and Poland to risk a war for which they were ill prepared. Like many others, he may have underrated the German army and overrated the opposing forces. If so, it wasn't long before he faced the necessity of making his promises good. The one fateful commitment that started the tanks rolling has led Mr. Roosevelt, step by step, to the verge of war.

Mr. Roosevelt's conscience may be troubling him on that account. It surely must be troubling him in view of his promises to keep America out of the war. It is not astonishing, then, to find him talking of this war as if it were a great crusade for democracy, with Russia as one of the democratic nations. Men do indulge in such absurd rationalizations to hide the truth from themselves.

FATHER OF THE BLUES.

A colleague, noting that W. C. Handy has written an autobiography entitled "Father of the Blues," expresses astonishment that any one will admit having sired that brood.

Our friend has something there, but the point must be made with discretion. The blues themselves have quality. You may not care for back-alley melancholy and you may disapprove the manner of its expression, but you must admit that in the St. Louis or Memphis Blues there is primitive strength and honest if not always admirable sentiment. That goes, too, for the late Mr. Gershwin's essays in blue despite their tendency toward artiness.

It wasn't the blues themselves but what grew out of them that was so hard to take. After the blues came the so-called torch song, which was all bad. Young women sat on pianos and maundered on about inconstant lovers. The music was tedious, the words were banal, and the method of delivery was calculated to arouse a maximum of irritation. The sympathy of the listener always went to the absent party of the second part. His absence was envied. The only solace that could be found in an otherwise intolerable situation was the certainty that no scruple of conscience and no biological urge could be strong enough to bring him back to the mawkish female sitting on a piano.

Opinions will differ about the merits of Mr. Handy's blues, but not about their offspring. The grandchildren were all brats.

HENDERSON TAKES THE STAND.

Appearing this week at the house committee hearings on the price control bill, Leon Henderson presented many charts showing the extent of the advance in prices which has so far taken place. His testimony needs to be considered carefully, because he would be the principal beneficiary of the bill if it were passed. He is not a disinterested witness. He had the bill drawn to clothe him with authority over prices. If he gets that power he becomes the American economic dictator. Any ambitious man in the same boat would spin a good yarn.

Henderson told a frightening story about inflation, and in denouncing the devil we all join him. Every sensible person does not want to see commodity prices soar. But the thoughtful member of congress ought to assure himself that the plan proposed will accomplish the desired purpose.

If Mr. Henderson wanted to give the committee all of the facts he would have told what prices had principally advanced and what had put them up. He could not have said that there has been a great increase in the cost of things because of the contracts for armament let by the government. Armament means chiefly metals and metal products, and the official figures of the government show that that group of products has gone up only 5½ per cent since the war started. If he had wanted to be honest with the committee he would have said that with few exceptions, and these chiefly among imports, the sharp price advances have been confined to farm products. Those prices have been put up as a result of government manipulation. He would have added that if farm prices advance as contemplated by his bill, there will be sharp further increases in the prices of agricultural products.

The point is that the administration is asking for power to administer prices as it sees fit, basing its argument upon the great advance which has already taken place in average prices. But the administration which asks for this power is the one which has already inflated and is engaged in inflating further the prices of certain commodities, which powerfully affect the average. What Henderson and the President are asking is that the Roosevelt administration be given power over all prices, which it now exercises over farm prices.

Every college freshman knows that the way to keep prices down is to increase supply or reduce demand. Has Henderson, despite his title of administrator of prices and civilian supply, done anything to increase supply? Ask the manufacturer of automobiles, washing machines, and electric refrigerators, and other industries. Henderson has sought to cut the amount of goods available far beyond the needs for producing defense materials as determined by the government official in charge of production for defense. If Henderson had concerned himself with increasing the supply of goods available for civilians, he would have done something effective in keeping prices down.

One definite way to increase supplies would be to increase the length of the work week from 35 and 40 hours per week to 44 or even 48 hours. The wages and hours law has been the principal means of cutting the hours of work. That law was adopted at a time when it was believed that there was not enough work to go around. There is no doubt that there would be more products available in the market to keep prices down if everybody worked more. Mr. Henderson hasn't been heard to say anything about this method of increasing supplies and preventing inflation.

On the side of demand the government ought to take account of the rise which has taken place in the earnings of certain groups of workers. Industrial pay rolls as shown by a chart on the financial page of yesterday's TRIBUNE now stand at 152. This is 52 per cent above the very prosperous base period, the years 1923-'25. Factory workers now have 53 per cent more spending money than they had last year at this time. This is the average. Some workers are earning less than they were last year. Thus certain groups of workers are benefiting enormously from the defense program. If the Roosevelt administration really wanted to restrain inflation its war tax plan would include provision for taxing some of these large earnings created by the war. But no suggestion like this from Mr. Henderson.

A recent story by John Fisher in THE TRIBUNE told of the failure of the defense bond and stamp sale to come up to anything like expectations. If the extra flow of wages thru the defense industries were absorbed in these securities the danger of inflation would be lessened. But the government has not been willing to offer the kind of security which would readily appeal to the workman. Three per cent was long the rate of return realized on savings deposits, and a security with such a yield, which could be sold at any time, would have a wide appeal.

The Roosevelt administration has had no real interest in keeping down prices. Some of its moves have been definitely inflationary, and these are being continued. Other obvious steps which would have restrained the upward flight of prices it has neglected to take. And the resulting situation is being used to obtain new powers. This time congress ought to say no.

O BOY, WOULD THAT BOOMERANG!

[Des Moines Register.]

"The two persons changing to the Republican party said their acts involved positions with state governmental departments."—News item.

There is a bad old rule of the spoils system that jobs go to the party faithful, and that if the unfaithful want jobs they have to be "converted."

This is the first we've heard that defense work was affected by party affiliation.

Of course it isn't.

It can't and mustn't be.

The workers, we assume, are just mistaken.

If any such pressure is used on these defense workers—or even any sly hinting, to make them change party affiliations—it's going to hurt the "spollers" ultimately much more than it strengthens them.

LOOKING AROUND THE TOWN.

Correction to reports that the Auditorium building is closed up tighter than a bung: An art dealer's shop on the Michigan avenue side is open and has electric light. Gossips say that an insurance company owns the hunk of land under that corner of the structure and believes in business as usual. . . . Moreover, the Auditorium drugstore, famous old rendezvous at Congress and Wabash, also continues in operation, with lights.

Did you ever see a pavement garden with its own awnings, about two feet high, to protect the petunias from the blazing afternoon sun? Take a look at the interior decorator's shop at 673 North Michigan avenue [east side of street]. It's a pleasant little oddity of life on the Main Stem.

There is a plaque on the wall of the public library, near Randolph street, which states that Jean Baptiste Beaubien, Chicago's second civilian inhabitant, built a "mansion" on that spot in 1817 and lived there until 1840. Many Chicagoans who are now stepping about in lively fashion, including the Linemaster, have met and talked with that old settler's long-lived son, Alexander.

Summer tourists in Chicago are frequently found on the upper decks of buses running north to Howard street. They enjoy the view, naturally, for it is our best, but they also discover that the master-mind who designed these vehicles did not arrange the seating to match the windows. Frames interfere with the view at almost every window.

A condensed history of the Chicago stage: An architect was engaged to reconstruct a theater. When the high mogul from New York saw the blueprints of the floor plan, he put his finger on a vacant spot and said, "There's no seat here." The architect explained, "It's behind a pillar." But the owner roared, "Nevertheless, put in a seat." [Certainly it happened.]

He said, assured in what he had to say,
And thus he put aside the theme of war
And hid his gaze from Ernest Hemingway.

So judged our bored, sophisticated sage,
And while in boredom's throes he did inveigh

He held; "no poetry, no oratory, plays."
And as the bell for broadcasting he toll'd

PROTECT CHILDREN AGAINST CONTAGIOUS ILLS.

WE insure our property against fire, windstorms, and hail—why not safeguard the little ones against infection? Our youngsters may be maintained in tip-top physical condition by means of modern methods of prevention. We can now "black out" diphtheria, lockjaw, scarlet fever, and whooping cough. The time to administer protective vaccines is long before school begins in the autumn, as several weeks will be required.

We are all familiar with the fact that we can banish smallpox if every one will be vaccinated. In like manner we can ward off typhoid by three injections of killed bacteria, given a week apart. This latter precaution should not be neglected by those who engage in overland jaunts, join camping parties, or become members of woodland communities. While the water and the milk at a camp may be perfectly safe, hiking expeditions may take our young people far afield, where they may imbibe contaminated supplies.

There was a time when diphtheria was looked upon as one of our most vicious killers. Today it is a vanishing malady, thanks to toxoid—to which a neutralizing substance against lockjaw may also be added.

Horseback riding is popular and we know how common the tetanus [lockjaw] germs are about stables, barnyards, and bridle paths. They are excreted from the intestinal tracts of farm animals and may be scattered far and wide by the breezes that blow. Then, too, we are relatively careless about minor wounds and the bacillus can gain entrance to the body thru a scratch, a cut, or an abrasion. Alum precipitated tetanus toxoid may be combined with the diphtheria preparation and thus we erect a barrier against each disease.

To guard against scarlet fever is not quite so simple. First of all, the tot should be tested for susceptibility. If he is found to be a ready victim, immunity may be established by administering five graduated doses of toxin at weekly intervals. The results are almost 100 per cent in repelling the affliction, should it make its appearance in the schoolroom or in the neighborhood.

A siege with whooping cough is neither to be invited nor welcomed. It takes too much out of the youngster. It is such a destroyer of reserve that after effects, such as middle ear disease or pneumonia, are likely to tag along. While vaccines are not perfect, more than 90 per cent of those treated are safeguarded. It is necessary to employ a potent product, and that which is prepared after the method of Sauer gives optimum results. Three injections will suffice if the quantity is generous. Severe reactions are relatively rare. We can understand something of the minuteness of these germs when we realize that 20,000,000,000 or more may be suspended in a quarter of a teaspoonful of fluid.

Unfortunately, we are not able to immunize completely against measles, but we can modify the illness so that it will be mild. This is accomplished thru the use of convalescent serum. This material is obtained from one who has recovered from the disorder, and only a small amount will be needed. Under its influence the ailment will lose its dangerous character, in so far as complications are concerned.

But when should we utilize these preventives? The rule advocated by the family doctor should be adhered to. Whooping cough vaccine may be started when the infant is between 6 and 9 months of age. But don't wait until a 5 or 6 year old is about ready for school and then ask your physician to write a policy against all these infections.

BLOOD BLISTERS.

E. N. N. writes: Why do tiny clots of blood, the size of a pinhead, come thru the outer skin? They look like small red freckles, fade to brown, and die away. There will be a dozen or more out at one time.

REPLY.

Some weakness in the capillary wall may lead to stretching—hence, the clotting of blood. Occasionally bacteria will lodge in these small loops. In some instances, showers of particles from a focus of infection will be responsible. If the condition persists a careful checkup is advised, involving examination of the heart, the blood, the kidneys, etc. The disorder, known as "purpura," should be investigated.

TRAVELING FREE ON TRAINS.

Chicago, Aug. 4.—The newspapers recently reported that the Association of American Railroads was considering a nation-wide reduction in passenger train service because of a steel shortage and the army needs for passenger equipment.

One way by which this program can be greatly facilitated is by elimination of the exchange pass courtesy among railroads. There may be justification for a railroad to grant free transportation over its own line to its own officers and employés, but there is no reason for extending the courtesy to officers and employés of another railroad.

In lieu of the exchange pass I would suggest a charge of one-half the regular fare; thus the present free traveler would be contributing at least something toward upkeep of the expensive service which he is enjoying.

How will this affect the defense program? In this way: On some of our larger railroad systems you will find trains with a fourth of the passengers traveling entirely free, made up chiefly of foreign line officers and employés. Not being able to travel free, a large part of this nonrevenue patronage will not travel at all. Thus the railroads would be able to reduce the number of cars in many trains and in some instances the elimination of an entire train would be possible. L. B. F.

WHAT THE HORSES ARE FOR.

Fort Bliss, Tex., Aug. 3.—I assume your editorial, "Why take the horses along?" was intended in fairness. That being the case your writer was not fully cognizant of the facts.

Briefly, the First cavalry division, roughly 10,000 strong, with almost all elements mounted on horses, takes its horses because:

a. It traverses country which in many cases is impassable to motor vehicles [our own motors and tanks bogged down].

b. For distances up to 50 miles, it transports 10,000 fighting men, with arms of all description, to positions of battle faster than any infantry force of equal size, whether motorized or not.

c. It appears facing an enemy on the battlefield today, and by marching at night, attacks the enemy in flank and rear 20-30 miles away.

d. In country too difficult for cargo motor columns it follows the break thru by tanks and because of the mobility of those same horses seizes and holds ground thus gained.

In the maneuvers to which you refer these 8,000 horses each marched about 250 miles in eight days thru mountainous country in which trucks, armored cars and tanks bogged and were helpless.

May I likewise inform you correctly in regard to the motor vans. These are provided as part of our basic equipment in such numbers as to transport only one cavalry squadron [about 375 horses, men and equipment] on far reaching missions. They are large cargo trucks [horse vans] and as such are usually limited to movement on improved or semi-improved highways, just as your moving vans are in civilian life. INNIS P. SWIFT,
Major General U. S. Army Commanding.

ATLANTA AND "FREE SPEECH."

Atlanta, Ga., Aug. 3.—Regarding the refusal of the Atlanta authorities to grant a permit for Senator Wheeler and others to speak in the auditorium, here are the facts: At a public hearing by the council committee the application for the meeting was unanimously rejected. Several hundred people were present and there were heated words.

The name of the America First committee was hardly mentioned and Wheeler's name was not stressed.

Maj. Trammel Scott, on behalf of ex-service men, made an eloquent appeal for harmony and the upholding of the nation's program. A resolution offered by Commander Joseph B. Sitton of post 3027, Veterans of Foreign Wars, mentioned no names and merely asked that the use of the auditorium as other city property not be allowed for gatherings calculated to engender disunity in this national crisis. He called attention to the President's proclamation of unlimited national emergency, and said he did not believe there was any considerable demand for such a meeting.

A resolution sponsored by 24 veterans' posts was read. It said:

"The President is commander-in-chief of the army and navy, and when he speaks in that capacity he is, to us, infallible and we accept his orders as we did in 1917-'18.

To Senator Wheeler and others the resolution said, in part:

"We are not in favor of public speeches which we believe can make for disunity [altho we believe in free speech and freedom of the press] and we regret that we cannot welcome your efforts to enlighten our citizenry—who, we believe, have made up their minds as to the duty of their nation and its leaders—back of whom they stand almost as one man. We therefore ask our mayor and governor to refrain from issuing a permit for such a gathering as you evidently are seeking.

"Your high office of senator gives you prestige and our respect for freedom of speech, plus courtesy, politeness or noblesse oblige and our prided southern hospitality and fair mindedness would, at first glance, seem to compel us to welcome your efforts to enlighten our citizenry, but your campaign has, to our way of thinking, attacked the very foundation of our democratic principles.

"Let us be plain, as you are: We do not welcome you or Lindbergh to our city."

The refusal of the application followed. EWELL COFFEE.

COLLECTIVISM MARCHES ON.

West Falmouth, Mass., Aug. 3.—The appointment of Vice President Wallace as head of the economic defense board tends to increase the public's apprehension over the adequacy of our national defense effort. Placing most of the key defense jobs in the hands of incompetents and left wingers does not create a feeling of confidence.

On the contrary, such appointments as this and the nomination of collectivist Tugwell for governor of Puerto Rico confirm the belief that the administration intends to fill important positions with New Deal radicals who are enemies of the American system of private enterprise. The same old gang which eight years ago set out to "make America over" and to redistribute its wealth is sitting firmly in the saddle.

No wonder that one big crop which the New Dealers have never plowed under is the sucker crop. Will the American people wake up to their peril before it is too late? S. F. MORSE.

PROBE MYSTERY DEATHS OF TWO PARKED IN WOODS

Dazed 6 Year Old Boy Is Found at Scene.

(Picture on back page.)

Gerhard Stoll.

Coroner A. L. Brodie said last night that he was satisfied that the deaths of Mrs. Florence Stoll, 26 years old, and Francis Ross, 43, whose bodies were found in a parked automobile, were suicides. Several mysterious circumstances, however, including the presence of Mrs. Stoll's son, Charles, 6, at the scene, prompted the state's attorney's office to continue the inquiry. Mrs. Stoll's husband, Gerhard, 26, agreed to take a lie detector test after the inquest, to be held this morning.

Mrs. Stoll, who lived at 1470 Elston avenue, and Ross, who lived at 2737 North Racine avenue, were found dead yesterday morning, slumped in the back seat of Ross' car in a forest preserve parking lot near Irving Park and Cumberland roads. Coroner's physicians said the deaths apparently were caused by carbon monoxide and that both victims had been dead at least 12 hours.

Three Puzzling Factors.

Puzzling circumstances in the case were these:

1. The Stoll boy, a first grade student at the Kosciusko school, stepped from the car, dazed, his eyes bloodshot, clothes bedraggled, and face and hands grimy. He was unable to give a coherent account of what happened.

2. Witnesses differed as to whether the windows were open or closed when the car was found. The ignition was off, however, and there were still 7 gallons of gasoline in the 10 gallon tank. Lieut. Henry Andel of Morton Grove county highway police found that the exhaust pipe had been adjusted so that carbon monoxide fumes entered the interior of the car.

3. An autopsy showed Ross apparently died at least 10 hours before Mrs. Stoll.

Ross had been seen alive near the car Tuesday morning. Peter Rasmussen, a Civilian Conservation corps camp foreman, noticed the car Wednesday morning and was directed to the bodies yesterday by the Stoll boy. The boy said he had not eaten since Wednesday and had slept in the front seat of the car.

Woman Leaves Note.

On the car seat was a note apparently written by Mrs. Stoll and addressed to her husband, a worker in a rubber factory. The note read: "This will surprise you and yours, but there is no other way out. I'm to blame as I asked Frank to do it. I took Charley with me because he wanted to go. After all he meant more to me. Gary, you told me that I cannot leave. But I did. I thought I could get my freedom but I couldn't, and if I could—well, it would have meant a lot to me. I will never forgive you and I hope you will think about it time and time again. Just Flo."

Stoll said he and his wife frequently quarreled over her friendship with Ross and that he warned the two to stay away from each other. When his wife failed to return, Stoll said, he notified police and then visited the Ross home. He was told by Ross' mother that Ross and Mrs. Stoll had gone off together. Stoll added that he planned to file suit for divorce yesterday.

AUTO DAREDEVIL DIES AFTER END OF ACT AT CARNIVAL

Kalamazoo, Mich., Aug. 7 (AP).—Harry Finkboner, about 25, of Freeport, Ill., starred as a "hell driver" in a carnival, felt ill after completing his act last night. Shortly after midnight he died in Bronson hospital.

The young man, who did a stunt in an automobile, was taken to the hospital after he had become unconscious, Coroner R. G. Cook said, and 10 minutes after his arrival was dead. Coroner Cook said a postmortem would be conducted.

Relatives in Illinois were notified.

A CAPTAIN GETS OUT THE VOTE IN PRECINCT CLASH

Harry Schulman, former Democratic captain of the 11th precinct of the 22d ward, had no witness except himself yesterday. His successor, Morris Schwartz, demonstrated his prowess at getting out the vote by producing five. Consequently Schulman's charge of assault and battery against Schwartz was dismissed by Municipal Judge Leroy Hackett.

Morris Schwartz [top] and Harry Schulman.

Schulman asserted that on July 28, at Ogden and Kedzie avenues, Schwartz broke his glasses, cut his eye, knocked him down, and kicked him. Schwartz and his five witnesses said that Schulman swung and missed Schwartz and that his momentum carried him against the edge of a drug store window, which cut and felled him.

Schulman held the job 12 years before Ald. Henry Sonnenschein fired him after he expressed dissatisfaction because his reward for political loyalty was only a $208 a month bailiff's job.

FREED OF RAPE CHARGE.

Judge John J. Griffin in Felony court yesterday dismissed a rape charge against Marsaille Hough, 35 years old, 4550 North Racine avenue, a city laborer, when the complaining witness said she did not want to prosecute the charge.

IT'S LOTS OF FUN TO MIX YOUR OWN SALAD DRESSINGS

Here Are Basic Recipes That Will Help.

It's fun and often economy to make one's own salad dressings. A jar of boiled dressing and a bottle of French dressing in the refrigerator will take care of salad making for several weeks in the average home.

Both basic recipes may be dressed up in so many different ways that the cook can give the impression that she has a whole cupboardful of jars and bottles of salad dressings from which to choose just the right one for each salad.

Boiled dressing usually is diluted for use with cream, evaporated milk, milk, or sour cream. Catsup or chili sauce may be added to it. If it's to dress a fruit salad, fruit juices may be used as thinner.

COOKED SALAD DRESSING.
[1½ cups.]

2 tablespoons flour
1½ teaspoons salt
½ teaspoon or more dry mustard
1 tablespoon sugar
¼ teaspoon paprika
2 egg yolks
1½ cups milk or evaporated milk and water
½ cup vinegar
1 tablespoon butter or margarine

Mix flour and seasonings in the top of a double boiler. Add beaten egg yolks and mix well. Heat milk and add gradually, stirring constantly. Cook over hot water until smooth and thick, 12 minutes or a little longer. Remove from heat, add vinegar and butter, beat until smooth, and chill. Dilute with cream, fruit juices, or sour cream, to use.

While the cooked salad dressing is an excellent base for a fruit salad dressing [all you do is add fruit juice and perhaps a little honey or sugar], some cooks like to keep on hand a basic fruit dressing—one which is mixed with whipped cream just before serving. This recipe is grand for an accompaniment to a large platter of fresh fruits to be served as salad.

GOLDEN FRUIT DRESSING.
[About 1¼ cups.]

2 eggs
⅓ cup sugar
1 tablespoon flour
2 tablespoons lemon juice
¼ cup orange juice
¼ cup pineapple juice
Whipped cream, just before serving

Beat eggs, add sugar, flour, and fruit juices, and cook in the top of a double boiler, stirring constantly, until custardy. Chill and mix with an equal amount of whipped cream just before serving.

All you need to do to make a basic French dressing is mix the ingredients and put them in a bottle. Then, just before using, you shake the bottle vigorously enough to mix the dressing thoroly. And if you decide upon a variation, you pour out as much as you need, and add to it chili sauce or chopped green pepper, onion, and pimiento, or any other ingredient or combination of ingredients which you've decided upon.

This good recipe is slightly different from the usual basic one.

FRENCH DRESSING.
[A little more than a pint]

1 egg white
¼ cup vinegar
¼ cup lemon juice
1½ cups salad oil
2 teaspoon paprika
1 teaspoon dry mustard
1½ teaspoons salt

Beat egg white until foamy, add other ingredients, and beat well to mix. Pour into a quart jar and cover. Shake vigorously before using. A clove of garlic may be placed in the jar for a day or so, if you like garlicky dressings. Don't leave it too long or you'll have more flavor than you like. Add a little honey or sugar to the dressing when you use it for fruit salads.

Marshmallows in Ice Cream

For a smooth textured, velvety homemade ice cream, without a trace of icy particles, try using marshmallows in the recipe. This refreshing looking dessert is made with 32 marshmallows, 1 cup milk, 2 cups fresh raspberries, crushed and ½ pint whipping cream. Heat the marshmallows and 2 tablespoons of the milk in a sauce pan over low heat. Stir constantly until marshmallows are about half melted. Remove from heat and stir until mixture is smooth. Cool, then gradually add remaining milk and blend. Pour into freezing tray and chill until mixture begins to freeze. Stir mixture thoroly and fold in raspberries and whipped cream. Freeze at coldest temperature, stirring several times during freezing period. Serve with a garnish of fresh whole berries.

LIVER AND ONIONS GET TOGETHER FOR A NEW DISH

For those "as likes 'em" nothing can beat liver and onions as a prime favorite among meat dishes. And here they are in a new style.

LIVER AND ONIONS—NEW STYLE.

1 pound liver
Flour
1 teaspoon salt
¼ teaspoon pepper
4 tablespoons bacon drippings
1 can onion soup

Mix flour, salt, and pepper. Have liver cut into ½ inch pieces. Remove skin and dredge in seasoned flour. Brown in bacon drippings. Add onion soup, cover and simmer for 15 minutes, or until sauce thickens.

And here's another old favorite [beef kidney this time] that turns up at table in a new and tasty meat loaf.

KIDNEY LOAF.

1 pound beef kidney
1 cup milk
8 slices bread
¼ cup bacon drippings
2 eggs
1 No. 1 can pimientos
1½ teaspoons salt
¼ teaspoon pepper
3 tablespoons grated onion
½ teaspoon powdered sage
3 slices bacon

Wash kidney in cold water. Drain well and grind, including the internal fat. Pour milk over bread and soak. Combine all ingredients except bacon and mix thoroly. Line bottom of loaf pan with slices of uncooked bacon. Add mixture and pack firmly. Bake in moderate oven [350 degrees] for one and one-half to two hours.

AN UPSIDE DOWN MEAT PIE'S TASTY WITH HAMBURGER

Hamburger meat is the "making" of this upside-down meat pie. It's an inexpensive dish that has lots of flavor appeal. You can use leftover meat in it, if you like.

UPSIDE DOWN BEEF PIE.
[Serves 6 to 8].

2 tablespoons fat
1 onion, sliced
2 cups of canned tomatoes
¾ pound ground beef or left-over meat
Salt and pepper

Brown onion and meat in hot fat. Add tomatoes, season with salt and pepper and cook mixture until somewhat thickened, in a large skillet [about 9 inches]. Cover with savory biscuit crust and bake in a hot [425 degrees] oven for about 15 minutes or until the crust is golden brown. Turn the pie upside down on a hot platter to serve.

SAVORY BISCUIT CRUST.

1½ cups sifted flour
2 teaspoons baking powder
½ teaspoon salt
¼ teaspoon pepper
1 teaspoon paprika
1 teaspoon celery salt
½ teaspoon poultry seasoning
4 tablespoons fat
⅔ cup milk
A little chopped parsley [optional]

Mix and sift dry ingredients together. Cut in fat, until mixture is the consistency of meal, and add the milk and parsley. Put on floured board and knead it 30 seconds. Pat out to fit top of skillet.

JUICE OF APPLES ADDS DASH TO BLUEBERRY JELL

Blueberries won't make jelly by themselves, but they make grand jelly with added fruit pectin or in combination with tart apple juice. To make blueberry and apple jelly, prepare the juices separately.

Crush the berries and heat them two or three minutes, or until the juice flows freely. Put them in a jelly bag to drain. Cut green apples into quarters, but don't peel or core them. Add water to cover and cook until soft. Drain thru another jelly bag. Combine the two juices in equal parts, or use two-thirds apple juice and a third blueberry juice.

Measure ¾ cup sugar for each cup of juice and boil the juice and sugar together in a wide kettle or saucepan until two drops of the sirup run together at the edge of a spoon and hang for a moment before falling. Pour jelly into clean, hot glasses and seal with paraffin. Almost any way they're prepared blueberries need the sharp accent of another tart fruit. Lemon juice and rind give this jam just the pep it needs. Pectin gives it a jellylike texture.

BLUEBERRY JAM.
[12 8-ounce glasses.]

4½ cups crushed blueberries
Juice of 1 lemon
Grated rind of ½ lemon
7 cups sugar
1 bottle fruit pectin

Crush blueberries, measure, and add lemon juice and rind. Add sugar and mix well. Bring to full rolling boil over high heat. Stir constantly. Boil hard for 2 minutes, remove from heat, and stir in pectin. Skim and pour quickly. Paraffin at once.

BARBECUE SAUCE ADDS TASTY TANG TO MEAT DISHES

It's a good idea to have a zippy barbecue sauce on hand for picnic meals and family suppers. The sauce that accompanies these barbecued steaks can be stored in a covered jar until ready to use. It may be used in other meats and poultry.

BARBECUED STEAKS.
[Serves 6.]

1 tablespoon butter
½ onion, minced
1 tablespoon vinegar
1½ tablespoons lemon juice
½ cup catsup
¼ cup water
1 tablespoon Worcestershire sauce
¼ cup celery, minced
1½ teaspoons dry mustard
1 tablespoon brown sugar
¼ teaspoon cayenne pepper
¼ teaspoon chili powder
2 pounds round steak, sliced ¾-inch thick

Melt butter, add onion and cook over medium heat for 3 minutes. Stir in remaining ingredients; simmer until sauce is thick, about 20 minutes. Store in jar until wanted. When ready to cook steaks, dip each steak in sauce; then cook over grill or in the frying pan.

Here's Just the Salad for That Broiled Steak Dinner

Here's just the salad to accompany a dinner of broiled steak and French fries. Break up a small head of lettuce in a salad bowl. Arrange quarters of tomato, slices of avocado, and diced cucumber over the lettuce. Slice a green pepper in thin rings into the bowl. Chill the combination until the rest of the food is ready. Toss the salad at table, using a French dressing containing a trace of garlic and some crumbled Roquefort type cheese. This salad serves as salad and extra vegetable with the meal.

WHY SHOULD BABIES, AND GROWN-UPS TOO- EAT QUAKER OATS DAILY?
ANSWER: Because whole-grain oatmeal is Nature's richest thrifty source of THIAMIN (Vit. B1)—needed for normal growth, appetite, digestion—for sound nerves—for radiant energy! Because Quaker Oats is rich in PROTEINS, needed for building firm flesh (not fat), trim, streamlined bodies.

NOW'S THE TIME TO FIX PEACHES FOR WINTER USE

3 Books Telling You How They Can Be Had Cheaply.

BY MARY MEADE.

Peaches and corn are at the peak of their seasons, so let's be eating our fill of them. Now is the time to make peach preserves and pickles and to put up some of the rich golden fruit in jars for the winter's sauce. We've three booklets, here at the cooking department, which will guide you in the pleasant art of putting up peaches.

For canned peaches, see "Homemaker's Guide to Canning," which will cost you a nickle in the Public Service offices of The Tribune in Tribune Tower or at 1 South Dearborn street. If you want it sent, the cost is 7 cents in stamps. For peach preserves and jams, see "Mary Meade's Best Jams and Jellies," 20 cents if you pick it up, 23 if mailed. And for pickles refer to "Favorite Pickles and Relishes," 3 cents if you call for it, 5 cents if we send it.

Back to the Bargains.

Well, I didn't intend to start off with a sales talk. Let's get back to the week-end bargains in food.

Besides peaches, which are selling at the most reasonable price in years, watermelons are a good buy, for they are lower than they were last week. Cantaloupe has come down a penny or so, too, and apples are getting more plentiful. A few Wealthies are coming in.

Bartlett pears aren't in the bargain class, but you may like a few for fruit salads. Oranges, lemons, plums, and grapes are holding up in price, too. Rosy and sweet purple grapes are beginning to supplement the little green seedless fruit.

Now for a look at the vegetables. Green beans, cabbage, carrots, celery, peas, tomatoes, white potatoes, and dry onions are worth your money. Green beans, peas, and tomatoes are especially likely to be good buys, in addtion to the corn which is now as good and as reasonable in price as we're likely to see it. There's a good supply of tomatoes.

Lettuce of Good Quality.

Home grown leaf lettuce is of good quality and happily priced. Western iceberg lettuce has come down a notch or two since last week.

Meat and poultry prices vary a good deal from market to market, but plenty of stores will be carrying nice broilers at 25 cents the pound, not a bad price.

Pot roasts vary from 19 cents to 25 in the meat specials. Smoked ham and smoked picnics are bargain priced in many a market.

Look for these other meat buys: Lamb shoulder roast, leg of lamb [not as low in price as the shoulder, naturally], beef short ribs, slab bacon, ground beef, and cold cuts. They'll not all be found at bargain prices in one store, but a little looking around and comparing of cents per pound will repay you. And if you're in the mood for round steak or sirloin, you can find it for around 37 pennies the pound this market day.

Floating Island Pudding

This island pudding does its floating on a sherry flavored custard. To make it scald 3 cups of milk in double boiler. Cook in it spoonfuls of 6 stiffly beaten egg whites which have been sweetened with ⅓ cup powdered sugar. Cook the spoonfuls for just 2 minutes then set aside to use as topping. Beat the yolks of 6 eggs until thick and lemon colored and add to them the scalded milk and another ⅓ cup sugar. Return to double boiler and cook until custard coats a spoon, stirring constantly. Remove from hot water and add ¼ cup sherry wine. Chill thoroly before serving. For added color top each glob of egg white with a bit of currant jelly.

Honey Eggnog Is a Good Dessert for Summer Days

Honey eggnog is "dessert" to any child on a hot summer day. It's easy to make. Simply beat the yolks of 4 eggs until lemon colored; add 4 tablespoons of honey and milk well mixed. Then gradually stir in 3 cups of milk and the stiffly beaten egg whites. Add a sprinkling of nutmeg to the top of each glass and serve. This will make four servings.

Here's Trick to Add Flavor to Cakes and Jelly Rolls

Try dusting your sponge cakes and jelly rolls with vanilla sugar for added flavor. Keep a vanilla bean in the container holding your confectioners' sugar, and it's ready to use at any time.

HERE'S SOLUTION TO YOUR SUMMER MENU PROBLEMS

New Booklet Contains Cooling Ideas.

Looking for something cool to serve your family? You'll find the answer in Mary Meade's "Cool Meals for Warm Days."

"Cool Meals for Warm Days," is a collection of summer menus and the recipes to go with them. It does your menu planning for you on those days when it's too hot to think and almost too hot to eat. COTTAGE CHEESE SOUP A STARTER FOR COLD MEAL

Cheese of any kind always goes well with summer meals, and this thick, creamy, cottage cheese soup is far from an exception. It's served hot and is just the right beginning for a cold supper or lunch.

COTTAGE CHEESE SOUP.
[Serves 6.]

- 4 tablespoons butter
- 1 tablespoon grated onion
- 4 tablespoons flour
- 1½ teaspoons salt
- 4 cups milk
- 2 cups cottage cheese, strained
- Chopped parsley

Cook onion in butter until transparent but not browned. Add flour and stir until smooth. Add salt and milk and cook until thickened, stirring constantly. Then add strained cottage cheese and stir until well blended. Remove from heat, and serve immediately, garnishing with chopped parsley.

Children May Find Talents During Leisure

By GLADYS HUNTINGTON BEVANS.
Copyright: 1941: By News Syndicate Co., Inc.

The mother whose son or daughter already has given evidence of some artistic talent, some craft ability or mechanical tendency, or even a special fitness for prowess in sports, hasn't much of a problem. All she needs to do is to provide the materials for carrying on along the line of the special interest.

In a few cases, after independent practice or experience in arts or sports or crafts, some children need and profit by outside instruction. But given music to dance to, paints or pencils to draw or paint with, tools and wood for carpentry, a radio, supplies, knitting needles and wools, simple pretty cotton fabrics for dressmaking experiments, or rackets and balls and swim suit and children will go far in spontaneous self-expression.

The mother whose child just never knows what to do with himself or herself has more of a problem. That child needs to be given, in some way, a chance to uncover a hidden talent, a dormant interest.

For example: A very stimulating experience for such children and all children in fact—is being taken on little tours of interest and sight seeing. Those who live in big cities have a great advantage in this respect. Teachers recognize this stimulation, and both they and parents who are alert will notice how a child reflects these impressions in her play, her talk, and her art expression.

Contact with other children who have rich uses for their leisure will often infect their companions with enthusiasm, and in this way your child may find that he has a keen eye for birds or other outdoor creatures, a flair for dancing, a gift with hammer or pencil.

And the having within reach of materials for many sorts of activities is the third way to help release sleeping ability.

According to CULBERTSON

[Copyright: 1941: By Ely Culbertson.]

Some of the atrocities committed at the bridge table are so incredible that, when it comes to putting them into print, the reporter is likely to feel downright silly. Yet, when the players involved are supposed to be members of that exalted class, national masters, certain cases should be recorded as curiosities, if nothing else.

Here is "one for the book."

A word of explanation must precede the bidding. West dealt and passed, and East *thought* that North passed also, hence East opened with one club. Actually, North had only mumbled something about the weather, so East's bid was called "out of turn"; the auction reverted to North, and the complete sequence then became:

West	North	East	South
Pass	Pass	1 no trump	2 no trump
Pass	Pass	Double	Pass
Pass	Pass		

As noted, East, having had his club bid canceled and his partner barred from the auction, officially opened with one no trump, according to his legal rights. South, knowing that he could not be doubled by West [who was barred from any bid], took a flyer with two no trump, East, however, was strong enough to double this on his own account, and the whole matter *should have* turned out very well for the East-West team.

West, ignoring the information he had received about East's club suit, shrewdly opened the heart six. East won with the king and autocratically shifted to clubs, playing the king, ace, and three spot. West disgustedly concluded that East's heart king had been blank; that declarer had made a natural holdup of the ace. Declarer now led the diamond ten and West *correctly* ducked. He could not know that East had the ace; he might have the king, in which case putting up the queen probably would be fatal.

On the lead of the diamond ten, East continued his brilliant defense—he ducked! Now declarer led a low diamond, West ducked again, and the ace won. At this point East still could have led hearts to defeat the contract 800 points, but not *this* East! He was unalterably convinced that declarer had the guarded heart queen, and determined to set up a club trick. He led another club. Declarer won, cashed the spade king, scooped up the diamond queen with his king, and entered dummy with a diamond. A successful spade finesse accounted for the eighth and fulfilling trick!

Regretfully, I must refrain from reporting what West said to East.

Covered Knees for Small Fry, Fashion Ruling

BY REA SEEGER.

Long legged moppets racing and romping round the yard will look far different this year in their bright colored long stockings. Those dark, dreary all-black numbers are doomed; these vivid reds, greens, and bright blues take the spotlight. Indorsed, approved, and accepted by the parent, nurse, and even the medical grown-ups, the colors will sell them to the kids.

Evidently the Spartan idea of exposing your youngsters' shins and knees to wind, rain, and storm isn't the bright idea some one thought it would be . . . long colored affairs are not only comfortable on the child but easy to take from an esthetic view.

Of course you can find the long units in neutral beige if the gayety seems a bit too much, but we're betting our best beret once the small fry see them, the slightly drab neutrals will be avoided with much vigor. However, for party dresses or for Sunday school and other dress-up occasions neutral beige stockings provide the right smart contrast with practically every color and material used for children's clothes and outer apparel.

There are three high colors for school and general wear . . . fire-truck red affairs, forest green, and deep blue. They are a trifle startling at first glance, but they're slick color accents on youthful legs. Such brilliant colors go with gay Scotch plaids, with the dirndl dresses, with skirts and sweater combines, with pleated skirts and blouses, with the many new suspender dresses, and with the jaunty daytime coats of wool—even the velveteen costumes for afternoon.

Clever House Dress Scheme

WOMAN'S AND MISS' HOUSE DRESS.

Here's a really clever domestic wardrobe scheme! The pattern fashions an exceptionally smart house frock, one pretty enough, by far, for informal hostessing, and adds the fillip of a practical apron to be buttoned to the bodice and tied around the back. The apron may match or contrast. In any case, it's an integral part of an ensemble, lending distinction to the hostess at a "snack" party.

Style No. 3058 is designed for sizes 14 and 16, and 36, 38, 40, 42, 44, 46, and 48 inch bust measurements.

Monteux Gives Ravinia One of Its Big Nights

Concert by the Chicago Symphony orchestra, Pierre Monteux conducting. Presented at Ravinia park Thursday evening, Aug. 7, 1941. The program:
Passacaglia and Fugue, C Minor.....Bach
Orchestrated by Ottorino Respighi.
Symphony, D Major ["Haffner"].Mozart
Suite Provençale.....Milhaud
Symphony No. 2, D Major.....Brahms

BY CECIL SMITH.

With the exception of a gesture of homage to Darius Milhaud, once his compatriot in France and now a fellow San Franciscan, Pierre Monteux devoted his attention to German music at Ravinia last night as wholeheartedly as he had to French music on Tuesday. Any one who had anticipated that Mr. Monteux would be a less convincing conductor when he turned aside from the music of his native land found himself thoroly in error. For last night's concert was as completely tonic and bracing and as full of sheer musical delight as Tuesday's.

The great Bach Passacaglia and Fugue achieved a perfect balance between dignity and animation, moving ahead with continuously vital rhythm and never becoming merely noisy and exhibitionistic, despite the garish orchestration of Respighi.

Mozart's sunny "Haffner" symphony, under Mr. Monteux's wonderful direction, became a miracle of charm and loveliness. Mr. Monteux surpasses nearly every living conductor, except perhaps Arturo Toscanini, in the utter candor of his musical approach, and in the extraordinary extent to which the most discreet taste is balanced by a gift for natural, simple, and eloquent melodic inflection. Thruout the symphony the orchestra attained perfect balance and truly amazing transparency of tone. This was one of the memorable performances in Ravinia's six year symphonic history.

The "Suite Provençale" of Mr. Milhaud, which had been heard in Chicago once before at an Illinois Symphony orchestra concert, again made a most agreeable impression with its resourceful combining of 18th century folk melodies with spicy, dissonant modern harmony and clever suggestions of the form and style of Handel.

The Brahms second symphony aroused tremendous applause and loud cheers from the audience. And well it should have, for the performance was an object lesson in musical genuineness and a much needed reminder that great music achieves its utmost eloquence when it is allowed to speak for itself naturally and straightforwardly.

A new amplifying system was employed for the first time. It cannot be heard inside the pavilion, and it increases the audibility of the music to those outside, without distorting the music. Perhaps a little too much current was used, but future experiment will no doubt determine the proper level at which to operate the system.

Building muscle for Uncle Sam!

He "cooks" iron

All steel alike? Not according to Blast Furnace Blower Calvin A. McClure! Each grade and type must be "cooked" according to its recipe and he's the man who knows how to do it. Here he inspects a sample to see that his steel always measures up. "Bowman Milk measures up every time, too," says Mr. McClure. "I prefer its flavor, and the Vitality Boost has certainly helped me." . . . *2613 140th Pl., East Chicago.*

Men in the thick of America's defense program are finding that the VITALITY BOOST helps them go full speed ahead

He fashions mighty machines

Able to teach the finest precision work on lathe or drill press and able to do it, too, is Machinist H. A. Strong. At three score and ten, he is hale, hearty, *full* of vitality, capable of doing more work than much younger men. "The Vitality Boost helps me sleep better and feel better," says Mr. Strong. "I'm a steady customer for Bowman." . . . *8159 Calumet.*

THE VITALITY BOOST:
At bedtime every night a glass of
BOWMAN MILK
THE MILK OF SUPERIOR FLAVOR

HERE'S WHY IT HELPS: 1. You take the milk when your stomach is empty. Preventing hunger pangs, it helps you get more restful sleep.
2. It reduces the tax on your energy store that even sleeping takes. (Your body's need of fuel each sleeping hour is *actually* 40% of the average for all your waking, working hours! That's because your heart keeps pumping; breathing continues, "relaxed" muscles are always under tension.)
3. It gives your body . . . in easily digestible form . . the most nearly perfect supply of nutritional essentials that any food can provide.

A constant check on temperature—
During bottling BOWMAN makes a temperature test every 15 minutes
—to give you the Milk of Superior Flavor!

● When Uncle Sam called for more machines, more material, more work, the men pictured here were among the first to feel the pressure.

But make no mistake! Building muscle for Uncle Sam is an every-man, every-woman job. *You* will feel the pressure, too!

That's why you should be intently interested in what these men do to help themselves sleep more soundly, to awake refreshed, to go full speed ahead at their work. What they do is take the Vitality Boost—every night at bedtime an *extra* glass of Bowman Milk! Start this healthful habit, too. You'll enjoy it with The Milk of Superior Flavor.

THRU THE LOOKING GLASS

In this weather the idea of a special aromatic bubbling footbath preparation seems especially alluring. Almost every one of us knows exactly what it is to be footsore at the end of a hot day, no matter how careful we are in our choice of shoes.

This preparation is used in a 10 minute beauty treatment for the feet. It's a sea green powder with an aromatic fragrance—there's a note of menthol in it—and a footbath with it does wonders in relaxing and refreshing the anguished tootsies.

The powder comes in tubes. You use one tube of the stuff for one footbath, emptying it into the bath tub or a small footbasin and turning the water on hard. The water should be as warm as you can take it, and if you're partial to bubbles give it plenty of force. If you haven't a foot basin fill the tub with just enough water to cover the feet and ankles and, for the duration of the bath, rest as comfortably as you can on the side of the tub.

Tho the bath is warm, the effect is cooling. The powder is mildly deodorizing and astringent. The burning sensation is relieved quite quickly and after the bath, when you've dried them with a towel, you'll notice that the skin feels less moist than it usually does.

Women who walk a great deal, or who're heavier than they should be, will like this new foot preparation. It helps relieve that hot, swollen sensation.

Rare Orchid Display to Feature Flower Show at Lake Geneva

BY JUDITH CASS.

AN unusual treat is in store for flower lovers at this summer's Lake Geneva Flower show to be held today, tomorrow, and Sunday in Horticultural hall in Lake Geneva, Wis. It is a display of orchids in their natural setting from the famous orchid hothouses of the Lewis B. Myers estate at Lake Geneva.

Protected by swaddling clothes in the form of masses of moss and tissue, growing plants with fragile blooms have been carefully taken two miles from the Myers conservatories to become one of the chief attractions in the main hall. Horticulturists, particularly orchid fanciers, from all over the world have come to Lake Geneva to see the Myers orchids, so the Lake Geneva Garden club is thrilled to have this exhibit added to its show.

English Dipping Well Featured Decoration of Show

Also in the main hall, and the featured decoration of the current show, is an old English dipping well, copied from one in the gardens of Miss Ellen Holt of Lake Forest. Mrs. Louise Hubbard, the landscape architect who designed Miss Holt's well, supervised the construction of this one. Some ancient handmade iron gates from an old Lake Geneva estate and a hedge of arbor vitae add atmosphere to the English garden.

The presidents of the garden clubs in this area affiliated with the Garden Club of America, and the judges and hostesses of the show will be entertained at two luncheon parties today in the patio of Horticultural hall. Mrs. William F. Petersen and Mrs. Robert Tarrant will give the luncheons. Mrs. Petersen is president of the Garden club and Mrs. Tarrant is chairman of the show. The judges will be Mrs. Mahlon O. Bradley of Highland Park, Mrs. Warren Shoemaker of Winnetka, and Mrs. Alfred James of the Green Tree Garden club of Milwaukee.

The show will open at 2 o'clock today, Chicago daylight saving time, and will continue all day tomorrow and Sunday, with reduced admission on Sunday. The public is invited.

Dunham Woods Riding Club Having Water Carnival.

The Dunham Woods Riding club in Wayne will be a-buzz with activity this week-end for its fourth annual water carnival is to be held tomorrow night, and the finals of the mixed doubles tennis tournament will be played tomorrow afternoon. Dinner will be served at 7:30 o'clock around the pool, where the aqua show will commence promptly at 9:30. The water ballet from the Lake Shore club and its tandem team; Fred Springer, comic diver, and Jane Fauntz Manske, noted diver, will be among the performers.

Miss Ruth West and Donald Prince opposing Mrs. Roy Tuchbreiter and John Mercer in a tennis battle for the West trophy will attract a large crowd in the late afternoon. Mrs. Tuchbreiter is on the sports committee, which, with the entertainment committee, is responsible for the gay week-end plans. Some of those on these committees are Mr. and Mrs. Richard Burke, Leonid Remisoff, Mr. Mercer, Ray Johns and his daughter, Miss Rae Johns; Mrs. Charles H. Coffin Jr., Raymond O. Mitchell, and Mrs. William Joyce.

There will be dancing on the porch after the water show is over.

The club will be filled with week-end guests, among them the Chauncey B. Blairs. Some of those who are entertaining at dinner tomorrow are Mr. and Mrs. Charles R. Lindsay III., the Russell Doughertys, the Mitchells, the junior Samuel Insulls, Mr. and Mrs. Kenneth Hess, the Arthur Farwells, James H. Scott, and Mrs. Eugene Lang.

Lake Zurich Players Presenting Chicagoans' Play.

When the curtain falls tonight in the Lake Zurich playhouse on the première of a new play, "These Are My Jewels," two young Chicagoans will be taking their bows as playwrights for the first time. The authors, Mrs. Ruth MacKay and Henry Salisbury Barbour, have woven their story around the theme of the Jewels of the Madonna. Followers of summer stock will have a chance to see the play tomorrow and Sunday nights, too.

Altho the play is their first stage venture, the two collaborators are widely known in the field of writing, Mrs. MacKay for her books and short stories ["Money Without Men" among them] and Mr. Barbour for his radio scripts.

Among the authors' friends who are motoring north for the première are Princess Marina Wolkonsky, who will give a dinner party before the opening performance tonight; the Benjamin Carpenters, Miss Ruth Burrows, Mr. and Mrs. Vsevolod Tellis, Jack Malia, Miss Gail Keith-Jones, Miss Phyllis Peter, and Mrs. Carl T. Dunn, who will go up with Mr. Barbour's parents, Mr. and Mrs. H. S. Barbour. Mrs. Barbour is a mem-

RURAL LONGINGS.

I shall go today
Back home on the farm
Where the red clover field is in bloom.
There the one hoss shay
Standing by the barn
Takes me to hear the honey-bees zoom.

And there in the wild
On a pillow of clover
I shall rest and watch the clouds roll by.
Happy as a child
The homesick rover
Sleeps in the field. Walk softly. Hushaby.

WEDDING

The marriage of Miss Margery Brooks, daughter of Senator and Mrs. Earnest C. Brooks of Holland, Mich., to Robert Evans took place on Aug. 2 in Grace Episcopal church, Holland. Mr. Evans is the son of Franklin B. Evans of Bennett avenue. After a reception in the Brooks home, Mr. Evans and his bride departed for a wedding trip to Washington, D. C., St. Petersburg, Fla., and Cuba. Mr. Evans was graduated in June from the University of Chicago, at which the bride finished her junior year.

The first round of the club golf championship, the class championship and handicap tournaments will be played at the Knollwood club tomorrow. There will be a dinner-dance tomorrow night.

Fresh Eggs.

A bachelor was breakfasting in a restaurant when he saw an inscription on an egg: "Should this meet the eye of some young man who desires to marry a farmer's daughter, age 18, write. . . ."

The bachelor wrote and in a few days received the following note:

"Your letter came too late. I am now married and have four children."

Add Epitaphs.

Anne Snackleford writes that the grave of the mother of Chief Justice Marshall lies in a small graveyard near Maysville, Ky. The epitaph on her gravestone:

She was good, but not great, useful, but not ornamental, and the mother of 13 children.

Hellzapoppin' Jr.

With the closing of Hellzapoppin, guests at the Seneca hotel lost one of their favorite entertainers. Three year old Eddie Garr Jr., or "Snorkey," as he is better known, was a frequent visitor to the Seneca sun deck, where he regaled sun bathers one day by saying over and over to himself: "That's good, that's bad, that's good, that's bad."

"What are you doing?" some one asked.

"Sorting a box of strawberries," replied Snorkey. Hellzapoppin Jr. they call him.

Changing Fashions.

Exactly 50 years ago last Thursday, as Tower Topics points out, THE CHICAGO TRIBUNE printed some fashion notes on tennis costumes:

"Of course, you can play tennis in any kind of a gown with a loose bodice and updraped skirt, but you can play much more picturesquely and agreeably before a grateful world if your gown is an artistic shade of water green cloth, the skirt bordered with a dainty tracery of silk threads with gold, and has a bodice and braces of gold over a skirt of heliotrope foulard flecked with green.

"It is entirely good form for you to poetize the once-admired severity of your tennis gown. Many of the best models, while made in severe 'housemaid' fashion, are supplemented with corselets of many-hued splendid Indian embroidery, edged with gold over silken shirts."

Crowds Throng Park to Hear Marion Claire

BY EDWARD BARRY.

(Picture on back page.)

Marion Claire, the star of W-G-N and Mutual's Chicago Theater of the Air and a soprano of wide experience in opera, operetta, radio, and the movies, drew an enormous audience to Grant park last night when she appeared as soloist with the W-G-N orchestra under the direction of her husband, Henry Weber.

People were everywhere—on the thousands of benches in front of the band shell and on the wide lawns all about. The singer saw to it that they had a wonderful time, for she gave of herself without stint.

In serious music like the "Addio" from Puccini's "La Boheme," she sang with a passion and fervor that could hardly have failed to be infectious. She jumped right into the songs and lived them. Her phrasings and voice colorings seemed to be the direct result of strong feeling rather than the coldly calculated devices one might work out in a studio.

But her best work was done in excerpts from operettas like "The Chocolate Soldier," "Countess Maritza," and "Naughty Marietta." There were a sparkle and verve in her singing that quite carried the audience away. Her voice sparkled and her phrases were full of strength and momentum. Applause came like a thunderclap after the "Italian Street Song" and "My Hero."

Miss Claire herself seemed to be having as good a time as anybody. She smiled and blew kisses at the audience, she commented on the beauty of the full moon, she gave encore after encore. Often she introduced her songs with a word or two that gave a personal touch to the proceedings.

Besides the excerpts from opera and operetta there were several miscellaneous pieces like Woodman's "A Birthday" and Nevin's "The Rosary."

The orchestra was heard in the Strauss tone poem, "Don Juan," Mendelssohn's "Italian" symphony, and a beautiful arrangements of Bach's "Come, Sweet Death" by the orchestra's first cellist, Adolph Hoffman.

Also, there was a first Chicago performance of a Tarantella by the living Hungarian composer, Eugen Zador. It turns out to be a crisply written piece full of rhythmic verve with a languishing, rather Italianate melody for contrast.

THE STAGE

The first play of the fall season will probably be John Golden's production of Rose Franken's comedy, "Claudia." The play is scheduled to open at the Selwyn theater on Monday, Sept. 15. A new company is being assembled for the Chicago engagement, and the opening here will be preceded by tryout performances in Syracuse, N. Y. This will be Mr. Golden's first Chicago offering since his establishment of a producing office here.

Looking at Hollywood
By John Chapman

Hollywood, Cal., Aug. 7.—Title of the year belongs to a song a fellow out here has written: "The Girl with the Popular Front." . . . The Warners are gunning for all the Academy awards possible on "Sergeant York," including one for Director Howard Hawks, even tho he doesn't work for the outfit. . . . Surprise performance of the year is Ingrid Bergman's in "Dr. Jekyll and Mr. Hyde," due in New York next week. . . . Mildred Harris, a Chaplin ex-wife, is doing a bit in a ballroom scene in De Mille's "Reap the Wild Wind"—whose leading woman is Paulette Goddard, the current Chaplin frau. . . . Harold Lloyd has made a deal to produce two pictures a year at RKO. The first will be "My Favorite Spy," centering about a Lloyd-like oaf of a character—and the job may go to Kay Kyser. . . . RKO just about set with a deal for the Ronald Colman-Lewis Milestone-Bill Hawks unit to make two pictures a year.

All this week studio publicity departments have been in a happy daze. The Japanese embargoes gave them an excuse for leg art, so they got out all available starlets and shot pictures of what Hollywood girls are going to do without stockings. Sun tans, painted butterflies on pretty calves, painted strips up the back of the leg to look like seams . . . that sort of thing. . . . Some Hollywood gals aren't really going to do without pretty things right away. One babe, bright on Monday morning, fluttered into a Beverly Hills shop and bought a bale of undies, a dozen $65 corsets, and 12 dozen pairs of stockings.

John Barrymore, who has had some experience with various vigorous and volatile vimmen, tangled yesterday with Lupe Velez, who is one of the best of same. It was, however, all for art. The scene was the stage of "Playmates," in which Barrymore, Kay Kyser, Lupe, Patsy Kelly, and May Robson are an interestingly assorted bunch of comedians. John is a fading Shakespearean ham and Lupe is a lady bullfighter. John's publicity man gets him into a romance with Lupe as a stunt, but Miss Velez takes it seriously. She finally throws a knife at him, tosses him on a couch, hauls him upright by his profile. Lupe did her stuff with customary energy, but John didn't get hurt. Only winded.

In "Playmates" Barrymore is getting delicate handling from Director Dave Butler. He is not the buffoon he has been recently on the air, but is playing himself straight—as a one time great actor. There was, a few days ago, a scene which brought a lump in the throat. John was teaching Kay Kyser how to play Shakespeare. He showed Kay how one should read Hamlet's soliloquy. He read it well, and as he got going before the camera tears came to his eyes, as if just then he couldn't fight back the memory that once he was more than a buffoon.

Ray Bolger the other day completed an interesting take in one shot. Working in "Four Jacks and a Queen" at RKO, he devised a song and dance number that covered two city blocks. As he danced up the street, singing, everything that happens to a pedestrian happened to him. A passing car nearly splashed him, he had to dodge left and right to pass a woman, a drunk bumped into him, a beggar accosted him, and many things more. All had to be done with split-second timing, following a playback of the song score. The number ran 485 feet of film—a lot of film for one shot.

Ann Sothern and Roger Pryor are reported splitting, and Rosalind Russell expects to marry by Sept. 1. . . . William L. ["Berlin Diary"] Shirer has been hired by Erich Pommer to work on "Passage from Bordeaux." Lucille Ball's first big starrer. . . . Simone Simon will make another picture—"The Marines Are Ready"—starring Victor McLaglen, Edmund Lowe, and Tim Holt. She'll play opposite Tim. . . . David O. Selznick's Santa Barbara tryout of Enid Bagnold's new play, "Lottie Dundas," has been set ahead from Aug. 13 to Aug. 14—because Geraldine Fitzgerald, the star, won't open on the 13th.

Edith Mason Soloist Tonight in Grant Park

Edith Mason, one of America's outstanding opera stars, will appear as soloist tonight with the Chicago Opera orchestra in a Grant park concert. Dino Bigalli will conduct and one of the largest crowds that the outdoor musical season has brought out is expected.

Edith Mason.

Among the numbers Miss Mason will sing are "Lia's Air," from "The Prodigal Son," by Debussy; "Il est doux, il est bon," from "Herodiade," by Massenet; and "Mi chiamano Mimi" and "Addio" from "La Bohême," by Puccini.

Besides accompaniments for the star soprano, the orchestra will play Verdi's overture to "The Force of Destiny;" Strauss'-tone poem, "Don Juan;" Svendsen's "Carnival in Paris;" the third and fourth movements from Symphony 2, D major, by Brahms; excerpts from Glazounoff's Scenes de Ballet, opus 52, and American Fantasy, by Herbert.

"A Debt Is Paid"

SYNOPSIS.

Kathleen Murray inherits an income and a home in an actors' colony in California. She goes there to live and falls in love with Hugo Lang, whose play is being produced in the local summer theater. Hugo is also in love with her, but tells her he cannot marry her until he has made enough money for them to live on without having to use Kathleen's. A rich girl, Carol Keyes, is backing his production and insists that she and her current infatuation Maurice Reed, play the lead rôles. Hugo's foster mother, Ellen Mount; Jeanie Payson, daughter of the local hotelkeeper, and Toby Allen, Kathleen's 16 year old protégé, have minor rôles. The theme of the drama is murder, and tho it holds the audience tensely, Kathleen has an uncomfortable presentiment when Wilkie Stokes, another member of the colony, discusses the fascinations of killing. Kathleen feels that Ellen Mount does not like her. Kathleen and Hugo are talking about the mother-in-law and financial obstacles to their marriage when Jeanie comes up and insists that she speak to Hugo alone. They drive off together, and early the next morning Jeanie is found murdered in the woods and Hugo has disappeared. He is found in a secluded cabin and is arrested for murder. Kathleen hires George Cassell, a New York attorney, to defend him. At the trial Hugo refuses to talk, and the prosecution tries to prove Hugo had an affair with Jeanie and killed her because he wanted to marry Kathleen for her money. The verdict is guilty and he is sentenced to life imprisonment. In spite of Cassell telling Kathleen he really thinks Hugo is guilty, Kathleen believes him innocent. Cassell begs her to forget Hugo and marry him, but she refuses, and engages William Greer, a New York detective. The Monday after the murder, Carol and Maurice get married and the show goes on

INSTALMENT XXIII.

CASE REVIEWED.

Kathleen felt that her statement needed explaining to Mr. Greer, so she continued.

"Mr. Jessel loved poor Jeanie in a frustrated sort of way. She was the daughter he would have liked. In Mrs. Payson's words—from her evidence—he never tried to get fresh with her. He had a daughter who died in infancy. You see he's a widower himself."

"His sisters—were they examined?" Greer asked.

"No. They didn't even attend the trial."

"Do they live in the district?"

"Yes. They have a house on the lake shore not far from the hotel. Jeanie and Hugo would have to pass the gate that night."

"Very interesting. Did Jessel bring them here?"

"No. They brought him. He came to stay with them for a summer vacation. He liked the place, but he objected to their old-maidish ways of interfering with him so he moved to the hotel. You know the rest."

"They have a strong motive. They're worth investigating."

"I thought of that, Mr. Greer, because I've thought of everything obvious, but they're out of the question. They're not mean, bitter old women. I don't know them but I've seen them often. They're genial and good-natured and they go out a great deal together. There's nothing sinister about them."

"Doesn't mean a thing. The most unlikely folks commit murder for inheritance and insurance, including likable and good-looking women. They had motive and it looks like they had opportunity. Had Mr. Lang and the girl passed the gate of their house when you last saw them by the lightning's flash?"

"I couldn't be sure. But I think not."

Mr. Greer looked around for an ash tray for the long ash from his cigar. Toby jumped up and found him one.

"Now, Miss Murray, please tell me the events of that night in detail. Dig up everything you can remember."

By constant interruption and shrewd searching questions he arrived at a more complete picture than she and Toby had presented in court. He made no comment on his conclusions.

"Did the police use dogs after they found the body?"

Toby answered this.

"Yes, they did. But the dogs had no chance. The scent was ruined with the rain."

"The cabin in the canyon—who did it belong to?"

Kathleen let Toby continue.

"It came out a man called Higby leased the lot from the trustee of the estate for 10 years. By the materials they traced the building of the cabin to a Los Angeles contractor. He said he built it for a middle-aged man who claimed to be a writer who wanted a place where he could take refuge from the horrors of civilization—the worst of which was his wife. He paid cash, so no one worried where he came from. They didn't trace him to a studio under that name. That was four years ago. He paid for the building and the first year's rent on the ground lease and nobody had seen him since."

"It's inaccessible and hard to find," said Kathleen. "That's what he told the builder he wanted. So it doesn't mean he never went there."

She told him about the stock of canned food and Jeanie's scarf in the bedroom which had been removed when the police found the place because it was not mentioned in evidence altho they produced photographs of her finger prints.

"They said the food was there because Hugo and Jeanie used it for a rendezvous but, of course, that was ridiculous."

"Was the food supply traced?"

"No. It was the kind everybody buys from all the stores. Jeanie could have taken it up there from the stock at the hotel."

"Finger prints?"

"No. Only Hugo's on the ones he'd used."

"The place has something to tell. I must go up there myself."

"Toby will take you," said Kathleen. "He knows a short cut. But I'm afraid it's spoiled for you. It has been so thoroly ransacked by the police."

"We shall see. The local police would look for confirmation of their theories. They would not look for surprises. People who read detective stories think that police unaccustomed to a murder case get a lot of fun. But they don't. Sifting clews and evidence is tedious. They soon tire. Patience and thoroness demand a disciplined type of mind. And the strange behavior of Mr. Lang made this a very obvious case."

William Greer concentrated on making a neat job of extinguishing the butt of his cigar. Kathleen thought surely no one would ever call him Bill, while another part of her mind quivered with fright.

"Don't tell me you think he's guilty."

"I don't think anything. He could be innocent. There have been stranger cases. But it's difficult to believe he doesn't know all about it if he didn't do it. Maybe he's silent under a threat of some sort."

Toby said with excitement—"But what could be worse than taking the rap? Hugo in prison with all those rules and regulations. He must be going nuts. What could be worse than that."

"Torture. A gang can intimidate almost any one. And one can't be guarded every moment of one's life."

Kathleen remembered something with a jerk of her heart.

"Last time I saw him he had a bandage on his wrist. I asked him about it. He said he'd cut himself with a can-opener that slipped. But it would have healed if he'd done anything like that before he was in prison."

"Acid," said Greer matter-of-factly. "Now we're getting somewhere. Any other important facts you've forgotten?"

Kathleen's head began to swim.

"Wilkie Stokes! He would torture. And he would murder. He lives, breathes and thinks murder. It's around him like a cloud you can almost see. Why didn't I think—why did nobody think of him?"

"That's right," agreed Toby. "You should have seen him at the trial. He was eating it."

But Greer was not impressed by their description of Stokes' hobby and personality.

"He's no social ornament, but he's no uncommon phenomenon. What murder there is in him gets out vicariously. Reading those books gets it out of a lot of unhealthy systems. The immediate problem is how to meet these Jessel sisters without rousing their suspicions. Are the cats anything to write home about?"

Kathleen was worn out. "The cats?" she repeated, almost stupidly.

"Sure. People have to coöperate with the police even if they don't tell the truth to them. But they don't have to assist a stranger. I've dug up quite a few family skeletons posing as a feature writer—you know, a special article for a newspaper."

"They're not special cats," said Toby. "Just well-fed tabbies. Not even the oldest cats in captivity."

"Goodness, Toby, do you know everything?"

"No, Kathleen. But I have been going around with my eyes open. O, I know, Mr. Greer. Their house is for sale. A board went up yesterday."

"That's elegant. I'll get an order to view and make friends with them. Did you say they were old maids, Miss Murray?"

"No. One is married. Mrs. Thornley—a widow. She has been left with an annuity. The other has nothing of her own, and lives by living with her."

Greer pounced on this.

"Then she would be stranded if the widow died or otherwise abandoned her?"

"I suppose so. But surely Mr. Jessel would help his sister in such a case." Kathleen's mind was obsessed now with her memory of Wilkie Stokes and his gruesome allusion to the white slenderness of her neck. "Anyhow I think it's preposterous to think of murder in connection with those women."

Mr. Greer did not make the deserved retort that he was employed to do the thinking.

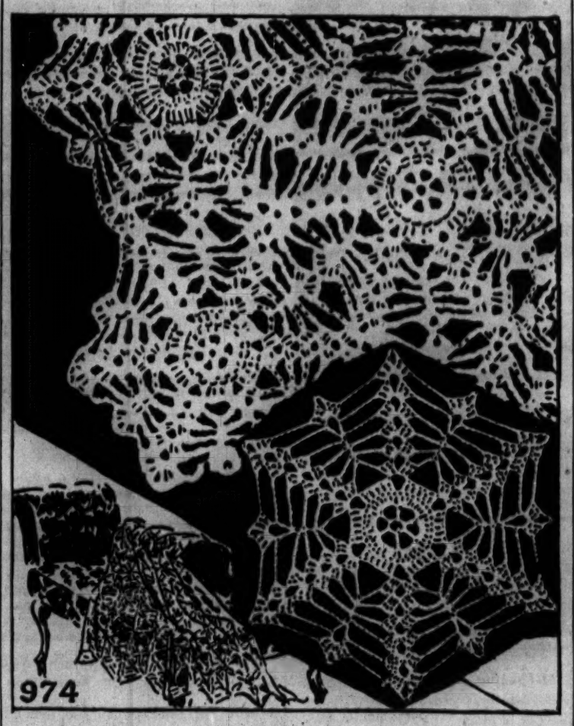
Dual Purpose Medallion



BY ELLEN BRUCE.

Here is a crocheted medallion which serves two purposes. When it is crocheted of Germantown wool, it may be used to create one of the best looking afghans seen to date. When a fine mercerized crochet cotton fashions the medallions, they are set together to create a handsome tablecloth. It is one of the quick tricks in crochet work requiring approximately 15 minutes per motif.

People Quick to Overlook a Wrong Righted

BY DORIS BLAKE.

Copyright: 1941: By News Syndicate Co., Inc.

Dear Miss Blake: "We were engaged for four years. My sweetheart always wanted to get married, but my family obligations prevented it.

"We were foolish once and lost our heads. My family were wonderful and we are to be married next week. One thing troubles me very much. How should my mother tell our friends and relatives? Should she send out engraved invitations? Or pretend we have been secretly married?

"In the group of girls I go with, we tell each other all about our love affairs. They know I quarreled with my fiancé and broke our engagement recently. The news of my marriage will be a surprise to them.—F."

Under the circumstances, engraved invitations would only emphasize the date. It might be easier to invite people to the young couple's new home, stressing the housewarming rather than the wedding. No matter what explanation is given, there is bound to be talk. When people are foolish, they have to take the consequences.

However, since the young couple love each other and are correcting their mistake honorably, they should hold their heads high and ignore gossip. In the end their present and future conduct will have much more importance than their mistake. People forget quickly when a wrong has been made righted.

2,500 Registered at Syrian-Lebanese Convention Here

Twenty-five hundred members of the National Federation of American Syrian and Lebanon clubs registered yesterday for the federation's sixth annual convention in the Stevens hotel.

A three-day program will begin today with discussions on the part citizens of Syrian and Lebanese extraction may play in national defense and the assistance the federation might give to Syrians and Lebanese who have insufficient means for education. Plans for the establishment of a Syrian old peoples' home also will be discussed.

Lake Geneva's Flower Show to Open Today

[Continued from page 13, column 2.]

ber of the Henry H. Salisbury family, pioneer Chicagoans.

Mrs. Robert Hixon Goes East to Join Her Family.

Mrs. Robert Hixon departed Tuesday to join her husband and their daughters, Miss Barbara and Joan, at their Vermont farm. The family will be away until after Labor day.

Mr. and Mrs. Keith Carpenter and their debutante daughter, Ann, are now occupying the island the Carpenters and the junior William Burrys own jointly at Desbarats, Ont. Debutante Bessie Cowles is visiting the Carpenters.

William R. Odell Jr. flew to Lac du Flambeau, Wis., last Friday to settle his family there for the remaindor of the summer. He will return this week and will be with the senior Mr. and Mrs. Odell in Lake Forest, with occasional visits to Wisconsin.

Mrs. Byron S. Harvey is at the Walter P. Paepckes' ranch in Colorado, where she will remain until next week. Mr. Harvey arrived at home last Saturday after a holiday in the west.

The G. Corson Ellis family returned from its Desbarats home last Friday and Mr. and Mrs. Hermon D. Smith's children have gone up to the house. Mr. and Mrs. Smith will go later. Mrs. Smith's and Mrs. Ellis' parents, the Robert J. Thornes, who were in the Ellis house, depart this week-end for Charlevoix, Mich.

Lyle Harpers and Son on Way Home from Cape Cod

The Lyle Harpers and their son Peter are on their way home from a two weeks' holiday at West Falmouth, on Cape Cod, coming by way of the Thousand Islands and Toronto, with a stopover in Vermont with the Kurt Graffs. Peter has been taking sailing lessons on the cape while his father indulged in deep sea fishing. Lyle Harper Jr., who has been holding down a summer job in Chicago, will go to a dude ranch in the Black Hills in September before returning to the University of Chicago for his senior year. He has been called by the draft board, however, so these plans may be changed.

Charles Edward Brown returned from a holiday with his wife and son, Townie, on Long Island, just as the heat wave started. He will go back east Aug. 15 for another visit. Mrs. Brown will remain on Long Island until October.

ENGAGEMENT

Mr. and Mrs. Sven A. Lillroth of South Carpenter street announce the engagement of their daughter, Helen Jane, to Robert D. Brodt, son of the Rev. Mr. and Mrs. Herbert J. Brodt of West 78th street. Mr. Brodt is a graduate of the University of Illinois and of the Chicago Theological seminary. The wedding is planned for Thanksgiving day.

Sally's 100 Guests Have Day of Thrills at Circus Party

BY SALLY JOY BROWN.

(Picture on back page.)

[Activities of the Sally Joy Brown department are sponsored by Chicago Tribune Charities, Inc.]

Like the Pied Piper of old, Felix the clown led a long line of wide eyed children thru the gay, milling crowd and into the big top. The enchanted youngsters were 100 boys and girls who were guests at my party at Ringling Brothers and Barnum & Bailey circus yesterday afternoon, and from the moment we stepped onto the red, white, and blue sawdust, they were oo-ing and aah-ing and craning their necks.

There were so many things to see that we hardly knew which of the three big rings to watch. One little girl was intrigued with the "zeros" [zebras]; the boys seemed fascinated by the animal trainers and the riding, and everybody loved the aerialists. We all waved to Old King Cole and Mother Goose and saw Jack and Jill, little Miss Muffett, and many other folk who seemed to have jumped right out of the story books.

There were a hundred clowns to make us laugh, beautiful costumes, skilled performers, gay music, and lots and lots of good things to eat.

After her first close look at an elephant, one young miss said: "They're not very pretty, are they?" and solemnly decided that a cow was prettier. Many of these youngsters had never seen a circus before, and their reactions were varied — but there's not a bit of doubt that every single one enjoyed every minute of it!

Numerology By Evelyn Holmes

Aug. 8, 1941.

Universal day—This is a powerful day, but destructive if great wisdom is not used.

How to use your chart—If you happen to have a rather limiting year, such as a four-year, then you can't expect to go as far afield in your free months and days as suggested in your chart. In a four-year, in a four-month, or a four-day, you can't jump over the traces and do exactly as you like. Circumstances may be stronger than you are while the number four is working.

Would you like to know what kind of a year 1941 will be for you? Send for your personal yearly, monthly, and daily guide.

Survey of Girls' Jobs Shows High School Education Needed

Forty women executives in the insurance field discussed a survey of jobs for girls and the requirements demanded by each job in their field at a luncheon meeting yesterday in the Merchants and Manufacturers club, under the auspices of the Women's Executive committee.

The survey disclosed 91 kinds of jobs held by women in the fields of casualty and surety, fire and marine, and life insurance. All jobs, excepting those of experienced cooks and waitresses in the casualty and surety field, required at least a high school education.

Plans were completed for a job clinic for girls on Sept. 11 when the insurance job survey will be completed for distribution among schools, colleges, libraries, and parent groups or organizations as well as among the girls. The clinic, which will include individual counseling, is free to any girl who is interested.

Music Festival Victors Picked on South Side

James W. McEnery, baritone soloist at the University of Chicago chapel, last night achieved the ambition of five years. Before a large crowd in the Shoreland hotel, 5454 South Shore drive, he won first place in the baritone division of the south side vocal finals for the Chicagoland Music Festival to be held the night of Aug. 16 in Soldiers' field. McEnery is 27 years old and lives at 9224 South Aberdeen street.

Second place among the baritones was taken by Arthur A. Hinz, 26, 2878 Archer avenue, and Allan McClure, 29, 826 South Wabash avenue, was third.

First in the lyric tenor competition was George McHardy, 19, 6356 South Laflin street. He works in the steel mills. Hobart Streiford, 4746 Woodlawn avenue, was runner-up, and Robert Mack, 24, 5343 Dorchester avenue, placed third.

The dramatic tenor contest brought victory to William Henry Modster, 30, colored, of 3763 South Wabash avenue, a member of the University of Chicago choir. Albert Stanley, 26, also colored, of 6158 St. Lawrence avenue, was second, and J. Frederick Rudin, 37, 9315 South Winchester avenue, was third.

Winifred Heckman, 17, of 7818 Crandon avenue, whose mind is set on an operatic career, was adjudged the leading contralto. Her father writes lyrics and her mother is a piano teacher. Jeanne Todd, 28, 2125 West 54th place, was second in this division, and Ruth Reese, 29, colored, 5158 South Park avenue, was third.

Judges in the contests were Elaine de Sellem, Naomi Cook, and Milton Edwards. Miss Helen Rauh was the accompanist and Mrs. Edmund J. Tyler was in charge of the competition. The south side finals for sopranos, mezzos, and bassos will be held tonight at the Shoreland. Many of the entrants will also participate in the Greater South Side festival in Jackson park tonight.

CUBS LOSE IN 9TH, 4-3; SOX ROUT BROWNS, 11-1

HAIL CALUMET! IT'S AN AREA OF FOOTBALL STARS

3 from Same County in Starting 11.

BY WILFRID SMITH.

Lake county, Indiana, is the capital of collegiate football. In evidence, the names of the members of eight All-Star teams can be submitted. More important, three of the 1941 All-American eleven, chosen in the recent poll by 9,514,753 electors, are Lake county products. They will start against the Chicago Bears, professional champions, in Soldiers' field the night of Aug. 28.

Tom Harmon of Michigan and Tommy O'Boyle of Tulane were team mates in 1936 on the Horace Mann High school eleven in Gary, Ind. On Aug. 28 O'Boyle will be at guard, attempting to open holes in the Bears' line for Harmon. And at end, ready to catch a pass by Harmon, will be Eddie Rucinski, from Lake county's Roosevelt High school in East Chicago. Rucinski starred at Indiana university.

A Story of Athletic Success.

This does not exhaust the current list of great football players from the Calumet region. Emil Uremovich, an Indiana tackle whose bulk assures more than adequate defense, comes from Hobart, Ind., eastern outpost of Lake county. Then there's Joe Lokanc, Northwestern guard, another All-Star squad member, who played at Roosevelt High school in East Chicago with Rucinski.

Obviously Lake county bulks as large in interscholastic sports as it does geographically. The county is the largest of Indiana's 92. Gary long has been noted for splendid athletic teams. More than a score of years ago Gary's two high schools, as of that date, dominated interscholastic competition in northern Indiana with infrequent challenge from South Bend.

The athletic renaissance soon spread from Gary to East Chicago, which includes Indiana Harbor and Washington High school, to Hammond and Whiting. From Lowell, Ind., most southern Lake county town, came Corby Davis to share in 1938 in the victory of the All-Stars over the Washington Redskins.

Three on 1940 Squad.

The nation's football fans elected Hal Method and Nick Cutlich of East Chicago and Mike Kopcha of Whiting last year. Kopcha, whose brother, Joe, was an all-professional guard for several years with the Bears, played center at Chattanooga, Tenn., university. Joe also graduated from that school. Cutlich and Method played for Northwestern.

In 1939 Vin Oliver of Whiting, Bob Haak of Hammond, and Joe Mihal of Gary were All-Stars. Haak was an Indiana university, tackle and Mihal played the same position at Purdue. Both were elected to the starting lineup in 1939. Frank Patrick, who went from East Chicago to play regularly at full back for three years on the University of Pittsburgh elevens, was a starting member of the 1938 All-Stars.

Lou Zarza of East Chicago, now an assistant coach at the University of Arizona, and Notre Dame's Don Elser were members of the 1936 All-Star team. Zarza graduated from Michigan State. Elser, one of Lake county's finest all-around athletes, attended high school in Gary before going to Notre Dame. Tom Hupke, University of Alabama guard from Whiting, and Nick Lukats, another Gary youngster who played for Notre Dame, were members of the first All-Star squad in 1934 that held the Bears to a scoreless tie.

A Testimony to O'Boyle.

Harmon, of course, needs no introduction to the nation's football fans. Neither does O'Boyle, who probably established some kind of a record when he was elected president of the student body and captain of the football team at Tulane. For a lad from the north there can be no greater testimonial from a southern university.

Rucinski shares in the encomium from his coach, Bo McMillin, who said of him and Archie Harris, "Indiana has the best ends in the country." Rucinski played right end for the Hoosiers and in two years as a regular his completed passes averaged 9.9 yards per attempt.

BY EDWARD BURNS.

[Chicago Tribune Press Service.]

St. Louis, Mo., Aug. 7.—Buck Ross, who had pitched brilliantly as a member of the White Sox, only to be rewarded time and again with skimpy batting support and disheartening defeats, tonight got the kind of bat backing he's been praying for as he and his mates handed the Browns an 11 to 1 drubbing. Buck had a shutout in hand until Walter Judnich, first up in the ninth, banged a homer, sixth St. Louis hit of the evening. Johnny Berardino brought the total to seven with two out in the inning.

The Sox made 17 hits off three Brownie pitchers—this total on top of 18 in the final in Washington Sunday, and totals of 15 and 11 in yesterday's double header, a grand aggregate of 61 hits for four successive games. Even with allowances for the Washington and St. Louis pitching, 61 hits are a lot of hits especially since all kinds of pitching had been stopping the Sox all season.

Buck's a Slugger, Too.

Ross himself knocked three hits in a row and might have had an in the park homer on one if he'd have cared to exert himself needlessly. Taft Wright, the Sox's only .300 hitter, bashed four hits in a row, after whiffing his first time up and became so nauseated from running he had to be replaced in right field by Ben Chapman. Joe Kuhel, who went on a batting spree yesterday, continued his slugging with his 11th homer, a double, and a single, and Don Kolloway, who reached the .200 mark yesterday, carried on with a triple and a pair of singles.

For five long shutout innings, it appeared the Sox, after three straight slugging outbreaks, had receded to further torture the scholarly looking Buck, winner of one game, and loser of five decisions prior to tonight. He had yielded only two singles and a double, his mates had accounted for only three hits off Denny Galehouse, all singles, and no two in the same inning.

Then Came the Deluge.

Then came the sixth. Kolloway opened with a single and promptly scored on a double by Kuhel. With one out Wright singled, Appling filed to Joe Grace, scoring Kuhel, and Myril Hoag was given an intentional pass. Bob Kennedy's hit scored Wright. Mike Tresh was given an intentional pass, then Ross singled to right, scoring Hoag.

The Sox came back with two useless runs in the seventh, three more in the eighth, and two in the ninth. Kuhel's home run, a shot to the right field roof, set off the seventh inning blast.

FOUR National league pitchers still active each had a season in which he led the circuit both in won-lost percentages and earned run averages. . . . A Lad and His Dad.

I used to pat him on the head
And give him sound advice,
And tell him not to do a thing,
But never told him twice.

I used to take him by the hand
And lead him all the way,
But he was small and learning then,
And that was yesterday.

I never dreamed that all so soon
He'd tall and grown-up be—
But so he is, and now with pride
The lad is leading me.

Twenty Miles of Longing.

It's 20 miles of rocky road from Serra to the sea,
But every day my roving heart goes down upon the shore,
For there the truant tide comes in that took his arms from me
And left my blue eyes misty and my Irish bosom sore.

It's 20 miles to seaside, but the whole round world ends there,
For it was there he kissed me on the night we said good-by,
And every day I follow him across the world in prayer,
And every night the sobbing surge brings back a sad reply.

There isn't much in Serra since the night he went away,
The heather seems so lonesome-like, the hawthorn doesn't smile,
And I am growing footsore and my hair is turning gray,
And yet my heart goes after him, mile after weary mile.

And should he come to Serra when the woods are all abloom
When I have crossed the distant hills to meet another dawn,
I wonder would he kneel to say a prayer above my tomb
And feel a sinking in his soul to know that I was gone?

It's 20 miles of longing down from Serra to the sea,
It's 20 miles of heartache to the ocean's misty rim,
Yet something in the tumult of the tide is calling me,
And thru the somber shadows I am stealing after him.—T. E. B.

TWO OUT IN 9TH, PIRATE HOMER BEATS CUBS, 4-3

Al Lopez's Drive Accounts for Sixth Straight.

BY IRVING VAUGHAN.

The Cubs, now removed from seventh place by about the width of a whisker, fashioned 10 hits yesterday, but beyond that there is nothing of a startling nature to report. The torrid Pirates couldn't pile up any more than seven and compiled four errors, but, nevertheless, revealed enough stamina to glide to their sixth straight triumph, 4 to 3. It was their 18th victory in 21 games and the seventh jolt in eight battles for Jim Wilson's ensemble.

Messrs. Al Lopez and Arky Vaughan elected themselves trouble makers in a struggle that would have remained in Jake Mooty's bag if the Pirates hadn't refused to fret over a three run affair which knocked Ken Heintzelman into the discard in the second inning. Franky Frisch's boys took after Mooty in the fourth and tied it in the fifth, Vaughan doubling in each case. That tie remained until the ninth, when with two out Señor Lopez arched his fourth 1941 homer into the left field passageway.

Leiber Crashes No. 7.

One reason for the early departure of Heintzelman was Hank Leiber, restored to the starting lineup for the first time since he was beaned by Cliff Melton of the Giants on June 23. Hank indicated his recovery was completed by belting his seventh homer out of the park in the second inning, some subsequent wallops with the aid of two miscues enabling the Cubs to do all their day's scoring inside of a few minutes. Thereafter they were simply wasting their time. Lloyd [Dutch] Dietz didn't object to yielding a hit here or there, but whenever a mild threat developed he snuffed it out in a hurry.

The Cubs weren't able to do anything about two men on bases with none out in the first inning, but when Leiber opened the second with his homer over the left field wall some of his pals decided to prolong the fun. Dallessandro singled to right and Sturgeon singled to left. Van Robays not only booted the latter hit, but heaved the ball into the Cub dugout, the two blunders letting one runner score and putting the other on third. After Mooty had fanned, Hack singled Sturgeon across the plate, and this was where Dietz came into the party.

Pirates Start Slowly.

The Pirates warmed up slowly, getting only one hit in three innings, but they added two to their skimpy total in the fourth, scoring once. This happened when Vaughan doubled to left and Fletcher singled to center. The next outbreak began when Martin led off in the fifth with a scratch hit which Stringer threw into the visitors' dugout. Lopez singled to center and Martin counted. Later in the inning Vaughan ripped off his second double, this one a clout to right, Lopez carrying in the tying run.

Reach Semi-Finals in Junior Tennis Meet

Budge Patty of Los Angeles, Cal. (left), who yesterday eliminated Gardner Larned of Chicago, the favorite, advanced to the semi-finals of the National Junior tennis tournament at Culver academy as did Jimmy Evert of Chicago (right). Evert defeated Harry Likas of San Francisco, and meets Victor Seixas of Philadelphia today. Patty faces Bill Vogt of Philadelphia. [TRIBUNE Photos.]

Larned Loses in Junior Tennis Upset; Evert Gains Semi-Final

BY WILLIAM FAY.

[Chicago Tribune Press Service.]

Culver, Ind., Aug. 7.—Jimmy Evert of Chicago moved into the semi-finals of the National Junior tennis tournament at Culver Military academy today and Gardner Larned, another Chicago youngster who was seeded No. 1 and was the heavy favorite to win the tournament, didn't.

Evert eliminated sixth seeded Harry Likas of San Francisco, 7-5, 6-4. Larned lost to Larned, altho the scoreboard carries it as an 0-6, 7-5, 7-5 victory for fifth seeded Budge Patty of Los Angeles.

It was this way: Larned romped thru the first set. Patty could do nothing with the hard hit forehand drives that splattered his baselines. Larned went to 3-0 in the second set—a run of nine straight games. Still no threatening moves from Patty.

Patty Squares Match.

Larned then decided that he was devoting too much time to his opponent and not enough to the umpire and linesmen who had made several doubtful decisions. He lectured the umpire on how to yell "out" on balls pitching beyond the lines. While class was in session Patty squared the match at 3-3.

Larned then went back to work. He forced the net to lead 5-4, 4-0, on Patty's service. Had Larned won any of the following three points the match would have been his.

But he chose to entertain the crowd. "It's a steal," he admitted to the spectators as he sauntered back to receive service on what should have been the final point. Larned evidently was referring to the fact that Patty had just missed two easy volleys.

Larned Drops Three Straight Points.

While the crowd was laughing at this one, Larned dropped three straight points. Patty won his service and ran two games to take the second set.

Larned had lost the match. From there on in Patty won it. He chopped deep to Larned's backhand and stormed the net. His volleys began to find too many corners for Larned.

Patty got a break at 5-5. His volley hit the net tape and fell into Larned's court for the game-winning point.

Larned picked up the offending ball. Wham! He drove it high over the trees behind the court and into Lake Maxinkuckee some 40 yards beyond. What was left of Larned's temper also took flight at this time and Patty had no trouble winning the final game.

Getting back to the more pleasant subject of Evert, Jimmy, who is seeded No. 3, will face Victor Seixas of Philadelphia, seeded No. 2, tomorrow. The other semi-final will send Patty against fourth seeded Bill Vogt, another Philadelphian.

Seixas moved up today by beating eighth seeded Bob Smidl of River Forest, Ill., 6-4, 6-3. Vogt outsteadied Harry Buttimer of San Francisco, seeded No. 12, 6-1, 3-6, 6-1.

Despite his lower ranking, Evert can look back to his victory over Seixas in the semi-finals of the National Junior indoor tournament last winter for comfort in tomorrow's match.

Bob Falkenburg Advances.

The national boys' tournament also reached the semi-final stage. Bob Falkenburg, the defending champion from Hollywood, Cal., advanced by whipping Sam Hankel of Philadelphia, 6-0, 6-0. Falkenburg has not lost a game, much less a set, in his four matches to date.

A subdued Larned came back in the doubles with Bobby Jake of Milwaukee to reach one semi-final by beating Tom Falkenburg of Hollywood, Cal., and James Brink of Seattle, Wash., 7-5, 7-5.

Larned did not give out with any more outbursts. He was hitting the ball with the power and precision which stamp him as potentially the greatest player to enter a National Junior tournament in the last decade. Even the Californians who rooted Patty home to his upset victory admit that.

Evert and Smidl also gained the semi-finals. They whipped Patty and Arnold Saul of Los Angeles, 6-3, 6-8, 6-3.

CARDS REGAIN LEAD; DEFEAT REDS IN 11TH, 3-2

Cincinnati, O., Aug. 7 (AP).—The St. Louis Cardinals regained the National league lead today by breaking loose in the 11th inning to whip the Cincinnati Reds and Bucky Walters, 3 to 2, while Brooklyn was idle.

The Reds came within an ace of snatching the game back in their half, scoring one run on Jimmy Gleeson's pinch single, which drove in Dick West, but, with the tying run on third and the winning run on first, Eddie Joost fouled out to Gus Mancuso.

Mize opened the 11th with a single and Enos Slaughter sent him to third with a double. Brown went out on an infield play, but Estel Crabtree, batting for Martin Marion, singled Mize in. Mike McCormick's perfect throw cut down Slaughter on his attempt to score. Cooper then singled home Crabtree with the winning run. Score:

SMACKED, 3 TO 5, FAVORITE, PROVES ODDS ARE RIGHT

Takes Washington Park Sprint by 2 Lengths.

BY HOWARD BARRY.

Smacked, the sprinter which showed such well sustained speed in running second to Talked About in last Saturday's Chicago handicap, went to the post at 3 to 5 odds in a six furlong dash which headed yesterday's program at Washington Park. Then he justified the confidence of his backers by taking the lead at the start and holding it all the way to win by two lengths. Three Percent, a 19 to 1 shot, was second and Jack Twink third.

Smacked, which is owned by the Arcturus stable, has been one of the most consistent sprinters of the season, having been out of the money only twice in 13 starts. Jockey Jack Richard had nothing at all to worry about while aboard him yesterday, for he needed only one brisk bit of rousing at the head of the stretch to go right on in full command.

Timed in 1:11 for Sprint.

He covered the six furlongs in 1:11. His mutuel pay-off was $3.40, $2.80, and $2.40 across the board.

Putitthere, owned by J. D. Weil and trained by Mose Lowenstein, upset numerous calculations by beating a field of good juveniles at odds of 15 to 1. In performing this feat, Putitthere came within a fifth of a second of the track record, his time for the five and a half furlongs being 1:05 1/5. While the fans were backing Kerwin down to the position of 2 to 1 favorite, with Burgoo Dinner at 5 to 2 and At Liberty, 3 to 1, they were paying little attention to the Well entry of Putitthere and his stablemate, Gem W.

Putitthere Wins by Head.

As they went over the finish line, however, Putitthere was leading Kerwin by the margin of a head, these two being five lengths in advance of the third horse, At Liberty. Burgoo Dinner finished fourth after racing in a contending position and then tiring in the last eighth.

Putitthere had won once previously in four starts. That was in a maiden race at Lincoln Fields. In his other three efforts he was unable to come within 14 lengths of the winner. After his good effort yesterday he paid off at $32.20, $9.80, and $4.60.

Putitthere led from start to finish, withstanding a steady challenge by Kerwin. Jockey Jack Richard rushed him into a length advantage in the backstretch and then took a hold of him on the turn. In the stretch he began drawing out to a good lead, then weakened in the closing stages and barely lasted.

Bears Sell Bausch to Philadelphia Eagles

Frank [Pete] Bausch will spend his eighth season in professional football with the Philadelphia Eagles. The 33 year old Chicago Bears' center yesterday was sold to the eastern club and will report today at its training camp in Two Rivers, Wis.

NEW LAWS AID WILD GEESE NEAR HORSESHOE LAKE

Blinds Must Be Built 75 Yards from Preserve.

BY BOB BECKER.

Several slight changes in the Illinois game code will be in force during the coming hunting season. The code is now being printed, according to Livingston Osborne, director of conservation, and soon will be ready for distribution.

The most important change in the regulations affects the wild goose hunting country around Horse Shoe lake near Cairo. This year the day shooting places will have to relocate their blinds or pits because under the new regulation no blind may be closer than 75 yards to the Horse Shoe lake preserve. And no owner of a day shooting place may build a blind any closer than 75 yards from his boundary. Another new regulation stipulates that the goose blinds have to be at least 150 yards apart.

Designed to Avert Trouble.

These changes are designed to remedy a situation that has caused no little worry for the United States Fish and Wildlife Service and the Illinois department of conservation, according to a chat we had recently with Mr. Osborne. When 17,000 geese were killed around Horse Shoe lake in 1939 and 13,000 more taken last fall, conservation officials realized that something had to be done to straighten out the situation or goose hunters might find that southern Illinois would offer no more wild goose shooting due to action by the government.

By pushing the blinds back from boundaries officials believe that the problem of cripples is going to be at least partly solved, because now any birds which pitch over the trees from the lake and start to decoy will not be shot at until they are a fairly good distance from the lake.

Will Cut Down Flying.

The department of conservation says that it has purchased land on the east side of Horse Shoe lake for the geese and here both food and gravel will be served to the birds—a policy that doubtless will cut down the flying of the goose flocks this fall.

Another slight change in the code gives some duck hunters a better break on blinds. The new regulations say that one may use a floating duck blind if it is anchored and the restriction against building blinds beyond fringes of natural vegetation is out.

Mrs. Dansingburg's 321 Wins Women's Western Derby Title

BY CHARLES BARTLETT.

Eight year old Janet Dansingburg of St. Paul, Minn., and her 6 year old brother, Dick, this morning will celebrate one of the happiest homecomings of the golfing year. They'll be down at the station to greet their mother, Mrs. Hayes Dansingburg, with her latest golfing gift to them—the 13th annual Derby trophy of the Women's Western Golf association, won at the Medinah Country club.

The pleasant Minnesota matron, who makes only one trip a year out of her home state, yesterday successfully climaxed her 1941 excursion by winning the WWGA Derby with a 72 hole score of 321, 13 over par and 5 comfortable strokes in front of the field. To her first three rounds of 76, 81, and 80, she added a finishing 18 of 84, her highest effort of the four days, but still commendable in view that the natural pressure resulting from having led the race from start began to tell on her.

Wins Eighth Minnesota Title.

Golfing victories in the Dansingburg manse have come fast these last few days. Only last Saturday Ma Dansingburg brought off her eighth Minnesota championship with a 1 up victory that included medal rounds of 74 and 78.

Five strokes back of the winner was young Mary Agnes Wall, trans-Mississippi runner-up this season, who again demonstrated that she is a definite national threat. Mary Agnes, who was 10 strokes back of Mrs. Dansingburg at the end of 54 holes, picked up four of those on the front nine yesterday morning with a handsome 36, one under par. Miss Wall then came to grief with a tree off the 10th tee that eventually cost her a seven, a figure she was to duplicate on the long 18th. In spite of these, she finished with a fine 79, best round of the day.

Two Tie for Third.

Tied for third place were Eleanor Dudley of Ridge and Phyllis Otto, the Atlantic, Ia., girl who registers from Omaha, Neb. Each had 329, Miss Dudley gaining hers with an 81, while Miss Otto, who was the new champion's playing partner for the final round, matched Mrs. Dansingburg's 84. Virginia Ingram of Sunset Ridge, Chicago district champion, also had 84 for a 332, one shot better than the defending champion, Mrs. Frank Newell of Long Beach, Cal.

Frances Ann McCanna of Rockford won the first flight championship by one stroke with a 72 hole total of 363.

Final scores for 72 holes, the first three rounds in the aggregate and yesterday's 18 added, follow:

FELLER WALKS 11, FANS 13; TIGERS WIN IN 13TH, 4-3

Cleveland, O., Aug. 7 (AP).—The Tigers whipped Bob Feller today, 4 to 3, but it took them 13 innings and 3 hours and 40 minutes. Singles by Barney McCosky, Mike Higgins, and Bruce Campbell accounted for the deciding run. Feller walked 11.

Soup Campbell's pinch hit homer scored two other pinch hitters, Larry Rosenthal and Hal Trosky, ahead of him in the ninth to tie the score.

RIGGS, PARKER ARE BEATEN IN GRASS COURTS

Rye, N. Y., Aug. 7 [Special].—Bobby Riggs of Clinton, S. C., and Frankie Parker of Altadena, Cal., two of the outstanding title threats, were blasted from the Eastern Grass Courts tournament today in a pair of quarter-final matches. Wayne Sabin of Reno, Nev., beat Riggs, 8-6, 6-3, and Bryan Grant of Atlanta, Ga., surprised Parker, 6-4, 6-2.

W-G-N All-Stars Give Their All for Charity, but Lose, 13-9

BY EDWARD PRELL.

The most amazing thing about it was that it went nine innings—well, eight and a half. That's because the W-G-N Retrievers didn't have to bat in their half of the ninth. When the W-G-N All-Stars had given their last ounce of energy, of fire, and of the old college try they were still four runs short and the Retrievers had a 13 to 9 victory.

It was the charity softball game between the radio rivals and 2,347 filled every seat in Spencer Coals field last night, overflowing onto the field. Proceeds will go to the Tribune Free Ice and Camp Algonquin funds.

Suffers Sprained Ankle.

There were many heroic figures and only one casualty. It served Announcer Guy Savage right for trying to race all the way from first to third on a passed ball. He reached his objective, but was carried off the field with a sprained right ankle.

Several innovations which may revolutionize the game of softball were tried on the awe stricken public. Most ingenious was the market basket which Bud Vandover used in right field to flag down the drives. He also had his own personal chauffeur who conveyed him to and from his patrol area between innings in a wheelbarrow.

Anson Holds 'Em to 10 Runs.

Bill Anson pitched the first three innings for the All-Stars and held the Retrievers to 14 hits and 10 runs. When it appeared his successor, Andy Frain, was too tough for the opponents, Anson gladly did an encore and took some more punishment.

In the fifth inning, in true Jim Dykesque fashion, the All-Stars charged Umpire Wilcox behind the plate, but no heated words were exchanged since they didn't know what they were arguing about. All this the crowd enjoyed, and there was just enough softball in evidence to balance all the gay doings. Some of the All-Stars confessed they hadn't had a bat in their hands since the beginning of radio.

Even so, the losers took delight in clubbing the offerings of Bob Elson, the Retrievers' pitcher. They walloped him for 14 hits and he was guilty of three errors, leading all players in this department. Score:

All Stars	1	1	0	0	3	0	3	0	0	9
Retrievers	3	2	5	0	0	1	0	2	0	13

All Stars	14	3								
Retrievers	25	5

LEFT HANDERS PLAY TODAY IN STATE GOLF MEET

The fourth annual Illinois left handers' golf tournament, conducted by the Chicago District Golf association, will be held today at the Edgewood Valley Country club. The event is a 36 hole medal play competition. Sam Alpert, of Idlewild, winner of the southpaw title each of the three years since the tourney was begun, will defend the championship.

YANKEE TAKES OPENING RACE FOR LIPTON CUP

Yankee, Ed Schnabel Sr.'s R class sloop, won the opening race of the Chicago Yacht club's annual open series for the Sir Thomas Lipton cup yesterday off Belmont harbor. The winner covered the 12 mile triangular course in 1 hour 58 minutes and 38 seconds. Alert IV., Dr. T. J. Morris' entry, was second in 2:01:06, and the Driscoll-Swift-Roe syndicate's sloop, Calypso, third in 2:01:51. Ten sloops competed. Gossoon II., the Vall-Morton syndicate's defender of the Lipton prize, placed fifth.

Aquila, Hubert C. Ellis' defender of the Sir John Nutting cup, won the first race in the S class series for the cup by defeating four other sloops. Aquila's elapsed time was 2:25:48. Romany, Walter Heinemann's entry, was second in 2:28:03, and Clyde Heichel's Falcon was third in 2:38:05.

Friendship Wins Gehrman Race.

The first Gehrman trophy race, held on the Chicago Yacht club's 8 mile course, was won by George Daiseg and Joseph Richter's Friendship. Hexa, Gordon Brummel's yacht, was second in 1:42:48, and Sam Clarke's Svek third in 1:42:53. Three other Tumlaren class sloops raced.

Martin Cassell won the first race for a special 110 class prize in his sloop Petrel, covering the 8 miles in 1:32:27. David Chapman in his Danio was second in 1:37:20, followed by Ed Goelz in Omar, timed at 1:43:06. The Lipton, Nutting, Gehrman, and 110 class championship races will be continued today and will end tomorrow afternoon.

Bubbling Over Wins.

Bubbling Over, Bert Williams' and Dr. Stanley Fahlstrom's Star class racer, defeated Loch Lomond on the last leg of the fourth race of the Great Lakes Star class series, sailed off Grant park harbor yesterday. Bubbling Over won the 10 mile race in 2:08:13 and took a lead of 28 to 27 points over Loch Lomond, winner of the second and third races. Loch Lomond finished a close second yesterday in 2:09:06 under guidance of Skipper Ed Schnabel Jr. and Robert Cameron, the sloop's owner. Gemini, Commodore John T. Pirie II.'s Sheridan Shore Yacht club flagship, was third in 2:09:44. The series ends with a final race today at 3 p. m.

AUGUR'S 75 WINS GROSS HONORS IN FLOSSMOOR GOLF

Bill Augur yesterday won low gross in the annual Flossmoor men's day golf tournament at the Cherry Hills Golf club by turning in a 75. Bruce Heard, Flossmoor professional, and Chuck Tanis, Olympia Fields, won guest prizes. Heard shot a 69 and Tanis toured the course in 78. Three tied for first low net prize. They were Bill Huggett, Jim Snyder, and Herb Graffis. Huggett had a card of 87—22—65; Snyder, 89—24—65 and Graffis, 83—18—65. Other low net scores: Bill Augur, 73—6—69; James Greenberg, 78—8—70, and Art Semones, 79—8—71.

Westward Ho, leader in the West District Golf league, picked up another victory yesterday, defeating Brookwood, 14 to 13, at the Hinsdale Golf club. Other results: Medinah beat Riverside, 14 to 13; Elmhurst beat Glen Oak, 15 to 12, and Hinsdale beat Oak Park, 27 to 0.

DOCTORS WAGING BATTLE TO HALT SLEEP SICKNESS

Mosquitoes Suspected as Carriers of Disease.

Fargo, N. D., Aug. 7 (AP).—A baffling malady, possibly mosquito-borne, has a special medical corps headed by federal doctors working night and day in the northwest in an attempt to stop spread of the disease which has killed some 60 persons in little more than a month. There is evidence that the disease is transmitted from horses to humans.

Dr. James P. Leake.

Doctors call the infection encephalitis. The layman knows it better as sleeping sickness. Just where it comes from, just what causes it, and how to stop it is the grave problem confronting medical scientists gathered here under leadership of Dr. James P. Leake of Washington, medical director of the United States public health service.

Three States Affected.

The outbreak apparently started somewhere in this area a few weeks ago. Since then it has spread, touching many parts of the state and scattered sections of South Dakota and Minnesota. The latest death count is 37 in North Dakota, 19 in Minnesota, and 3 in South Dakota.

Engaging in the effort to track down the disease is the government's Rocky mountain laboratory at Hamilton, Mont., where the famous research that developed a preventive for spotted fever was done.

Persons who contract encephalitis develop symptoms which are irregular and add to the doctor's problem of diagnosis. After showing a high fever and complaining of headaches, they apparently suffer infection in the brain that induces lethargy, or sleeping or violent excitement. Because different parts of the brain are attacked, symptoms vary and make diagnosis more difficult, says Dr. Orianna McDaniel, Minnesota director of preventable diseases.

Report Plague Among Animals.

Washington, D. C., Aug. 7 (AP).—Bubonic plague among animals was reported today in Colorado and North Dakota. The United States public health service declared that ground squirrels harboring the disease had been found in western Colorado and in northwestern North Dakota near Crosby. Both reports were the first to be received from those states.

3 HURT AS AUTO, TAXI, STREET CAR, AND TRUCK CRASH

Three persons were injured yesterday in an accident involving a taxicab, a truck, an automobile and a street car at Ogden avenue and Van Buren street. Those hurt are Miss Vita De Chiera, 29 years old, 5316 South Kilpatrick avenue; Miss Mildred Hanzlik, 27, of 5312 South Kilpatrick avenue, both passengers in the cab, and Edward Hallin, 55, of 5447 Kamerling avenue, driver of the other automobile. Hallin's car was struck by the street car, then careened into the cab and truck.

Alexander Gorden, 34, of 2850 Wilcox avenue, a molder, died early today in Danish-American hospital of injuries suffered Monday when he was struck by an automobile at North and Grand avenue. The driver was Edith Carlson, 45, of 4526 North Sawyer avenue.

Up to 4 p. m. yesterday 554 persons had been killed by automobiles in Cook county since Jan. 1. Of these 391 were killed in Chicago, where 14,629 were injured in traffic accidents during the same period.

DR. CHARLES SWAN, EYE SPECIALIST, DIES IN EVANSTON

Dr. Charles Joseph Swan, eye, ear, nose, and throat specialist, died Wednesday in his home at 1818 Hinman avenue, Evanston. He had practiced in Chicago and Evanston since 1892.

Dr. Swan was born in 1865 in Mansfield, Pa. He received degrees from Mansfield State Normal school, 1885; Hahnemann Medical college, Chicago, 1890, and Northwestern university medical school, 1909. He formerly was eye and ear surgeon on the staff of Evanston hospital. He was a member of the American College of Surgeons, American Medical association, Illinois State Medical society, American Academy of Ophthalmology, Laryngology and Otology, the Evanston club and University club of Evanston.

Funeral services will be held at 2 p. m. tomorrow from the chapel at 1567 Maple avenue.

HIGHWAY SAFETY ADVANCED BY 35 STATUTES IN 1941

The National Safety council reported yesterday that the cause of highway safety has been advanced materially in 1941 by the enactment of 35 statutes by state legislatures. Seven states passed a standard drivers' license law and three an act of the uniform vehicle code for regulation of highway traffic. Two created safety commissions.

New York, Texas, and the city of Portland, Ore., recognized drunkenness tests. Oklahoma and Texas reduced first offense drunken driving from a felony to a misdemeanor in an effort to obtain more convictions. The transfer of highway patrol administration in Illinois to the department of public safety was approved by the council.

The council report states that 36 states now have standard drivers' license laws and only three states have no licensing provisions.

MOVIE AND RADIO SPOKESMEN FACE PROPAGANDA QUIZ

Washington, D. C., Aug. 7 (AP).—Senator D. Worth Clark [D., Idaho], announced today that spokesmen for the motion picture and radio industries would be asked to appear here before a senate group to answer complaints of war propaganda. A senate interstate commerce subcommittee decided to conduct open public hearings on Sept. 3, he said.

"There has been considerable public complaint that the moving picture and radio industries have been using their facilities to inflame the American people to war," Senator Clark said. "This group proposed to ascertain whether or not this is true and should be investigated."

Others on the subcommittee are Charles W. Tobey [R., N. H.], Ernest W. McFarland [D., Ariz.], Wayland Brooks [R., Ill.], and Homer T. Bone [D., Wash.] With the exception of McFarland, a new senator, all members of the subcommittee have been critical of various administration foreign policies in recent months.

July Dole List of 135,900 Sets New Low for City

An all-time low for the number of persons receiving relief in Chicago during any one month was reached during July, Leo M. Lyons, director of the Chicago Relief administration, announced yesterday. A total of 135,900 relief clients were registered, representing a drop of 7,500 from the June total, he said.

UAW HEAD DROPS BROADCAST WITH BRITISH OFFICIAL

Buffalo, N. Y., Aug. 7 [Special].—R. J. Thomas, president of the CIO United Automobile Workers union, today cancelled a proposed two way radio broadcast with Herbert Morrison, British minister of home security. The broadcast was scheduled for tomorrow over the Mutual Broadcasting network.

Partisans of the Roosevelt administration professed to see noninterventionist pressure from John L. Lewis, former head of the CIO, behind the action. However, Thomas denied he intended his action as a snub. He sent to Morrison the following message:

"Sincerely regret necessity of cancelling broadcast. I cannot at this time explain the situation, but it is not in any case a reflection on you whom I and our members hold in high regard. Nor does this cancellation indicate any lack of desire on the part of our union to coöperate with British labor in defense of democracy and opposition to Hitler. I am hopeful that such coöperation may soon be affected."

Court Will Rule Sept. 3 on New State Cigaret Tax

Judge Harry M. Fisher in Circuit court said yesterday he would rule Sept. 3 in the first suit filed here challenging the constitutionality of the new state cigaret tax law which went into effect July 1. S. Bloom, Inc., tobacco wholesalers of 916 South Halsted street, is seeking a temporary injunction to restrain the state from transferring cigaret tax payments made by the company under protest to the state's general fund. The complainant contends the tax duplicates sales tax, placing a double burden on retailers.

COUNT REVEALS FEWER PERSONS ENTERING LOOP

City Traffic Engineer Leslie Sorenson reported yesterday that a count at all entrances to the downtown district on a normal working day in May showed 823,873 persons entered the loop compared to 823,366 on a similar day last year. The survey, known as a "cordon count," is made every year.

Mayor Kelley said that while the number of persons entering the loop is less this year than last year, the fact that approximately 50,000 men are away at army camps should be taken into consideration.

Sorenson's report showed a decrease among users of street cars, elevated trains, and passenger autos, and an increase in users of the railroads and motor buses.

F. D. R. ROAD BILL VETO IS SAVED BY 2 VOTES IN HOUSE

251-128 Tally Climaxes Three Hour Fight.

BY WILLIAM STRAND.
[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—The house today by a two vote margin sustained President Roosevelt's veto of the 320 million dollar highway construction program which was passed by congress ostensibly as part of the nation's preparedness program. The vote was 251 to 128 following a dramatic three hour session in which many little used parliamentary tricks were brought into play.

As a two-thirds majority of those voting is necessary to defeat a Presidential veto, a switch of two votes in favor of the motion to override would have been more than sufficient to prevail. Yesterday the senate voted, 57 to 19, for adoption of the measure despite Mr. Roosevelt's objections.

New Measure Expected.

Defeat of the motion in the house killed the bill which the senate action had kept alive. A new highway bill probably will be introduced in a few days, administration leaders said.

Opponents of the old bill described it as a pork barrel measure designed to give members of congress money to spend in their home districts without too much regard for military needs. The funds were to be allocated to the various states under a peacetime formula based on population, area, and other considerations.

The President contended in his veto message that "the critical deficiencies in highways and bridges that may require prompt correction in the interest of our national defense cannot be reasonably related to the population of states or the other factors which enter into ordinary apportionment."

Second Roll Call Taken.

Supporters of the bill, however, fought stubbornly to get it passed as Speaker Sam Rayburn [D., Tex.] withheld announcement of the roll call vote to give them a last chance at high pressure salesmanship. Then the chair, still without announcing the result, ordered a second calling of the roll when it appeared the motion to override had lost on the first calling.

The vote on the first roll call, altho not announced officially, was reported to have been 252 to 127. After the second roll call the members were permitted, under house rules, to change their votes.

There were a few changes, but these canceled one another until William T. Schulte [D., Ind.] reversed his vote from aye to nay. Then the gavel came down and the chair announced the motion had failed to pass.

WOMAN INVESTOR LEAVES ESTATE FIXED AT $300,000

Disposing of an estate of $300,000, the will of Miss Leonore Kennedy, who died June 16 at the age of 64 in her home at 3750 Lake Shore drive, was admitted to probate yesterday. Half the estate is left to a cousin, Mrs. Alice W. Patterson of San Rafael, Cal., and the rest is divided among four other cousins. Miss Kennedy was known as a successful investor in stocks and the grain market.

The will of Frank L. Wean, retired referee in bankruptcy, disposing of an estate estimated at $105,000 was admitted to probate yesterday by Judge Martin C. Decker in the Lake county Probate court at Waukegan. Mr. Wean died July 24 in his home at 231 Ravine drive, Highland Park. The bulk of the estate is left to a grandson, O. Dickinson Street, of Bronxville, N. Y., and a brother, Edward Wean of Toledo, O.

DRASTIC ACTION HINTED TO END SHIPYARD TIEUP

President May Take Hand in Strike.

[BY THE ASSOCIATED PRESS.]

Hints of drastic government action if necessary to keep shipyards in full production were thrown out by high government officials yesterday after walkouts halted work at four east coast yards.

About 25,000 workers were affected by the disputes which involved the Kearny, N. J., yard of the Federal Shipbuilding and Dry Dock company and three yards operated by Bethlehem Steel—two at Brooklyn and one at Staten Island, N. Y.

The walkouts at the two Brooklyn yards were shortlived. After a conference with management representatives, officials of the CIO industrial union of marine and shipyard workers ordered the 6,000 workers back to their jobs. However, the AFL teamsters union, also engaged in a controversy with the management, continued to picket the two yards as well as that at Staten Island.

May Go to President.

Washington officials made plain that they were chiefly concerned over the CIO strike at the huge Kearny yard engaged on $493,000,000 of naval and merchant ship construction. A spokesman said the navy department was watching the situation closely and an official of the defense mediation board indicated that the case would be turned over to President Roosevelt if the 18,000 employés did not resume work soon.

The mediation board official would not elaborate, but it was recalled that troops were sent to reopen the North American Aviation plant at Inglewood, Cal., when the mediation board advised the White House it was unable to settle the strike there.

Sidney Hillman, acting director of the Office of Production Management, summoned representatives of the union and the management to a conference in Washington with officials of the navy, the maritime commission, the mediation board, and the OPM. When this meeting broke up, it was announced only that no agreement had been reached.

Controversy Over Contract.

The Kearny management and the CIO shipyard union have been engaged in a controversy over a working contract for weeks. Last week the mediation board recommended a settlement which provided for what it described a modified union shop, vacation adjustments, and a 12 per cent wage increase. The union accepted the recommendations, but the management did not, altho it advanced wage scales by 12 per cent.

Union officials said the walkouts at the Bethlehem yards were called to protest company "stalling" on contract negotiations. The union asked that the hourly wage be increased from 78 cents to $1.03 for skilled workers.

The management attributed the difficulty to a dispute between the CIO union and the AFL teamsters. An AFL spokesman said the teamsters were picketing the yards because the company rejected a demand for an increase from 72 cents to $1 an hour.

Launchings Are Delayed.

A cruiser, the Atlanta; six destroyers, three tankers, and two cargo vessels are on the ways at Kearny. The Atlanta was scheduled to be launched Saturday, but L. H. Korndorff, company president, said the launching would have to be postponed.

Among other labor developments yesterday was settlement of a six day strike of AFL carpenters at the $40,000,000 Plum Brook ordnance plant in Ohio. It was agreed to submit to the mediation board the carpenters' request for an hourly rate of $1.37½, an increase of 25 cents.

About 100 employés of the Timken Roller Bearing company, Canton, O., walked out. CIO workers in the carburizing department of the company have demanded a 5 cent increase in the scale of 72½ to 82 cents an hour. The plant employs 7,000 and other departments were not affected.

In the New London, Conn., area, AFL painters on government and private jobs quit work and said they would remain on "vacation" until their pay was raised from $1 to $1.25 an hour. Some of them had been employed at the navy's Groton submarine base.

Few Halt Work of Many.

A work stoppage by a small group of CIO die casters held up work by 1,785 others in an Aluminum Company of America plant in Cleveland. CIO spokesmen said they were protesting the presence of an AFL organizer in the plant. The management said CIO slowdowns had affected work in several departments of five plants.

The labor department certified to the mediation board a strike of AFL electricians who contended Consolidated Edison company had violated an agreement to employ only AFL members on installation of equipment at a new plant in New York City. The strike has been under way since July 28.

The department also certified to the board the strike of AFL boilermakers at Todd Galveston Dry Docks, Inc., Galveston, Tex., which began July 15 after a breakdown in negotiation for a closed shop contract.

The board announced that an agreement had been reached for settlement of a dispute between the CIO United Automobile Workers and the Los Angeles plant of the Aluminum Company of America. It withheld details, but said the union had threatened a strike for a union shop, vacations with pay and wage increases.

Hopson to Pay Funds to Firms He Defrauded

New York, Aug. 7 (AP).—Howard C. Hopson, one time head of the Associated Gas and Electric system, who is serving five years in federal prison at Lewisburg, Pa., has signed an agreement which turns over the bulk of his $5,000,000 personal assets to the companies he was convicted of defrauding, and to the federal and New York state governments for taxes, it was revealed today.

Howard Hopson.

Trustees of the top holding companies filed in federal District court a tentative agreement which is subject to the approval of Judge Vincent L. Leibell, supervising the reorganization of the Associated companies. The federal government announced acceptance of back tax payments both from Hopson and the Associated companies.

Will Retain Some Assets.

Under the plan, Hopson, his family, and certain of his companies retain a $6,000 annuity on Hopson himself, bank accounts totaling $349,068 belonging to two sisters, and interests in trust funds worth $471,081. Hopson agrees to surrender a personal trust fund of $219,000, and his New Jersey country home.

The federal government will receive $1,187,897 from the Hopson interests directly, and the Associated Gas group, in return for assets and cash paid it by Hopson, will clear up a tax claim of $5,700,000, with interest at $1,000 a day since a compromise was reached in 1939.

Plans Retaining Securities.

Associated does not intend to liquidate the $13,594,545, face value of Associated system securities Hopson agrees to surrender to it, and which have depreciated to a market value of $1,871,203. Trustees said they would borrow the money to pay the tax claim.

As collateral for the Associated tax debt, the government has been holding securities valued at about $20,000,000, in NY-PA-NJ Utilities company and some of its subsidiaries.

New York state, under the proposal, is to receive $276,190 for its tax claims. Authorities have not announced whether they will agree to the compromise.

Hopson has served less than a year of his term for using the mails to defraud investors of sums estimated as high as $20,000,000.

OFFICIALS STILL SEEKING WAYS TO MEET SILK NEEDS

Washington, D. C., Aug. 7 (AP).—The problem of shifting the silk hosiery industry to rayon and other fibers was explored today by manufacturers, labor leaders and government officials, but no answers were obtained to many of the puzzling technical questions involved. The discussions will be resumed tomorrow.

Some shift is necessary due to the government ban on silk processing and cessation of silk imports.

A representative of the duPont company, which manufactures nylon, a synthetic fiber, said that the company had removed limitations on the use of nylon in combination with other fibers. Officials said that this would help relieve shortages.

General Bread Price Rise Predicted by Bakeries

One of the food chains raised the price of bread in Chicago ½ to 1 cent a loaf this week and bakers indicated last night a general rise is expected. An increase of 1 cent on the 18 ounce loaf size of white bread has been posted in New York, New Jersey, most of New England, Detroit, and Cleveland. Americans eat approximately 7,000 million loaves of bread a year. If the 1 cent increase becomes general, the additional public outlay for white bread will be close to $70,000,000 annually.

FAIR PRICE RULE POLICY PLEDGED BY HENDERSON

Tells Congress It Won't Be Rigid.

Washington, D. C., Aug. 7 (AP).—A promise that price control legislation would be administered fairly and without rigid ceilings was given to congress today by Leon Henderson of the Office of Price Administration and Civilian Supply, who is in line for appointment as chief of the program.

Under questioning by Representative Clyde Williams [D., Mo.], Henderson told the house banking committee that if he were selected as administrator, he would seek a staff that would "not try to build a rigid ceiling," that would "take the heat out of inflationary situations," and that would set prices under which agriculture and industry could "go forward with this great task."

Says Bill Has Guarantees.

"We have attempted to spell out as many protections and standards as we could," he added.

Henderson said that altho a price control administration probably would have direct responsibility for administering the program, the powers President Roosevelt has asked congress to grant would be exercised in many cases by other departments or agencies of government. For example, Secretary of Commerce Jesse Jones might be "supreme" in the field of special commodity purchases and the justice department might have the final word in enforcement problems.

Henderson flatly rejected a suggestion by Williams that the measure should contain controls for wages as well as prices.

Rejects Wage Proposal.

He said that while wages and other costs should be regulated to prevent inflation, such restrictions had no place in a price bill because they involved income rather than market prices.

Asserting that wage determinations rest upon the collective bargaining process thru numerous agencies, Henderson said:

"I do not regard it necessary to include in a price control bill all the elements—utility costs, interest charges, transportation costs, and personal services.

"But I am not unmindful that unless they are kept in bounds it would be impossible to control inflation. My conception is a need for a close working relationship between the agencies charged with the responsibility of keeping in bounds these various factors."

[Secretary of the Treasury Henry Morgenthau Jr. told a press conference that when he appears before the house banking and currency committee he would support the demand made Wednesday by Leon Henderson for curbing excesses in the field of instalment purchasing. Morgenthau and Henderson are agreed that the controls should be exercised by the federal reserve board.]

BIG SALES GAINS BY DEPARTMENT STORES SHOWN

Department store sales in the 7th [Chicago] federal reserve district during the week ended Aug. 2 were 24 per cent larger than in the corresponding week a year ago, the Federal Reserve Bank of Chicago reported yesterday. Chicago sales were up 12 per cent. Sales thruout the country averaged 27 per cent above last year.

Compared with the preceding week, sales in the 7th district were up 14 per cent and in Chicago they were up 11 per cent.

For the four weeks ended Aug. 2 sales for the district increased 22 per cent above the like 1940 period and in Chicago they were up 13 per cent.

Chicago Industries Affected by 312 U. S. Priority Ratings

Chicago industries are affected by 312 priority ratings, the Chicago Association of Commerce reported yesterday after a survey. The association is seeking to learn how many local companies are being limited in purchases by priorities.

The association classified the items involved as follows: Military equipment group, 51 items; chemicals and related products, 40; electrical apparatus, 33; leather products, 3; machinery, 43; metals, 27; metal products, 21; petroleum and other oils, 3; rubber products, 5; scientific equipment, 46; textiles and clothing, 19; transportation equipment, 14; wood products, 9, and miscellaneous, 8.

Additional Awards Made.

Government rearmament awards announced for companies in Illinois and neighboring states included a $1,961,372 order for trucks to the Diamond T Motor Car company of Chicago. Others were:

Harley Davidson Motor company, Milwaukee, motorcycles, $591,915; General Motors corporation, Guide Lamp division, Anderson, Ind., cartridge cases, $2,450,000; Servel, Inc., Evansville, Ind., cartridge cases, $797,297; International Harvester company, Fort Wayne, Ind., trucks, $757,356; Pratt Manufacturing company, Coldwater, Mich., 216,000 cots costing about $1 each, and Illinois Range company, Chicago, kitchen equipment, $23,496.

Award Plant Contracts.

Contracts for the construction of a $4,884,000 shell loading plant and ordnance warehouse at Momence, Ill., were awarded by the war department to the Henry Ericsson company and Nimmons, Carr & Wright, both of Chicago. Approximately 3,000 acres will be utilized and 500 persons employed at the plant.

A $7,500,000 loan to Northrup Aviation, Inc., Inglewood, Cal., which includes $3,000,000 of Reconstruction Finance corporation funds, was announced at Washington, D. C. The company holds large military contracts.

PRODUCTION OF LIGHT TANKS INCREASED BY 1,260 PCT. IN QUARTER

Washington, D. C., Aug. 7 (AP).—Production of light tanks increased 1,260 per cent during the second quarter of this year over the total for the first three months of 1941, statisticians computed today. The actual number of the 18 ton war machines produced was not disclosed, but it was learned that more than 225 a month are being delivered.

The Office of Production Management does not make public figures on the output of guns, tanks, and powder but it was learned that it has just compiled these percentages on the increases during April, May, and June over January, February, and March:

Machine guns, 69 per cent; medium [27 ton] tanks, 237; smokeless powder, 126; TNT, 46; bombers, 45, and training planes, 40 per cent.

Wholesale Prices Rise 0.5 Per Cent More in Week

Washington, D. C., Aug. 7 (AP).—The bureau of labor statistics reported today an increase of 0.5 per cent in the general level of wholesale commodity prices for the week ended Aug. 2. The bureau's index now stands at 89.2 per cent of the 1926 average, compared with 87.7 a month ago and 77.0 a year ago.

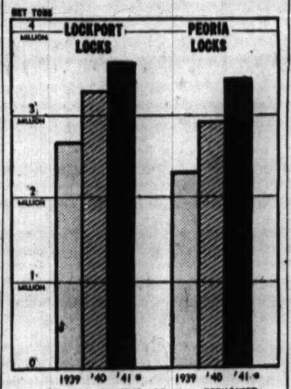
July Traffic on Waterway Sets Record

All seven locks on the Illinois waterway handled more traffic in July than in any other month in the waterway's history, Col. C. Keller, army district engineer, reported yesterday.

Col. Keller also said that if the current trend is maintained 1941 will be a record year both for the entire waterway and for the Illinois river section. He predicted that this year's volume on the Illinois waterway will be 6,300,000 tons, compared with the former record, set in 1940, of 5,729,356. The 1941 total for the Illinois river section will be 4,250,000 tons, he estimated, compared with 3,745,294 in 1940.



Traffic thru Lockport and Peoria locks since 1939.

The new monthly records for the seven locks were: Lockport, 390,567 net tons; Brandon road, 384,091; Dresden island, 380,648; Marseilles, 365,456; Starved Rock, 359,700; Peoria, 365,705, and New La Grange, 152,190.

Col. Keller estimated the 1941 volume at the Lockport locks at 3,600,000 tons, compared with 3,233,777 in 1940 and 2,687,385 in 1939. He said this year's tonnage at the Peoria locks probably will be 3,350,000, compared with 2,942,225 in 1940 and 2,273,391 in 1939.

FREIGHT TRAFFIC DIPS MORE THAN USUAL FOR WEEK

Revenue freight loadings by railroads during the week ended Aug. 2 totaled 883,065 cars, a decrease of 14,334 cars, or 1.6 per cent, from the preceding week, the Association of American Railroads reported yesterday. The total was 165,138 cars, or 23 per cent, above that of the corresponding week last year, and 226,512 cars, or 34.5 per cent over the same week in 1939.

All classes of loadings except forest products decreased, and the decline was considered larger than seasonal. Grain and miscellaneous freight shipments showed the steepest drop.

Loadings of the various commodities compare as follows:

N. Y. BROKERAGE FIRM MAY OPEN CHICAGO OFFICE

Hirsch, Lilienthal & Co., New York security and commodity brokerage firm for 30 years, is considering the establishment of a Chicago branch, Howard C. Hirsch, senior partner, said yesterday. Hirsch and Ernst Englander, another partner, arrived at the Drake hotel several days ago to survey the local financial community.

Hirsch is a member of the Chicago Board of Trade and Englander has applied for membership in the Chicago Mercantile exchange.

However, the firm has never maintained an office here, having limited operations to New York City, where it has six offices, and to Europe, where it has offices in Geneva and London.

Call Vote on Dissolution

Stockholders of International Paper and Power company have been called to a special meeting Sept. 25 to vote on dissolving the holding company and the distribution to each shareholder and warrant holder of corresponding securities of a New York corporation to be known as International Paper company.

The present International Paper company would be consolidated into the successor corporation.

There no longer is any need for the existence of the holding company now that the hydro-electric investments of it and International Paper company are substantially disposed of, R. J. Cullen, president, told stockholders. Stockholders of record Aug. 18 will be entitled to vote at the special meeting.

MERGER OF TWO CHICAGO FIRMS IS PUT TO VOTE

A plan for the merger of Utility and Industrial corporation and General Finance corporation, both of Chicago, was presented yesterday to Utility and Industrial stockholders. They were asked to vote on the proposal at a special meeting Sept. 18.

Utility and Industrial is an investment company. General Finance is engaged in financing instalment purchases of motor vehicles, writing insurance on the vehicles financed and in personal loans.

Remaining assets of Utility and Industrial, as of June 30, were placed at $1,675,253, compared with net asset value at the end of 1929 of $33,545,757.

Stockholders were told that expenses and taxes for the last 3½ years have amounted to 71.1 per cent of all dividends and interests received, while net investment income during that period has averaged less than 4 cents a share annually on the preferred stock compared with cumulative dividend requirements of $1.50 a share. No preferred dividends have been paid since 1932 and none ever have been paid on the common.

RESERVE BOARD INDEX ADVANCES TO 162 IN JULY

Washington, Aug. 7 [Special].—The Federal Reserve board's index of industrial production reached 162 in July, compared with 104 before the outbreak of war and 115 before the inauguration of the rearmament effort in May, 1940, the board announced today. Activity is now at a point where shortages are evident in many lines, particularly in the supply of metals and other basic materials, the board said.

Since last autumn the output of basic metals has shown little further increase while production of airplanes, ships, machinery, railroad equipment, and automobiles has continued to increase.

The cost of living, which had shown little rise before March, had advanced about 15 per cent by July and was 8 per cent higher than before the war, the bulletin said.

EMPLOYMENT LIFTED TO NEW PEAK ABOVE 53 MILLIONS IN JUNE

New York, Aug. 7 (AP).—Employment in the United States reached the highest peak in history during June, affording jobs to 53,120,000 workers, the National Industrial Conference board, a private research agency, estimated today. The total was 1,359,000 above the number employed in May, 6,193,000 above the figure for June, 1940, and more than 5,000,000 ahead of the 1929 average.

Unemployment, the board reported, dropped to 2,536,000 in June from 3,848,000 in May, reaching the lowest level since June, 1930.

Larger than seasonal gains were shown in all employment fields. The number of workers in manufacturing showed a contra-seasonal increase of 200,000; construction provided jobs for 333,000 more persons in June than in May, the total exceeding 3,000,000 for the first time since September, 1930.

Since June, 1930, the increase in the total labor force has amounted to about 6½ million persons, the board said.

Protest Adding to Washington Building Jam

BY AL CHASE.

Opposition to plans for the construction of a 35 million dollar office building to house 40,000 war department workers "in or near the District of Columbia," was voiced yesterday by the National Association of Building Owners and Managers.

Leo J. Sheridan.

Leo J. Sheridan of Chicago, president of the association, in a letter to members of a senate subcommittee studying decentralization of government offices, urged that the projected structure be delayed until a study of decentralization is completed and conclusions reached.

The contemplated structure would be the world's largest office building, it was said.

Termed Serious Error.

It was asserted that erection of another huge structure in overcrowded Washington before full discussion of the question of moving bureaus to other cities where plenty of office space is available, might be a serious error.

"In some degree the decentralization movement already is under way," Sheridan wrote.

"Until a conclusion has been reached and a constructive policy adopted, it would be a grave mistake to initiate a line of action involving time, money, materials and labor—not to mention consequences later on—that ignores and conflicts with the general purpose sought."

An Outstanding Target.

Sheridan observed that such a huge structure as contemplated for war department workers would be an outstanding target in case of an air raid on the capital.

Its construction, he said, would consume materials and divert labor urgently needed for armament production, thus defeating the purpose of the priorities system.

Sheridan asserted that there are more than 30 million square feet of unoccupied rentable office building space available thruout the country.

"Not to make use of what is readily available, to the extent that it can serve in this emergency, would be a wanton disregard of economic resources which even a country as rich as ours could ill afford," he said.

CONGRESS GIVEN 86 PROPOSALS FOR SECURITIES LAW REVISIONS

SEEK OPTIONAL CONTROLS OVER PENSION FUNDS

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—The Securities and Exchange commission today made known its views on regulation of pension trusts and other employé benefit plans as part of its recommendations for revision of the securities laws.

For some time business organizations and insurance companies which underwrite big policy contracts for employé coverage have been uncertain about the degree to which such plans may be claimed by the SEC for supervision and regulation.

Favors Some Exemptions.

In its report to congress today the commission made this recommendation:

"The commission proposes that the act [securities act of 1933] exempt employés' plans in those cases where the funds are held in trust, where the employer is required to make periodic cash contributions [which, however, may be conditioned upon earnings], where 75 per cent of the funds are required to be invested in restricted types of securities, where the benefits under the plan accrue only to the employés, where the employés' contributions may not be forfeited at any time, where a fair summary of the plan and certain financial data are sent to each employé, and where copies of the summary and of the plan are filed with the commission. As to plans not meeting such specifications, the proposal would give the commission rule making authority to exempt from registration on appropriate conditions."

Opposes Paddock Bill.

The commission said that it had been urged to dispense with the registration requirements imposed on certain types of pension plans, which were held subject to the securities act of 1933, because they contained provisions sufficiently safeguarding the interests of employés to warrant their being automatically exempted. This may be true in some cases but not in others, the SEC continued, and then proposed that it be given flexible authority to rule on exemptions.

The SEC opposed completely a bill introduced on June 16 by Representative George A. Paddock [R., Ill.] to exempt from the act employés' pension and other benefit plans. Commenting upon the Paddock bill, the SEC said:

"Altho the commission believes that in general employés' plans are highly desirable, it believes also that there are many plans as to which employés are entitled to assurance that there will be disclosed to them the essential facts concerning their payments, how those payments will be invested, and the conditions upon which they will be returned.

Cites Fraud Protection.

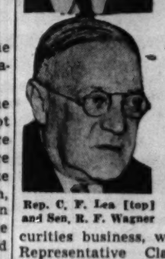
"The [Paddock] bill would not only exempt employés' plans generally from the registration provisions of the act, but it would also deprive employés of the protection now afforded them by the fraud provisions of the statute. Even if it be assumed that there are situations in which the protection of employés does not justify the expense of registration, it hardly follows that employés should be denied a right under the act to recover from employers who have actually deceived them."

Bankers, Dealers and SEC Agree on Many Items.

BY JOHN FISHER.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 7.—Far-reaching changes in the federal securities laws, marking the first complete overhauling since their enactment in 1933 and 1934, were proposed to congress today in separate reports by the Securities and Exchange commission and the securities industry. A total of 86 amendments is recommended.



Rep. C. F. Lea [top] and Sen. R. F. Wagner

The voluminous documents, prepared after nearly one year's joint consultations between the SEC and representatives of the securities business, were presented to Representative Clarence F. Lea [D., Cal.], chairman of the house committee on interstate and foreign commerce, and Senator Robert F. Wagner [D., N. Y.], chairman of the senate banking and currency committee. Hearings are scheduled to start soon after Labor day and enactment of amendments is expected to be pushed.

Agree on Many Points.

In general, the securities business proposes amendments for simplification of procedure and removal of some restrictive provisions in security transactions. The SEC concurs in some of these but adheres to strict regulation and in some respects suggests extension of its powers.

Both sides emphasized the "wide area of agreement" of the two parties, the SEC on the one hand, and the securities business on the other. Representing the latter were the Investment Bankers Association of America, National Association of Securities Dealers, Inc., New York Stock exchange, New York Curb exchange, and the regional exchanges.

31 Points Are Disputed.

Of the 86 proposed amendments, 48 relate to the Securities act of 1933, and 36 to the Securities Exchange act of 1934. The remaining two relate to the bankruptcy act.

Concerning amendment of the Securities act of 1933 the SEC and the industry agree on 33 points and disagree either completely or partially on 15 recommendations. There is agreement on the amendments to the bankruptcy act. Agreement has been reached as to 20 of the 1934 act proposals, while the remaining 16 are in complete or partial disagreement.

1933 ACT

Recommendations affecting the 1933 act included:

1. Agreement for the simplification of registration procedure under the 1933 act; easing restrictions on use and delivery of prospectuses; greater freedom for dealers to distribute analyses of securities already issued, with full liabilities retained for those furnishing untrue or misleading information; a new requirement that issues sold to insurance companies and certain other direct purchasers be registered, and that congress restate the purposes of the act with emphasis on the provision that the commission must consider it in the public interest and that honest business be permitted to be conducted efficiently.

2. Points of disagreement concerning proposed amendments include the industry's recommendation that exemption from registration of small issues be raised from the present $100,000 minimum limit to $500,000. The SEC recommends a maximum of $300,000.

Would Exempt 15 to 30 Pct.

It is estimated that 25 or 30 per cent of the issues heretofore required to register with the SEC would be eliminated if the $500,000 limit is adopted, or about 15 per cent would be eliminated with adoption of the $300,000 limit.

3. The industry also recommended that public utility holding companies and their subsidiaries, which comply with registration and disclosure requirements of the 1935 public utility

CHAIN STORE HISTORY.

I would like some information about the Great Atlantic and Pacific Tea company. When did it first become a national chain? Are any of its shares publicly held?—L. F.

Answer: The chain store method of merchandising is said to have had its genesis in the purchase and distribution of a shipload of tea in 1859 by George Huntington Hartford, founder of the Great Atlantic and Pacific Tea company.

Hartford, a young Yankee trader, thought tea could be sold at less than the $1 a pound prevailing price. So he bought a boatload. This single transaction amply demonstrated the large savings made possible by direct buying and mass distribution. With George Gillman, a New York leather merchant, he formed a partnership that soon was making house to house sales from wagons of tea, coffee, baking powder, and spices.

When the great Chicago fire of 1871 laid waste to the city, an emergency appeal went out for food. The Hartford organization was said to be the first to reach the city with anywhere near adequate supplies. Hartford saw possibilities for expansion of his chain, then consisting of 100 stores in New York, and opened his first Chicago stores.

In 1912 his son, John Hartford, got permission to open a store that would not accept telephone orders, make any deliveries or extend credit. It proved such an amazing money maker that the company had 7,500 similar stores by 1915.

Today this company operates the largest retail food chain, having more than 9,000 stores thruout the United States. Among its subsidiaries are the Atlantic Commission company, largest individual purchaser of fresh fruits and vegetables, and the American Coffee corporation, world's largest coffee purchaser. At the end of its fiscal year on Feb. 28, 1941, it reported total assets of more than $204,000,000.

Sales in the last fiscal year were $1,115,774,058, compared with $990,358,339 in the 1940 fiscal year. Net income was $18,336,618, equal to $7.92 a common share, against $18,663,571, or $8.07 a share a year earlier. The company paid dividends of $8 a share in 1940. Dividends in varying amounts have been continuous since incorporation of the present company in 1925.

It has no bonded debt. There is unlisted trading in the 259,262 shares of 7 per cent cumulative first preferred stock and the 935,812 shares of nonvoting common stock on the New York Curb exchange. All voting power is centered in 1,150,000 shares of common which is owned by the New York Great Atlantic and Pacific Tea Company, Inc.

Notice of Redemption
AMERICAN WIRE FABRICS CORPORATION
First Mortgage 7 Per Cent Twenty Year Sinking Fund Gold Bonds, Series A.

NOTICE IS HEREBY GIVEN that pursuant to Article III of the First Mortgage Indenture dated September 1, 1922, between American Wire Fabrics Corporation and The Equitable Trust Company of New York, as Trustee, American Wire Fabrics Corporation has elected to redeem and hereby calls for redemption on September 1, 1941, all of the First Mortgage 7 Per Cent Twenty Year Sinking Fund Gold Bonds, Series A, issued and outstanding under said Indenture at the principal amount thereof plus accrued interest thereon to September 1, 1941 and a premium of 1% of such principal amount.

On September 1, 1941, said Bonds shall become due and payable at said redemption price, and interest upon said Bonds shall cease after said date.

Holders of said Bonds should present and surrender them for redemption and payment on or after September 1, 1941 at the office of The Chase National Bank of the City of New York, Corporate Trust Department, 11 Broad Street, New York, N. Y. In the case of coupon Bonds, all coupons maturing after September 1, 1941 should be attached. Interest coupons maturing September 1, 1941 may be detached and presented for payment in the usual manner. Registered Bonds without coupons and coupon Bonds registered as to principal must be accompanied by duly executed instruments of assignment or transfer powers in blank.

STOCK MARKET AGAIN DAWDLES WITHOUT TREND

Several Individual Issues Show Strength.

New York, Aug. 7 (AP).—Quiet strength of assorted specialties gave the stock market a fairly stabilized appearance today altho many continued to falter.

Earnings, actual and prospective, brought bids for individual issues notwithstanding the fact many company statements disclosed the heavy inroads mounting taxes were making on profits.

The same recent buying handicaps persisted, brokers said.

Strike News Disturbing.

Market handicaps included fears of far eastern eventualities, conflicting German-Russian war communiques, doubts regarding pending tax legislation, and the thought proposed price control legislation might effectively curb inflation. A new outbreak of strikes accentuated conservatism.

The Associated Press average of 60 issues again was unchanged at 43.9. It was the ninth consecutive session in which this composite failed to advance. Transfers totalled 497,120 shares against 581,170 the day before.

CHICAGO LIST MIXED.

Seven issues advanced to new 1941 highs yesterday as Chicago Stock exchange prices showed a stronger trend. Transfers totaled 28,000 shares, with 44 issues advancing, 32 declining, and 27 unchanged.

The new peaks were set by Brown Fence "A," 9⅞; Peter Fox Brewing, 23¾; Loudon Packing, 3½; Midland Utilities prior lien, 14½; North West Utilities prior lien, 68¼; Peoples Gas, 49⅛, and Swift & Co., 24⅞. Volume leaders included Paramount Pictures, 1,650 shares, 14, off ⅛; Commonwealth Edison, 1,650, 26, off ⅝, and Libby, McNeill & Libby, 1,600, 5⅞, up ⅛.

Of the dually traded stocks dealt in from 2 to 2:30 o'clock, International Harvester, Paramount Pictures, and Peoples Gas closed ⅛ lower than at New York, and Commonwealth Edison and New York Central, ⅛ higher.

People and Events

Incidents during his long career were recalled last night by Dr. John Robert Gregg, New York, inventor of the Gregg system of shorthand, in an extemporaneous talk in the Edgewater Beach hotel. He spoke before more than 150 teachers attending the summer school for shorthand teachers at the Gregg college, 6 North Michigan avenue. The instructors are from all sections of the United States and from Canada.

DAY by DAY on the FARM by BOB BECKER

Corn Crop Assured.

August 7, 1941.

"THE corn crop is made."

That was the good news the Du Page county farm workers were discussing yesterday as they commented on the beneficial effects of the rain which fell earlier in the week.

The Du Page county farm and the Fox river farm were in the path of the spotty rains which fell on many Chicagoland fields. The Fox river farm had three hard showers, each of which lasted more than a half hour. In the vicinity of the Du Page county farm the rain fell steadily for almost five hours.

Just What They Ordered.

The Fox river farm manager told us two weeks ago that he would have an exceptional corn yield even without a rain before picking time, but that if the corn had one soaking rain, the harvest would be one of the heaviest in 15 years. So the showers were just what many farmers had ordered, and it appears that an exceptional corn crop is almost a certainty on both farms.

The oat yield also has been good, altho not as heavy as last year's bumper crop. On the Du Page county farm the manager says that the final figures show a return of 51.4 bushels an acre on 55½ acres.

On the Fox river farm the final figures on the oat yield have not been compiled, but the first 21 acre field produced 1,285 bushels, an average of more than 61 bushels to the acre. The oats this year are of high quality and weight on most Chicagoland farms. A sample of the grain threshed on the Fox river farm tested 35 pounds to the bushel, and one farmer near Yorkville had a sample testing close to 39 pounds to the bushel.

Change Work Schedule.

The rains forced a change in the work schedule. The threshing ring, which has been operating for more than two weeks on the Fox river farm and neighboring farms, had to suspend operations this week as a result of the showers.

The shocked oats were dampened so thoroly that they had to be left standing for two days before the men would attempt to run them thru the threshing machine. So the 21 men in the threshing ring returned to their own farms to do odd jobs until the weatherman gave them an official O. K. to return to their bundle pitching and threshing.

The next major job on the Du Page county farm will be the cutting of a third crop of alfalfa. Usually the men cut the alfalfa only twice, but the spring growing season was so good that a third cutting is to be the general rule among farmers in that area.

CONGRESS GIVEN 86 CHANGES FOR SECURITIES LAWS

SEC, Bankers, Dealers Ask Revisions.

[Continued from page 21, column 8.]

act, should not be required to go thru registration procedures of the 1933 act. The SEC recommends that dual registration should continue.

4. Probably the widest disagreement is on section 5 of the 1933 act covering underwriters' methods of distributing securities and the use of prospectuses. The industry proposed that for seven days after registration date the sale of securities be allowed without the use of a full prospectus. The SEC view is that the protection of the investor requires that the full prospectus be in the hands of the prospective buyer at least one full day before required to sign a sales contract.

5. One of the points of agreement is for simplification of the prospectus for general circulation, covering possibly four instead of fifty pages.

To Clarify Liabilities.

6. Agreement is reached on clarification of a section dealing with civil liabilities to differentiate between liabilities attaching to prospectuses on new issues and those relating to already outstanding issues and to provide for liabilities on reports, etc.

7. Another important suggestion would change the composition and setup of the SEC. The industry proposes that the membership be increased from five to nine members, salary be raised from $10,000 to $15,000, the tenure of office be increased from 5 to 10 years and a retirement system be instituted. The industry complained that there have been five chairmen and a high turnover of membership since creation in 1934.

The industry favors greater continuity of office and suggests that the commission be enlarged to allow important decisions by the commissioners themselves rather than by heads of departments or divisions. As an alternative to increasing the size of the commission the industry recommends that administration of the public utility holding company act of 1935 be transferred to a new commission created for that purpose. The commission opposed the latter suggestion and proposal for increase in membership and decided it was imprudent to comment upon the salary and tenure of office question.

8. A proposal by the SEC that it be allowed to exempt certain classes of persons from the duties and liabilities of underwriters is opposed by the industry.

1934 ACT

Recommendations as to the 1934 act included:

1. Proposals concerning the scope of the act include one which would extend proxy regulations to the securities of all large companies which are widely held even if the securities were not listed on an exchange. The New York Stock and Curb exchanges sponsored this proposal with the approval of the SEC.

2. Another revision would extend the reporting requirements to the directors, officers, and large stockholders of all large companies which are comparable in general to those whose securities are listed. This proposal was also made by the two New York exchanges, with the SEC declaring it would not oppose.

3. Two proposals were made by the federal reserve system concerning the regulation of margin requirements and loans, and won concurrence from the SEC and the industry. These would clarify federal reserve powers and give them more flexibility, it was explained.

Broadens Loan Regulation.

The first would give the federal reserve board authority to regulate loans made for the purpose of purchasing or carrying any securities whether or not such securities are equity securities registered on an exchange. The second is that regulation of borrowing and of capital condition be extended to all registered brokers and dealers as well as members of exchanges and brokers or dealers who transact business thru such members.

4. An industry proposal to eliminate the requirement that securities already registered with the SEC must be registered again if it is desired to list them on an exchange has SEC approval.

5. The industry also offered a number of amendments to clarify the regulation of persons acting as both brokers and dealers. The SEC opposes the industry proposals on the grounds that it is still studying the feasibility of complete segregation of broker and dealer functions.

6. The industry and SEC are in agreement on a proposal that a broker or dealer be permitted to extend credit on a new security as soon as he has completed the initial distribution instead of being prohibited for six months from extending credit to customers on that security as the law now requires.

Expulsion Power Opposed.

7. The SEC proposes that its power to expel exchange members be extended to include expulsion for violation of exchange rules. The industry strongly opposes this recommendation.

8. Another SEC proposal would give it authority as to the classification of exchange members, election of officers and disciplinary action. This is also opposed by the industry.

9. SEC recommendation that it be empowered to suspend or postpone temporarily any rule which an exchange might issue as to which the SEC now has power of alteration or supplement, is acceptable to the industry.

The industry representatives declared it was the intent of their recommendations to "make the acts more equitable and to modify procedures to make it possible to transact business more efficiently without impairing the protection afforded investors by the requirement of fair and adequate disclosure of information."

Produce Firms Will Pay 500 Employes Back Wages

Voluntary payment of $42,000 in back wages to 500 employés of 112 Chicago produce firms was announced yesterday. All of the firms are members of the South Water Market association. Thomas O'Malley, regional director of the wage and hour division of the department of labor, said an agreement was made to pay the back wages, mostly for overtime work, to bring the produce firms into immediate compliance with the fair labor standards act.
